*Prisoners of Reason* S. M. Amadae, 2016-01-14 Is capitalism inherently predatory Must there be winners and losers Is public interest outdated and free riding rational Is consumer choice the same as self determination Must bargainers abandon the no harm principle Prisoners of Reason recalls that classical liberal capitalism exalted the no harm principle Although imperfect and exclusionary modern liberalism recognized individual human dignity alongside individuals responsibility to respect others Neoliberalism by contrast views life as ceaseless struggle Agents vie for scarce resources in antagonistic competition in which every individual seeks dominance This political theory is codified in non cooperative game theory the neoliberal citizen and consumer is the strategic rational actor Rational choice justifies ends irrespective of means

Money becomes the medium of all value Solidarity and good will are invalidated Relationships are conducted on a quid pro quo basis However agents can freely opt out of this cynical race to the bottom by embracing a more expansive range of coherent action
