**The American Midwest** Andrew R. L. Cayton, Susan E. Gray, 2001-09-28 The American Midwest Essays on Regional History Edited by Andrew R L Cayton and Susan E Gray Is there a Midwest regional identity Read this lively exploration of the Midwestern identity crisis and find out Many would say that ordinariness is the Midwest's historic burden A writer living in Dayton Ohio recently suggested that dullness is a Midwestern trait The Midwest lacks grand scenery Just cornfields silos prairies and the occasional hill Dull He tries to put a nice face on Midwestern dullness by saying that Midwesterners like Shaker furniture are plain in the best sense unadorned Others have found Midwestern ordinariness stultifying Neil LaBute who makes films about mean and nasty people said he was negative because he came from Indiana We're brutally honest in Indiana We realize we're in the middle of nowhere and we're very sore about it from Chapter Five Barbecued Kentuckians and Six Foot Texas Rangers by Nicole Etcheson In a series of often highly personal essays the authors of *The American Midwest* all of whom are experts on various aspects of Midwestern history consider the question of regional identity as a useful way of thinking about the history of the American Midwest They begin with the assumption that Midwesterners have never been as consciously regional as Western or Southern Americans They note the peculiar absence of the Midwest from the recent revival of interest in American regionalism among both scholars and journalists These lively and well written chapters draw on personal experiences as well as a wide variety of scholarship This book will stimulate readers into thinking more concretely about what it has meant to be from the Midwest and why Midwesterners have traditionally been less assertive about their regional identity than other Americans It suggests that the best place to find Midwesternness is in the stories the residents of the region have told about themselves and each other Being Midwestern is mostly a state of mind It is always fluid always contested always being renegotiated Even the most frequent objection to the existence of Midwestern identity the fact that no one can agree on its borders is part of a larger regional conversation about the ways in which Midwesterners imagine themselves and their relationships with other Americans Andrew R L Cayton Distinguished Professor of History at Miami University in Oxford Ohio is author of numerous books and articles dealing with the history of the Midwest including *Frontier Indiana* Indiana University Press and with Peter

**The Domestic Politics of Terrorism** Derick L. Hulme Jr., 2019-12-19 The Domestic Politics of Terrorism Lessons from the Clinton Administration explores the Clinton administration s development of a novel playbook by which to exploit terrorism for domestic political advantage focusing particularly on the importance of issue framing instrument selection and implementation strategies While Americans were introduced to transnational terrorism long before the first World Trade Center bombing in 1993 it was Clinton who first confronted large scale terrorism targeting Americans both at home and abroad and who developed an invaluable template for future policymakers navigating a political landscape increasingly defined by high profile terrorist events

*Changing and Unchanging Face of U.S. Civil Society* Marcella Ridlen Ray, 2017-12-02 Ray has written a book that should be read by anyone interested in the current debates about the general health of civil society in the United States American Journal of Sociology The formation maintenance and well being of American civil society is a topic of intense debate in the social sciences Until now this debate has lacked rigor with the term civil society commonly used interchangeably and imprecisely with other terms such as civic engagement Today s discourse also lacks methodological discipline and relies too heavily on narrowly selected evidence in support of a particular argument In this invaluable contribution to the debate Marcella Ridlen Ray supplies an empirical study based on a theoretical model of democratic civil society one that posits high levels of communication diversity autonomy mediation and voluntary association In Ray s account the emergent story of U S civil society is that of a dynamic institution not necessarily one that is linear in its progression It is a tale of flux resilience and stability over the long term that is consistent with subtexts on political equilibrium she notes in the work of early political analysts such as Aristotle Machiavelli Locke Burke and later Tocqueville

Ray dispels the widely accepted myth that Americans are increasingly apathetic and withdrawn from common interests. The evidence reveals a persistence of long standing public spiritedness despite the fact that individuals use wider discretion in deciding if and how to attach to community and despite a historical lack of enthusiasm for performing civic duties in lieu of more pleasurable leisure activity. This public spiritedness continues to reflect embedded religious cultural values that disproportionately influence how and when people dedicate time and money to associational life. U S civil society has grown more inclusive and democratic as Americans venture at growing rates across differences in perspective.

