G.D.H.Cole: an Intellectual Biography Luther Pirie Carpenter,1966 *G.D.H. Cole* Luther P. Carpenter,1973

G.D.H. Cole; an Intellectual Biography [By] L.P. Carpenter Luther P. Carpenter,1973 **G. D. H. Cole** L. P. Carpenter,1974-01-24 A sensitive analysis of the thought and intellectual development of G D H Cole 1889 1959 the distinguished Labour historian Cole s career is traced from his earliest days in the Labour movement to his final years as Chichele Professor of Social and Political Thought at Oxford Professor Carpenter examines Cole s role in the creation of Guild Socialism his work in the early 1920s when after the decline of Guild Socialism he turned towards the analysis of policies research through the New Statesman and the New Fabian Research Bureau and teaching at Oxford his attempts to provide a policy for the Left in the 1930s the idea of economic planning and the Popular Front his activities during the Second World War and his place in the debates over the Labour movement s cause after the 1945 government Finally Professor Carpenter discusses Cole s courageous recognition towards the end of his life that Socialism had not come and his attempts to start a new cycle of research in one of the first efforts to create a New Left **The Western Ideology and Other Essays** Andrew Gamble,2021-04-28 Capitalism may be teetering once again on the edge of a terminal crisis but there are no gravediggers in sight This time around not only are there no gravediggers there are no longer any rival economic systems either In The Western Ideology Andrew Gamble demonstrates the contradictions and the resilience of the doctrines that define liberal modernity and examines the contemporary possibilities for dissent and change This volume brings together for the first time this seminal essay with a collection of Andrew Gamble s writings on political ideas and ideologies which have been chosen by the author to illustrate the main themes of his writing in intellectual history and the history of ideas Themes include the character of economic liberalism and neoliberalism especially as expressed in the work of Friedrich Hayek as well as critiques from both social democratic and conservative perspectives and from critics as varied as Karl Marx Michael Oakeshott and Bob Dylan The collection includes a new autobiographical introduction notes on the essays and an epilogue putting the essays into the context of today s society Andrew Gamble provides a unique exploration of the debates and the ideas that have shaped our politics and Western ideology A companion volume of Andrew Gamble s essays After Brexit and Other Essays focusing on political economy and British politics is also available from Bristol University Press

Sociological Amnesia Alex Law,Eric Royal Lybeck,2016-03-03 The history of sociology overwhelmingly focuses on the winners from the classical canon Marx Durkheim and Weber to today s most celebrated sociologists This book strikingly demonstrates that restricting sociology in this way impoverishes it as a form of historically reflexive knowledge and obscures the processes and struggles of sociology s own making as a form of disciplinary knowledge Sociological Amnesia focuses on singular contributions to sociology that were once considered central to the discipline but are today largely neglected Chapters explore the work of illustrious predecessors such as Raymond Aron Erich Fromm and G D H Cole as well as

examining exceptional cases of reputational revival as in the case of Norbert Elias or Gabriel Tarde Through understanding the obstacles of recognition faced by female sociologists like Viola Klein and Olive Schreiner and public intellectuals like Cornelius Castoriadis the volume considers the reasons why certain kinds of sociology are hailed as central to the discipline whilst others are forgotten In so doing the collection offers fresh insights into not only the work of individual sociologists but also into the discipline of sociology itself its trajectories forgotten promises and dead ends The First World War Antonello Biagini,2015-11-25 This volume is the result of an international conference held at Sapienza University of Rome in June 2014 which brought together scholars from different countries to re analyse and re interpret the events of the First World War one hundred years after a young Bosnian Serb student from the Mlada Bosna Gavrilo Princip lit the fuse and ignited the conflict which was to forever change the world The Great War initially on a European and then on a world scale demonstrated the fragility of the international system of the European balance of powers and determined the dissolution of the great multinational empires and the need to redraw the map of Europe according to the principles of national sovereignty This book provides new insights into theories of this conflict and is characterized by internationality interdisciplinarity and a combination of different research methods The contributions based on archival documents from various different countries international and local historiography and on the analysis of newspaper articles postcards propaganda material memorials and school books examine the role of intellectuals and artists in the conflict the issue of minorities and nationalities the economy and international relations and politics in addition to specific case studies such as Russia and the Ottoman Empire the Caucasus and the Middle East *Class and Other Identities* Lex Heerma van Voss,Marcel van der Linden,2002-06-01 With the onset of a more conservative political climate in the 1980s social and especially labour history saw a decline in the popularity that they had enjoyed throughout the 1960s and 1970s This led to much debate on its future and function within the historical discipline as a whole Some critics declared it dead altogether Others have proposed a change of direction and a more or less exclusive focus on images and texts The most constructive proposals have suggested that labour history in the past concentrated too much on class and that other identities of working people should be taken into account to a larger extent than they had been previously such as gender religion and ethnicity Although class as a social category is still as valid as it has been before the questions now to be asked are to what extent non class identities shape working people s lives and mentalities and how these are linked with the class system In this volume some of the leading European historians of labour and the working classes address these questions Two non European scholars comment on their findings from an Indian resp American point of view The volume is rounded off by a most useful bibliography of recent studies in European labour history class gender religion and ethnicity **The Routledge Dictionary of Twentieth-Century Political Thinkers** Robert Benewick,2002-09-11 This edition has been revised and extended to include eleven new entries on Berlin Chomsky Derrida Rorty and many others Key features of this unique guide include 170 entries from 96 contributors many of whom are leading

D. Anthony, 1983 John Ruskin was one of the great Victorians established while still young as an arbiter of taste in painting and architecture and as one of the greatest of all writers of English prose When he was forty he decided to abandon the field in which his reputation had been secured in order to awaken the world to the peril of devastation which he believed would follow its preoccupation with profit and its subservience to a false economic doctrine He regarded his social criticism as a duty reluctantly accepted to a society which had abandoned the traditional and religious values that had been the foundation of its civilization Ruskin's labour to which he devoted the rest of his life was to bring a searching intelligence considerable learning and a moral concern to providing a ruthless criticism of the values of Victorian England **The Defetishized Society** Chris Wyatt, 2011-09-29 The book moves beyond Marx's concepts of capital as value in motion and the fetishism of commodities to sketch an alternative called New Economic Democracy **Professional Historians in Public** Berber Bevernage, Lutz Raphael, 2023-07-24 The past decades public interest in history is booming This creates new opportunities but also challenges for professional historians This book asks how historians deal with changing public demands for history and how these affect their professional practices values and identities The volume offers a great variety of detailed studies of cases where historians have applied their expertise outside the academic sphere With contributions focusing on Latin America Africa Asia the Pacific and Europe the book has a broad geographical scope Subdivided in five sections the book starts with a critical look back on some historians who broke with mainstream academic positions by combining their professional activities with an explicit political partisanship or social engagement The second section focusses on the challenges historians are confronted with when entering the court room or more generally exposing their expertise to legal frameworks The third section focuses on the effects of policy driven demands as well as direct political interventions and regulations on the historical profession A fourth section looks at the challenges and opportunities related to the rise of new digital media Finally several authors offer their view on normative standards that may help to better respond to new demands and to define role models for publicly engaged historians This book aims at historians and other academics interested in public uses of history **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability **The Russia Complex** Bill Jones, 1977 **Pluralist Thought and the State in Britain and France, 1900-25** Cécile Laborde, 2000-03-07 This is the first comparative study of early twentieth century French and British schools of political pluralism A wide ranging survey of the works of thinkers such as JN Figgis GDH Cole Harold Laski
