## **Galway Women In The Nineteenth Century:**

**Galway Women in the Nineteenth Century** Maureen Langan-Egan, 1999 This study makes an important contribution to our knowledge of the life experiences of women in the 19th century. It delineates changes in society as in the provision of education which led to the feminization of the teaching profession and the changes in religious practice. The book traces the increasing limitation in the lives of the elusive women of Irish society whose poorer members were haunted by the spectres of poverty, the poorhouse and the pauper's grave.

**Galway Women in the Nineteenth Century** Maureen Egan, 2014-10-15 This book delineates the lives of the Unknown Irishwoman in a turbulent century in Galway County and City on Ireland's western seaboard. Their Irishwomen lot in history cannot easily be measured. Much of it has disappeared; more of it was never recorded. Bowman 2014 The work tells many of the untold or forgotten stories of the lives of women which slide between the cracks to cite the novelist Martina Devlin 2014 and who could so easily be completely written out of history. The book will appeal to the local historian, those with an interest in social history, women's history and the general reader. The book is organised into three main sections, each of which has a number of chapters. They are: The Necessities of Life, The Nature of Society and Distress, followed by an Epilogue and Addenda. The Necessities of Life include chapters on Employment, Housing, Clothing and Food, always the major source of anxiety for the labourer of Ireland. O'Neill 1984 The Nature of Society deals with Marriage, Unmarried Mothers, Religion and Education. The double standards regarding sexual behaviour which pervaded society at the time are clearly shown. The section on Distress contains chapters on Distress and Famine, Migration and Emigration, Women and Crime. The different sentencing patterns in courts for both men and women are of interest. The Epilogue depicts how women came to be more disadvantaged than in the earlier part of the century. The subservient role of women in Irish society was further emphasised when a new definition of work, from being all work contributing to the operation of society to a narrower definition based on the idea of economic activity, was introduced in the 1861 Census. This meant that many women became invisible from an official point of view. From that point on, women's non-wage labour counted for nothing in official records. This further lowered women's status in society and was a huge contrast to the situation which pertained before 1815. Oxley 1996 argues that adherence to the notions of the market economy led to the undervaluing of women's contributions to an Irish society already divided along gender lines where it was widely held that gender differences gave order, balance and rationality to human relations. While Bowman 2014 has stated that many women who emigrated were escaping the puritanical strain of Irish Catholicism which became widely prevalent with The Devotional Revolution etc, see Chapter on Religion, it is important to remember that the attitude of the Churches in Ireland merely reinforced the current views of the Irish on society rather than initiated this point of view. The Epilogue also deals with the violence which underlay much of society and the attitudes of the courts to both male and female offenders. Male defendants were sometimes portrayed as victims in court and could be excused if their wives were inadequate housekeepers or homemakers, particularly if the

women in question were fond of drink Society demanded that women should be sober and compliant The decades after the Great Famine present us with a picture of almost unrelenting gloom There was widespread Famine in parts of the County in 1896 7 for instance Conditions in Connemara were at their worst for several decades in 1924 as noted in the Dillon MS Less obvious are the improvements in the lives of women which were hard won At the beginning of the century it could be stated that most Irish women experienced neither education nor emigration Fitzpatrick 1986 The end of the century was conspicuous by their experience of both Women used their education and the modern means of communication to further their interests Through the Post Office they became aware of opportunities overseas knowledge of other lands they used mail order to good effect they remitted money to family mainly female Ireland during the last century Report of the Civil Service Competition in 1903

The Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid,2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes

**Women's Emancipation Movements in the Nineteenth Century** Sylvia Paletschek,2005-11-14 The nineteenth century a time of far reaching cultural political and socio economic transformation in Europe brought about fundamental changes in the role of women Women achieved this by fighting for their rights in the legal economic and political spheres In the various parts of Europe this process went forward at a different pace and followed different patterns Most historical research up to now has ignored this diversity preferring to focus on women s emancipation movements in major western European countries such as Britain and France The present volume provides a broader context to the movement by including countries both large and small from all regions of Europe Fourteen historians all of them specialists in women s history examine the origins and development of women s emancipation movements in their respective areas of expertise By exploring the cultural and political diversity of nineteenth century Europe and at the same time pointing out connections to questions explored by conventional scholarship the essays shed new light on common developments and problems

