## **Futures Past On The Semantics Of Historical Time German Social Thought Ser:**

Futures Past Reinhart Koselleck, 1985 In these fifteen essays one of Germany's most distinguished philosophers of history invokes an extraordinary array of witnesses and texts to explore the concept of historical time The witnesses include politicians philosophers theologians and poets and the texts range from Renaissance paintings to the dreams of German citizens in the 1930s Using these remarkable materials Koselleck investigates the relationship of history to language and of language to the deeper movements of human understanding Reinhart Koselleck is Professor of the Theory of History at the University of Bielefeld *Critique and Crisis* Reinhart Koselleck, 2000-03-13 *Critique and Crisis* established Reinhart Koselleck's reputation as the most important German intellectual historian of the postwar period This first English translation of Koselleck's tour de force demonstrates a chronological breadth a philosophical depth and an originality which are hardly equalled in any scholarly domain It is a history of the Enlightenment in miniature fundamental to our understanding of that period and its consequences Like Tocqueville Koselleck views Enlightenment intellectuals as an uprooted unrealistic group of onlookers who sowed the seeds of the modern political tensions that first flowered in the French Revolution He argues that it was the split that developed between state and society during the Enlightenment that fostered the emergence of this intellectual elite divorced from the realities of politics Koselleck describes how this disjunction between political authority proper and its subjects led to private spheres that later became centers of moral authority and eventually models for political society that took little or no notice of the constraints under which politicians must inevitably work In this way progressive bourgeois philosophy which seemed to offer the promise of a unified and peaceful world in fact produced just the opposite The book provides a wealth of examples drawn from all of Europe to illustrate the still relevant message that we evade the constraints and the necessities of the political realm at our own risk *Critique and Crisis* is included in the series *Studies in Contemporary German Social Thought* edited by Thomas McCarthy **El oficio de historiar** Cavieres Figueroa, Eduardo, 2019-01-01 Una de las tareas fundamentales de la historia y la historiografía es insistir en la recuperación de la conciencia individual de la conciencia social de la conciencia humana Los capítulos que componen este libro escrito en un estilo directo que busca provocar y generar más preguntas al lector indagan en diferentes cuestiones las relaciones entre historia local e historia global los espacios públicos la educación y la formación de una nueva ciudadanía capaz de afrontar nuevos retos como los tecnológicos y la inteligencia artificial Cada capítulo podrá leerse de forma independiente pero la suma de todos comunica un mismo objetivo y un propósito esencial repensar la historia colaborar a que los historiadores vuelvan a comprometerse con ella La memoria y la historia son elementos cruciales en los modos de soslayar cambiar o adecuar el pasado enfrentarse o evitar el presente y sopesar por dónde y hacia dónde avanzar en los próximos años o décadas El problema de la historia está también en el mundo intelectual en las universidades en los propios historiadores es posible hoy en día conocer el mundo desde una sola perspectiva disciplinaria Sabiendo leer adecuadamente el pasado y teniendo claridad

respecto a nuestro sitio en el presente nuestro desafío actual es mirar hacia adelante La historia debe servir para enfrentar el futuro     **Subject Guide to Books in Print** ,1975     *Books in Print* ,1977     *Forthcoming Books* Rose Arny,1997

**Jahrbuch für Geschichte Lateinamerikas** ,2002     **The Politics of Form in Greek Literature** Phiroze Vasunia,2021-12-16 The Politics of Form in Greek Literature explores the relationship between form and political life specifically in Greek textual culture In the last generation or so classicists and their counterparts in other disciplines have begun to pay greater attention to the socio historical contexts of literary production and sought to historicize aesthetic practice However historicism and in particular New Historicism is only one mode of approaching the question of form which is increasingly brought into dialogue with a number of other issues e g gender Bringing together contributions from a range of experts this volume examines these and other related approaches assessing their limitations and discussing possibilities for the future Individual chapters discuss an array of ancient authors including Homer Sophocles Euripides Plato Aristotle Callimachus and more and sketch out the specifically Greek contribution to the debate as well as the implications for other disciplines What emerges from this book are new ways of thinking about form and indeed about politics that will be of value to scholars and students across the humanities and social sciences     Shattered Dreams, Infinite Hope Brandon M.
