The Golden Age of Pantomime Jeffrey Richards, 2014-10-23 Of all the theatrical genres most prized by the Victorians pantomime is the only one to have survived continuously into the twenty first century It remains as true today as it was in the 1830s that a visit to the pantomime constitutes the first theatrical experience of most children and now as then a successful pantomime season is the key to the financial health of most theatres Everyone went to the pantomime from Queen Victoria and the royal family to the humblest of her subjects It appealed equally to West End and East End to London and the provinces to both sexes and all ages Many Victorian luminaries were devotees of the pantomime notably among them John Ruskin Charles Dickens Lewis Carroll and W E Gladstone In this vivid and evocative account of the Victorian pantomime Jeffrey Richards examines the potent combination of slapstick spectacle and subversion that ensured the enduring popularity of the form The secret of its success he argues was its continual evolution It acted as an accurate cultural barometer of its times directly reflecting current attitudes beliefs and preoccupations and it kept up a flow of instantly recognisable topical allusions to political rows fashion fads technological triumphs wars and revolutions and society scandals Richards assesses throughout the contribution of writers producers designers and stars to the success of the pantomime in its golden age This book is a treat as rich and appetizing as turkey mince pies and plum pudding