**The Nineteenth Century and After** ,1924 **Social change and everyday life in Ireland, 1850-1922** Caitriona Clear,2013-07-19 Men and women who were born grew up and died in Ireland between 1850

and 1922 made decisions to train to emigrate to stay at home to marry to stay single to stay at school based on the knowledge and resources they had at the time This the first comprehensive social history of Ireland for the years 1850 1922 to appear since 1981 tries to understand that knowledge and to discuss those resources for men and women at all social levels on the island as a whole Original research particularly on extreme poverty and public health is supplemented by neglected published sources local history journals popular autobiography newspapers Folklore and Irish language sources are used extensively All recent scholarly books in Irish social history are of course referred to throughout the book but it is a lively read reproducing the voices of the people and the stories of individuals whenever it can questioning much of the accepted wisdom of Irish historiography over the past five decades Statistics are used from time to time for illustrative purposes but tables and graphs are consigned to the appendix at the back There are some illustrations An idea summary for the student loaded with prompts for future research this book is written in a non cliched jargon free style aimed at the general reader

**Single Mothers in Twentieth-century Ireland and Britain** Lorraine Grimes, 2025-08-21 Throughout the Twentieth Century many women in Ireland and Britain endured shame and institutionalisation for becoming pregnant outside of marriage In this welcome study Lorraine Grimes examines the journeys made by hundreds of pregnant Irish women to Britain as they fled to escape their local communities Their experiences in Britain however were not free of stigma and Grimes s book analyses the nuances of the institutional networks both in Britain and Ireland which these women utilised

*Single Mothers in Twentieth Century Ireland and Britain* focuses on the experiences of women from 1926 1973 in cities with high Irish emigrant populations including London Liverpool Birmingham and Glasgow Unlike official narratives such as Ireland s Commission of Investigation into the Mother and Baby Homes this book prioritises the experiences of the survivors and ensure that women s experiences are central to the narrative It also incorporates original interviews with children born in institutions and for the first time interviews with religious and medical staff are also included in the historiography Using archival research and oral history Grimes reveals the methods British and Irish institutions developed from forced adoption

to repatriation and the impacts of this on the women and children's lives Grimes makes a significant contribution to the historiography surrounding the movement of women and children across international borders through repatriation and adoption between institutions on both sides of the Irish Sea From extensive archival research this book reveals cases of Irish single mothers seeking assistance in Britain as well as cases of rape incest and domestic violence within the institutional records In addition archival cases expose prejudice towards women from other colonial countries in institutions in Britain particularly from the 1960s A first for the field *Single Mothers* includes a chapter on the experiences of single fathers Sensitive to the underlying issues of class and gender politics the book also shows that women often enacted a large degree of agency to improve their situation If you are interested in women's political and social history and the history of the institutional relationships of Britain and Ireland this book is essential reading

*Ireland's Magdalen Laundries and the Nation's Architecture of Containment* James M. Smith, 2007-09-01 The Magdalen laundries were workhouses in which many Irish women and girls were effectively imprisoned because they were perceived to be a threat to the moral fiber of society Mandated by the Irish state beginning in the eighteenth century they were operated by various orders of the Catholic Church until the last laundry closed in 1996 A few years earlier in 1993 an order of nuns in Dublin sold part of their Magdalen convent to a real estate developer The remains of 155 inmates buried in unmarked graves on the property were exhumed cremated and buried elsewhere in a mass grave This triggered a public scandal in Ireland and since then the Magdalen laundries have become an important issue in Irish culture especially with the 2002 release of the film *The Magdalene Sisters* Focusing on the ten Catholic Magdalen laundries operating between 1922 and 1996 *Ireland's Magdalen Laundries and the Nation's Architecture of Containment* offers the first history of women entering these institutions in the twentieth century Because the religious orders have not opened their archival records Smith argues that Ireland's Magdalen institutions continue to exist in the public mind primarily at the level of story cultural representation and survivor testimony rather than history archival history and documentation Addressed to academic and general readers alike James M Smith's book accomplishes three primary objectives First it connects what history we have of the Magdalen laundries to Ireland's architecture of containment that made undesirable segments of the female population such as illegitimate children single mothers and sexually promiscuous women literally invisible Second it critically evaluates cultural representations in drama and visual art of the laundries that have over the past fifteen years brought them significant attention in Irish culture Finally Smith challenges the nation church state and society to acknowledge its complicity in Ireland's Magdalen scandal and to offer redress for victims and survivors alike