**The Integrity Model of Existential Psychotherapy in Working with the 'Difficult Patient'** Nedra Lander, Danielle Nahon, 2006-05-02 Dealing with the therapeutic impasse is one of the most challenging tasks faced by therapists. The Integrity Model of Existential Psychotherapy in Working with the Difficult Patient describes how the Integrity model of psychotherapy provides an original solution to dealing with difficult issues such as resistance acting out counter transference guilt value clashes and cultural diversity. The Integrity model is based on an existential approach to living and views psychological difficulties as stemming from a lack of fidelity to one's values. In this book the authors explore how this approach to psychotherapy can enhance other therapeutic models or stand on its own to offer a valuable alternative perspective on the causes of mental illness. Case material is provided to illustrate the value of the Integrity model in relation to a range of clinical issues including Borderline Personality Disorders Antisocial Personality Post Traumatic Stress Schizophrenia Workplace Stress Addictions. This book provides a provocative and insightful presentation of the subject of impasses as well as dealing with associated issues including the role of values in psychotherapy community spirituality and therapist responsibility. It will be of great interest to counsellors and psychotherapists.

**Personality and Person Perception Across Cultures** Yueh-Ting Lee, Clark R. McCauley, Juris G. Draguns, 2013-05-13 Neither human nature nor personality can be independent of culture. Human beings share certain social norms or rules within their cultural groups. Over 2000 years ago Aristotle held that man is by nature a social animal. Similarly Xun Kuang 298-238 B C a Chinese philosopher pointed out that humans in social groups can not function without shared guidance or rules. This book is designed to provide readers with a perspective on how people are different from and similar to each other both within and across cultures. One of its goals is to offer a practical guide for people preparing to interact with those whose cultural background is different from their own.

**The Path to Paralysis** Donald G. Nieman, 2024-10-15 How did the world's oldest democracy lose its mojo? How did we get to a point where we face existential crises like climate change yet leaders can't agree that there's a problem let alone develop solutions? Political leaders bear some of the responsibility. Newt Gingrich Sarah Palin and Donald Trump to name a few have shattered political norms and transformed our politics into a free for all in which personal attacks appeals to bigotry and fear disregard for truth and disdain for governing have become the norm. But they are more a symptom than the cause. The Path to Paralysis examines changes in political culture during the past 60 years conflict over race religion and gender wrenching economic

changes and growing concentration of wealth the end of the Cold War hardening regional divisions and dramatic changes in communications that made Donald Trump possible if not inevitable Long in the making these cross currents came together in the early 21st century as the United States experienced the deepest recession since the 1930s and elected its first Black president to create the perfect storm The result was toxic and deeply polarised politics that threatened the existence of constitutional government

Astrology and Popular Religion in the Modern West Nicholas Campion, 2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west

**Public Opinion, Crime, And Criminal Justice** Julian Roberts, 2018-10-08 Taking on one of the most popular issues of the day crime and the way we make sense of it Julian Roberts and Loretta Stalans reveal the mismatch between the public perception of crime and the reality of crime statistics Discussing such issues as public knowledge of crime sources of crime information information processing by the public public attitudes about crime and the effectiveness of punishment this book considers the role that public opinion plays in the politics of criminal justice issues Based on extensive data from the United States with comparisons with Canada and the United Kingdom Roberts and Stalans reveal the truth behind how the public perceives crime and how this perception compares to actual criminal activity

**Cancer in Context** James Brennan, Clare Moynihan, 2004 This book offers healthcare professionals academics and anyone affected by cancer a fresh and original approach to the supportive care of people with cancer It looks at the underlying reasons why cancer so often leads to high levels of distress and more importantly it suggests many practical ways distress can be minimised and prevented The actual experiences of cancer patients as recorded in their personal diaries are combined with theory research and practical clinical advice In each of its seven chapters Cancer in Context takes a different perspective towards supportive care in cancer It begins by considering how people in general manage and adjust to massive changes in their lives and in particular how they react to the threat of cancer It goes on to examine the lived experience of people with cancer as they negotiate the many changes and challenges that follow their diagnosis Of course cancer doesn't only affect the person who has the disease it also impacts on families partners and carers One chapter explores these and other issues such as sexual difficulties the needs of older people single people and gay and lesbian couples Chapter 4 shows that the social and cultural

context of a person's life is critical to understanding their resources the way they are treated and the responses they make to serious illness. However, it is in the clinical context that professionals have an opportunity to minimise disruption to their patients' quality of life as they endure the notorious demands of oncology treatments. The book offers practical clinical advice on psychosocial aspects of conventional cancer treatments, common treatment difficulties, cancer rehabilitation and palliative care. Chapter 6 provides a summary of the burgeoning area of information and communication skills within healthcare and finally the book ends by considering how doctors, nurses, radiographers and other healthcare professionals can maintain their supportive care in light of such high levels of stress and burnout among these staff groups.
