Lewis L. Gould

Gang Of Five Leaders At The Center Of The Conservative Ascendancy:

Gang of Five Nina J. Easton, 2001-02-28 In *Gang of Five* bestselling author Nina J Easton adds an important element to the history of American politics in the last thirty years This is the story of the other less well known segment of the baby boom generation These are young conservative activists who arrived on campus in the 1970s in rebellion against everything sixties and went on to overturn the political dynamics of the country in the 1980s and 1990s They've been waging what Newt Gingrich called a war without blood for three decades *Gang of Five* portrays the intertwining careers of five major figures BILL KRISTOL the Harvard educated elitist and publisher of the *Weekly Standard* is the liberal establishment's worst nightmare a witty erudite Rightist who was a leading force behind the demise of the Clinton health care plan the historic reform of welfare and the decision of House Republicans to impeach the president RALPH REED the hardball politico who helped turn an organization called the College Republicans into a kind of communist cell of the Right in the 1990s tried to give the Religious Right a softer face as leader of the Christian Coalition but was thwarted by his thirst for power and the narrow fundamentalism of his activist followers CLINT BOLICK a leading force in the spread of school choice programs and the anti affirmative action strategist who sank Lani Guinier's appointment is the idealist who seeks to convince civil rights leaders that his legal work on behalf of disadvantaged minorities is sincere and that liberal programs hurt the people they are meant to help GROVER NORQUIST the market Leninist who divides the world into good and evil is at the hub of Hillary Clinton's vast right wing conspiracy and is the architect of a no new taxes pledge signed by all major Republican candidates in the 1990s DAVID MCINTOSH the policy wonk who took the movement's war on Washington to Congress as leader of the House Republican freshmen during the Gingrich Revolution pushed his party toward confrontation with the White House and is now running for governor in Indiana In contrast to earlier generations of conservatives these leaders and their allies tasted success first with Ronald Reagan's twin victories in the 1980s and then in the 1990s with the Republican capture of Congress They play to win and have had a hand in every major insurrection from the Right over the past two decades from abortion politics to government shutdowns to political muckracking No politician can ignore their agenda or escape the new hardball rules they've written for national politics

The Conservative Century Gregory L. Schneider, 2009-11-16 This concise history focuses on the development of American conservatism in the twentieth century up to the present Gregory L Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics foreign policy and economic policy Along the way he profiles such influential thinkers as William F Buckley Frank Meyer Henry Regnery and Barry Goldwater He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980 Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives [God Willing?](#) David

Domke,2004-07-20 The political fundamentalism offered up by the Bush administration after 9 11 capitalised upon the fear felt by many Americans In essence it is a conservative religious ideology but via strategic communication choices it was transformed into a policy agenda that feels political rather than religious These communications dominated public discourse and public opinion for months on end and came at a significant cost for democracy The administration had help spreading its messages The mainstream press consistently echoed the administration s communications thereby disseminating reinforcing and embedding the administration s fundamentalist worldview and helping to keep at bay Congress and any substantive public questioning This book analyzes hundreds of administration communications and news stories from September 2001 to Iraq in spring 2003 to examine how this occurred and what it means for U S politics and the global landscape **Seeds of Change : the Story of ACORN, America's Most Controversial Antipoverty Community Organizing Group** John Atlas,2010 Seeds of Change is the definitive book on one of the most effective grassroots organizations of low income Americans Robert Kuttner The Hollow Parties Daniel Schlozman,Sam Rosenfeld,2025-10-28 A major history from the Founding to our embittered present that explains the void Politico at the center of America s political parties Featured on The Ezra Klein Show and The Weekly Show with Jon Stewart America s political parties are hollow shells of what they could be locked in a polarized struggle for power and unrooted as civic organizations The Hollow Parties takes readers from the rise of mass party politics in the Jacksonian era through the years of Barack Obama and Donald Trump Today s parties at once overbearing and ineffectual have emerged from the interplay of multiple party traditions that reach back to the Founding Daniel Schlozman and Sam Rosenfeld paint unforgettable portraits of figures such as Martin Van Buren whose pioneering Democrats invented the machinery of the mass political party and Abraham Lincoln and other heroic Republicans of that party s first generation who stood up to the Slave Power And they show how today s fractious party politics arose from the ashes of the New Deal order in the 1970s Activists in the wake of the 1968 Democratic National Convention transformed presidential nominations but failed to lay the foundations for robust movement driven parties Instead modern American conservatism hollowed out the party system deeming it a mere instrument for power Party hollowness lies at the heart of our democratic discontents With historical sweep and political acuity The Hollow Parties offers powerful answers to pressing questions about how the nation s parties became so dysfunctional and how they might yet realize their promise *New Perspectives on the Transnational Right* M. Durham,2016-06-08 The links the conservative Right has sought to forge beyond the national over the last century have been too often neglected and this volume sheds new light on transnationalism the Right and the ways the two interact White Protestant Nation Allan J. Lichtman,2008 Examines the origins development and achievements of conservatism in the United States from the birth of the modern right in the 1920s through the restoration of the conservative consensus at the end of the twentieth century *The Last American Diplomat* George W. Liebmann,2012-01-27 Can John D Negroponte be described as The Last American Diplomat In a career spanning 50 years of

