Edward Newman, Ramesh Thakur And John Triman, **Thirty Years of China - U.S. Relations** Sujian Guo, Baogang

Guo,2010-08-04 The year 2009 marks the 30th anniversary of normalization of Sino U S relations Over the past 30 years the bilateral relations have developed by twists and turns It is not until recent years that some stability and forward looking exchanges have returned to the central stage albeit tension grievances and mistrust continue to persist Washington has encouraged China to become a responsible stakeholder in the world affairs while China has urged the U S to work with China to build a harmonious world Both sides want to work together to solve their differences through dialogs and negotiations In the wake of the worldwide financial crisis of 2008 2009 China has contributed greatly in financing the crumbling U S financial market and lent a helping hand in stabilizing the world economy Nevertheless the foundation of the relationship remains very fragile and the long term prospect for a constructive cooperative relationship is still full of uncertainties For many Americans China s increasing global reach and growing political and economic influence constitute the greatest challenge to world dominance by the United States As a result some perceive China s rise as a threat to Americans core national interests The recent changes in the global geostrategic landscape and economic interdependence have suggested that some new ideas factors conditions and elements are shaping the relations between the two countries The task of Thirty Years of China U S Relations Analytical Approaches and Contemporary Issues is to explore these factors issues and challenges and their impact for the bilateral relations in the 21st century **North Korea Policy** Linus Hagström,Marie Söderberg,2007-01-24

Bringing together issues that are highly relevant to contemporary Japanese foreign policy this comprehensive text analyzes the formation of the North Korea policy in the context of great power relations in East Asia
