Future Seekers:

Future Seekers Mary Crock, Ben Saul, 2002 Aims of this book **Future Seekers II** Mary Crock, Ben Saul, Azadeh Dastyari, 2006 This book explores Australia's ambivalent legal and political response to irregular migrants asylum seekers boat people illegals queue jumpers and economic migrants Back cover **Lives in Limbo** Michael Leach, Fethi Mansouri, 2004 In this book 35 refugees all temporary protection visa TPV holders and mostly from Iraq and Afghanistan talk directly about their quest for asylum in Australia They provide poignant details of persecution in their home country their journey to Australia prolonged periods of mandatory detention and life under Australia's controversial temporary protection regime **Zechariah's Hope Paperback** David C Coldwell, 2018-01-24 The Book of Zechariah may be one of the least read books in the Bible For the past twenty years I have taught the Bible to pastors in Asian countries where life is difficult for them My pattern was to begin each day with a devotional that would apply specific Bible lessons to their lives When I started giving devotional thoughts from Zechariah I learned that the Asian pastors had a keen interest in that prophet They would often ask questions or share their thoughts about Zechariah long after our devotional had ended I believe that a daily time with the Lord is essential for believers who desire to serve Him in this knotty world According to Proverbs life is a series of choices between which roads we will travel We decide daily to either take the path of the righteous or the way of the wicked We choose regularly to either walk on the path of the wise person or stroll along the way of the fool **PranaTattva** Yogi Anand Ji, Book offers rare insights of Yogi Anand Ji highlighting the importance of Pranayama and or Pran Tattava Pranayama is most discussed yet equally misunderstood or undervalued arm of Ashtang Yoga Yogi Anand ji has presented detailed account of Pran Tattva in a lucid manner For the first time He clearly explains that Pranayama does not mean to boost physical health only Rather it is also a crucial component of spiritual progress of Sadhakas Subject matter of the book also covers elements of Chakra Kundalini Panch Koshas to make it a comprehensive manual for yogic aspirants It authoritatively talks about common misconceptions that Sadhakas usually come across to and provides logical solutions The fact that this book is a direct outcome of intense sadhna of Yogi Anand Ji makes it free from mere speculations unlike plethora of books and serves as a valuable gift to seekers of all age group Above all way of presentation has mesmerizing effect such that a reader quite often could not resist to finish it in one go *Seeking Asylum Alone* Mary Crock, 2006 Unaccompanied and separated children continue to be caught up in programs to deflect unauthorised Australian boat arrivals to offshore processing centres If such children do make it to Australia the processes for identifying children travelling alone are inadequate with too much reliance placed on the self identification of such children No child victim of trafficking has been identified in Australia since 1994 Australia's refugee status determination system was established with adult asylum seekers as the norm Children face obvious disadvantage in both articulating their story and in being heard At the crucial first point of contact with authorities children are required to articulate their need for protection without either