unprecedented American global power he was the last of a dying breed of patrician diplomats devoted to public service a self effacing and ultimate insider whose prime duty was to advise guide and warn a bulwark of traditional diplomatic realism against ideologue excess Negroponte served as US ambassador to Honduras Mexico the Philippines and Iraq he was US Permanent Representative to the UN Director of National Intelligence and Deputy Secretary of State to George W Bush His was a high flying and seemingly conventional career but one full of surprises Negroponte opposed Kissinger in Vietnam supported a proxy war but opposed direct American military action against Marxists in Central America facing bitter Congress opposition in the process He swam against the floodtide of George W Bush s neocon dominated administration warning against the Iraq war as a possible new Vietnam and criticising aspects of Bush s War on Terror He disconcerted the administration by arguing that the re establishment of Iraq would take as long as five years And he was influential in international social and economic policy working for the successful re settlement of millions of refugees in Southeast Asia following the Vietnam War issuing early warnings about the scourge of AIDS in Africa and successfully launching the North American Free Trade Agreement NAFTA George W Liebmann s incisive account is based on personal and shared experience but it is no hagiography beyond the author s discussions with Negroponte this book is deeply researched in US state papers and includes interviews with leading actors It will provide fascinating reading for anyone interested in the inside story of American diplomacy showing personal and policy struggles and the underlying fissures present even in the world s last remaining superpower

Republican Gomorrah Max Blumenthal, 2009-09-01 Over the last year award winning journalist and videographer Max Blumenthal has been behind some of the most sensational and funniest exposes of Republican machinations Whether it was his revelation that Sarah Palin was anointed by a Kenyan priest famous for casting out witches or his confronting Republican congressional leaders and John McCain s family at the GOP convention about the party s opposition to sex education and hence the rise in teen pregnancies like that of Palin s daughter or his expose of the eccentric multimillionaire theocrat behind California s Prop 8 anti gay marriage initiative Blumenthal has become one of the most important and most constantly cited journalists on how fringe movements are becoming the Republican Party mainstream

Republican Gomorrah is a bestiary of dysfunction scandal and sordidness from the dark heart of the forces that now have a leash on the party It shows how those forces are the ones that establishment Republicans like John McCain have to bow to if they have any hope of running for President It shows that Sarah Palin was the logical choice of a party in the control of theocrats But more than just an expose *Republican Gomorrah* shows that many of the movement s leading figures have more in common than just the power they command within conservative ranks Their personal lives have been stained by crisis and scandal depression mental illness extra marital affairs struggles with homosexual urges heavy medication addiction to pornography serial domestic abuse and even murder Inspired by the work of psychologists Erich Fromm who asserted that the fear of freedom propels anxiety ridden people into authoritarian settings Blumenthal explains in a compelling narrative

how a culture of personal crisis has defined the radical right transforming the nature of the Republican Party for the next generation and setting the stage for the future of American politics **The Republican Noise Machine** David Brock,2005

