Rural Poverty, Growth, and Inequality in China Yangyang Shen, 2022-02-24 This book aims to empirically and theoretically study how the economic growth and inequality affected China's rural poverty since China's reform and opening up. Apart from the trickle down effect, some empirical researches show that rising inequality usually links with unfairly shared of the economic growth which is not good for the poor and this book particularly concerns with the impact of inequality on poverty reduction. In 11 chapters it leads readers to review the dynamic changes of rural poverty in China and estimates rural poverty by various methods for instance with analysis by monetary poverty including income and expenditure poverty multidimensional poverty absolute poverty and relative poverty. Especially attention is paid to apply the growth inequality poverty triangle model for long term poverty dynamic changes evaluation. The book revisits poverty reduction strategies in different development periods for rural China and evaluates the poverty eradication achievements stage by stage under different analytical methods in order to provide an objective assessment. Among the chapters pro poor growth Shapley decomposition poverty elasticity density estimation multidimensional poverty analysis and policy simulation methods are applied for both national wide discussion and rural sub group heterogeneity analysis. In addition to students teachers and researchers in the areas of development economic growth equity and welfare the book is also of great interest to policy makers planners and non government agencies who are concerned with understanding and addressing poverty related issues in the developing countries.

Thirty Years of Reform and Social Changes in China Qiang Li, 2010-08-03 Thirty Years of Reform and Social Changes in China is translated from the original Chinese to provide a look into how scholars in China have been assessing their country's recent societal and political history. This volume and the others in the SSRC series provide western scholars with an accessible English language look at the state of current scholarship in China and as such does not simply provide information for the direct study of socio political issues but also for meta level analysis of how the domestic scholarship in China is developing and assessing the interplay of the country's political and economic reforms with the society and daily life of its people.