an advisor or an effective guardian Case studies of children within the asylum process also suggest that immigration officials and officials at appellate level have been poorly trained and have lacked the skills to deal with child asylum seekers with appropriate sensitivity Another barrier faced by these children is legal questions remain as to how well the international definition of refugee has been read to accommodate the particular experiences of children It is hoped that this report will encourage Australian officials to think seriously about children as refugees in their own right most particularly when the children are travelling alone This Report was funded by the MacArthur Foundation Chicago the Australian Research Council and the Myer Foundation Also available Seeking Asylum Alone A Comparative Study Unaccompanied and Separated Children and Refugee Protection in Australia the UK and the US by Jacqueline Bhabha and Mary Crock *Disability in Australia* Gerard Goggin, Christopher Newell, 2005 Dares to name and explore a hidden blight in society the routine daily and oppressive treatment of people with disabilities Drawing on a wide range of case studies from health and welfare sport biotechnology deinstitutionalisation political life and the treatment of refugees this thoughtful lively and provocative work puts disability firmly on the agenda Before the Resurrection Emily Provance, 2025-03-31 How do Friends meetings and churches adapt to changing or shrinking communities A smaller or older meeting is no less valuable to God than a larger one but the more is better messaging of modern culture tells us otherwise This book weaves together logistical suggestions with eternal spiritual principles to help meetings right size their institutions Whether a group is altering its committee structures restructuring entirely selling a building or laying itself down the steps are essentially the same recognizing the need for change discerning the will of God at this time caring for one another and stepping forward into a new thing Friends are a resurrection people We know there will always be a renewal of life But resurrection is not the same as resuscitation How do we best make space for what God may do next **Race and State** Karen Fricker, Ronit Lentin, 2009-01-14 Speaking about racism in the western political climate of the first decade of the twenty first century is more difficult than ever before There is a feeling in post colonial and post immigration societies that the blatant overt racism of the past is no longer as pressing Admitting racism elicits discomfort because common wisdom tells us that racism opposes everything that we believe in as citizens of democratic civilised modern states Yet state racism appears to be here to stay and in many ways is more acceptable than ever before Immigration detention centres the deportation of failed asylum seekers and illegal immigrants racial profiling and the rolling back of liberties won by the civil rights movement are all examples of how state racism impacts on our daily lives Race and State contributes to breaking the taboo of discussing the links between race and state The papers collected in this book highlight the interconnections between race and state from historical theoretical or contemporary sociological perspectives Part I of the book looks at theoretical issues in conceptualising the race state relationship Part II examines racism in its most pernicious contemporary manifestation the racialisation of terror Part III on the racial state s of Ireland is an important addition to the debate examining Ireland as a test case for demonstrating and

interpreting the relationship between race and state **The Future of Naval Aviation** Owen R. Cote, 2006 Today alongside its all important operations in direct support of the Global War on Terrorism naval aviation also continues its now 60 year commitment to shaping the maritime and littoral environment through persistent forward presence In the longer term naval aviation is also adapting to a series of geopolitical revolutions which will dramatically increase the future demand for a secure sea base capable of projecting dominant power ashore in wartime against the full spectrum of possible opponents It is adapting to these demands by exploiting technologies and operational practices developed in the last decade that will greatly increase its ability to surge and concentrate forces rapidly protect the sea base from new air surface and undersea threats and find identify locate track and strike mobile as well as fixed targets ashore under all weather conditions and in timely enough fashion to produce the desired effects This report discusses the following topics 1 Formal Alliances Provide Predictable Access Informal Coalitions Do Not 2 Distributed Ground Forces Require Persistent Distributed Air Support 3 The Sea Shield Must Be Dominant If the Sea Base Is to Be Effective 4 Adapting 5 The Spectrum from Presence to Major Combat 6 Technology and the Spectrum of Threat 7 The Value of Robust Airborne Early Warning AEW Aircraft 8 No Substitute for Range in Carrier Aviation 9 The Need for Airborne Electronic Attack AEA is Not Going Away 10 Land Based Maritime Patrol Aircraft 11 Multimission Helicopters 12 New Capabilities and Challenges 13 Eliminating the Weather Sanctuary for Mobile Targets 14 Providing a Dominant Defense of the Sea Base 15 Shoot Archers Not Arrows 16 Make Opposing Submarines Pay for Their Inevitable Indiscretions 17 Get Back in the Counter Surveillance Business and 18 The Force of the Future

Sovereignty, Migration and the Law Patricia Rushton, 2025-02-11 This book examines how states justify the creation of physical policy and legislative barriers of entry for migrants by drawing on a concept of sovereignty The movement of people across the world in search of refuge from persecution war and poverty is accelerating And as states confronted with this movement create physical policy and legislative barriers to entry they justify this exclusion by drawing on concepts of sovereignty This book interrogates that justification in an historical and theoretical context using the case study of Australian law and policy since 1900 as well as instances from other Western countries that have routinely copied from Australia But just as Australian migration policies are being replicated in the US Britain and Europe so this book argues is their employment of an anachronistic concept of sovereignty one that is reasserted precisely because of its waning power in the face of globalisation This book will be an important resource for law and political science scholars researchers and students in the fields of migration and refugee law and policy as well as to professional policy makers government institutions lawyers and international agencies with a particular focus on those fields