Bestselling author David Brock documents the most important political development of the last thirty years How the Republican Right has won political power and hijacked public discourse in the United States Over the last several decades the GOP has built a powerful media machine newspapers and magazines think tanks talk radio networks op ed columnists the FOX News Channel Christian Right broadcasting book publishers and high traffic Internet sites to sell conservatism to the public and discredit its opponents David Brock s penetrating analysis of news stories from the disputed 2000 presidential election to the war in Iraq to the political battles of 2004 reveals that this booming right wing media market is largely based on bigotry ignorance and emotional manipulation closely tied to America s long standing cultural divisions and the buying power of anti intellectual traditionalists Writing with verve and deep insight Brock reaches far beyond typical bromides about media bias to produce an invaluable account of the rise of right wing media and its political consequences Starving the Beast Monica Prasad,2018-12-05 Since the Reagan Revolution of the early 1980s Republicans have consistently championed tax cuts for individuals and businesses regardless of whether the economy is booming or in recession or whether the federal budget is in surplus or deficit In Starving the Beast sociologist Monica Prasad uncovers the origins of the GOP s relentless focus on tax cuts and shows how this is a uniquely American phenomenon Drawing on never before seen archival documents Prasad traces the history of the 1981 tax cut the famous supply side tax cut which became the cornerstone for the next several decades of Republican domestic economic policy She demonstrates that the main impetus behind this tax cut was not business group pressure racial animus or a belief that tax cuts would pay for themselves Rather the tax cut emerged because in America unlike in the rest of the advanced industrial world progressive policies are not embedded within a larger political economy that is favorable to business Since the end of World War II many European nations have combined strong social protections with policies to stimulate economic growth such as lower taxes on capital and less regulation on businesses than in the United State Meanwhile the United States emerged from World War II with high taxes on capital and some of the strongest regulations on business in the advanced industrial world This adversarial political economy could not survive the economic crisis of the 1970s Starving the Beast suggests that taking inspiration from the European model of progressive policies embedded in market promoting political economy could serve to build an American economy that works better for all

Think Tanks Kubilay Yado Arin,2013-07-25 Think tanks and their researchers provide much needed explanation of foreign policy Many US Presidents have consulted think tanks for policy advise and for ideological coherence Indeed the American Presidents have employed experts from think tanks to serve in senior positions in their government Policy makers look for advise to think tanks and their scholars resulting from the decentralisation and fragmentation of the American political system In a system based on separate branches sharing powers and one in which policy makers are not limited by the

programs of political parties think tanks can communicate their ideas through multiple channels to several hundred law makers The author examines the war of ideas waged by the neoconservative think tanks against their liberal counterparts

Veering Right Charles Tiefer,2006-02-27 Tiefer has constructed a meticulous rigorous critical analysis of Bush Administration initiatives that he contends circumvent legal and public scrutiny **If We Can Keep It: How the Republic Collapsed and How it Might Be Saved** Michael Tomasky,2019-02-05 A game changing account of the deep roots of political polarization in America including an audacious fourteen point agenda for how to fix it Why has American politics fallen into such a state of horrible dysfunction Can it ever be fixed These are the questions that motivate Michael Tomasky s deeply original examination into the origins of our hopelessly polarized nation One of America s finest political commentators Michael J Sandel Tomasky ranges across centuries and disciplines to show how America has almost always had two dominant parties that are existentially and often violently opposed When he turns to our current era he does so with striking insight that will challenge readers to reexamine what they thought they knew Finally not content merely to diagnose these problems Tomasky offers a provocative agenda for how we can help fix our broken political system from ranked choice voting and at large congressional elections to expanding high school civics education nationwide Combining revelatory data with trenchant analysis Tomasky tells us how the nation broke apart and points us toward a more hopeful political future Chocolate City Chris Myers Asch,George Derek Musgrove,2017-10-17 Monumental in scope and vividly detailed Chocolate City tells the tumultuous four century story of race and democracy in our nation s capital Emblematic of the ongoing tensions between America s expansive democratic promises and its enduring racial realities Washington often has served as a national battleground for contentious issues including slavery segregation civil rights the drug war and gentrification But D C is more than just a seat of government and authors Chris Myers Asch and George Derek Musgrove also highlight the city s rich history of local activism as Washingtonians of all races have struggled to make their voices heard in an undemocratic city where residents lack full political rights Tracing D C s massive transformations from a sparsely inhabited plantation society into a diverse metropolis from a center of the slave trade to the nation s first black majority city from Chocolate City to Latte City Asch and Musgrove offer an engaging narrative peppered with unforgettable characters a history of deep racial division but also one of hope resilience and interracial cooperation **Blue Dixie** Bob Moser,2009-04-27 Keenly observed and deeply grounded in contemporary Southern politics Blue Dixie reveals the changing face of American politics in the South itself and its impact on the rest of the nation Facts & Fury B Kuhn,2022-05-31 From the cofounder of Fight for a Better America the non profit organization dedicated to voter engagement and local grassroots organizing is a searing unflinching and thorough exploration of the Republican Party s dissolution of government Only when enough of us recognize that the Republicans are waging a war on our democracy will we be able to rally a resistance fight back and reclaim our government writes author Bill Kuhn in this engrossing and outraged study of the GOP s commitment to weaken public institutions and

