**A History of the Iziko**

**South African National Gallery** Anna Tietze,2017-06-14 In South Africa with its highly contested and changing

understandings of national identity its National Gallery is no less a contested space A History of the Iziko South African

National Gallery considers questions of artistic and cultural identity from the late 19th century to the present day It explores

how the gallery has understood its function and its public as a national gallery from 1930 and before that the chief gallery of

the Cape Colony This question is investigated through a study of the gallery s administration collection and exhibition

practices over the last 150 years What is understood by and expected of a national gallery varies considerably worldwide

Should it regard itself as part of a broad international cultural discourse or should it be representative of a specifically

national or even regional identity The gallery is a microcosm of the greater debate how the South African nation relates to

the larger world and how if at all it understands the concept of a shared culture In the last 20 years Museum Studies have

become a major part of the field of Cultural Studies There is a vast literature on what might be called the history museum but

far less on the art museum or gallery To date there has been no large scale historical inquiry into the Iziko SANG the country

s national gallery The absence of such a history marks a serious gap in the literature which this study aims to fill