erode the public's trust in democracy Although conflicts over the role of government have always existed the level of partisanship and division that we know today is staggering Can the US repair forty years of the right's destruction The answer is yes says Kuhn but only if voters understand the Republican Party's role in the country's growing division Written in brilliant and easily digestible chapters you will discover how Trump became the logical consequence of decades worth of corruption fear mongering and destructive policies Kuhn uncovers the blatantly racist style of politics inherent in the GOP from Goldwater's opposition to the Civil Rights Movement to Reagan's aversion to public welfare Each chapter is poignant and a well researched entry contributing to the national conversation and debate of how we got to where we are today Facts Fury is a revelatory work of scholarship and a laceration of the Republican Party that will energize the country and encourage discussion Much more it is a call to arms to halt the GOP's efforts engage our neighbors and ultimately strengthen American democracy

Grand Old Party Lewis L. Gould, 2012 This highly readable narrative history of the Republican Party profiles the G O P from its emergence as an antislavery party during the 1850s to its current place as champion of political conservatism

The Confiscation of American Prosperity M. Perelman, 2007-10-01 This book argues that the right wing revolution in the United States has created deepening inequality and will lead to economic catastrophe The author makes the case that over the past three decades the rich have confiscated wealth and income from the poor and middle class to a far greater extent than many realize and he explores in detail important but commonly unmeasured dimensions of inequality He also takes aim at the economics profession criticising the analytical blinders that leave economists incapable of seeing the coming crisis

America's Fiscal Constitution Bill White, 2014-04-01 What would Washington Jefferson Madison Lincoln the Roosevelts Truman and Eisenhower have done about today's federal debt crisis *America's Fiscal Constitution* tells the remarkable story of fiscal heroes who imposed clear limits on the use of federal debt limits that for two centuries were part of an unwritten constitution Those national leaders borrowed only for extraordinary purposes and relied on well defined budget practices to balance federal spending and revenues That traditional fiscal constitution collapsed in 2001 Afterward for the first time in history federal elected officials cut taxes during war funded permanent new programs entirely with debt grew dependent on foreign creditors and claimed that the economy could not thrive without routine federal borrowing For most of the nation's history conservatives fought to restrain the growth of government by insisting that new programs be paid for with taxation while progressives sought to preserve opportunities for people on the way up by balancing budgets Virtually all mainstream politicians recognized that excessive debt could jeopardize private investment and national independence With original scholarship and the benefit of experience in finance and public service Bill White dispels common budget myths and distills practical lessons from the nation's five previous spikes in debt *America's Fiscal Constitution* offers an objective and hopeful guide for people trying to make sense of the nation's current most severe debt crisis and its impact on their lives and our future

Decoding **Gang Of Five Leaders At The Center Of The Conservative Ascendancy**: Revealing the Captivating Potential of Verbal Expression
