Futurism Rosa Trillo Clough,2003-01-01

Futurism Rosa Trillo Clough,1961

International Futurism in Arts and Literature Günter Berghaus,2012-10-25 This publication offers for the first time an inter disciplinary and comparative perspective on Futurism in a variety of countries and artistic media 20 scholars discuss how the movement shaped the concept of a cultural avant garde and how it influenced the development of modernist art and literature around the world

The Fourth Dimension and Non-Euclidean Geometry in Modern Art, revised edition Linda Dalrymple Henderson,2018-05-18 The long awaited new edition of a groundbreaking work on the impact of alternative concepts of space on modern art In this groundbreaking study first published in 1983 and unavailable for over a decade Linda Dalrymple Henderson demonstrates that two concepts of space beyond immediate perception the curved spaces of non Euclidean geometry and most important a higher fourth dimension of space were central to the development of modern art The possibility of a spatial fourth dimension suggested that our world might be merely a shadow or section of a higher dimensional existence That iconoclastic idea encouraged radical innovation by a variety of early twentieth century artists ranging from French Cubists Italian Futurists and Marcel Duchamp to Max Weber Kazimir Malevich and the artists of De Stijl and Surrealism In an extensive new Reintroduction Henderson surveys the impact of interest in higher dimensions of space in art and culture from the 1950s to 2000 Although largely eclipsed by relativity theory beginning in the 1920s the spatial fourth dimension experienced a resurgence during the later 1950s and 1960s In a remarkable turn of events it has returned as an important theme in contemporary culture in the wake of the emergence in the 1980s of both string theory in physics with its ten or eleven dimensional universes and computer graphics Henderson demonstrates the importance of this new conception of space for figures ranging from Buckminster Fuller Robert Smithson and the Park Place Gallery group in the 1960s to Tony Robbin and digital architect Marcos Novak

Cubism and Futurism R. Bruce Elder,2018-06-30 Cubism and futurism were closely related movements that vied with each other in the economy of renown Perception dynamism and the dynamism of perception these were the issues that passed back and forth between the two Cubism and Futurism Spiritual Machines and the Cinematic Effect shows how movement became in the traditional visual arts a central factor with the advent of the cinema gone were the days when an artwork strived merely to lift experience out the realm of change and flow The cinema at this time was understood as an electric art akin to X rays coloured light and sonic energy In this book celebrated filmmaker and author Bruce Elder connects the dynamism that the cinema made an essential feature of the new artwork to the new science of electromagnetism Cubism is a movement on the cusp of the transition from the Cartesian world of standardized Cartesian coordinates and interchangeable machine parts to a Galvanic world of continuities and flows In contrast futurism embraced completely the emerging electromagnetic view of reality Cubism and Futurism examines the similarity and differences between the two movements engagement with the new science of energy and shows that the notion

of energy made central to the new artwork by the cinema assumed a spiritual dimension as the cinema itself came to be seen as a pneumatic machine **Handbook of International Futurism** Günter Berghaus, 2018-12-17 The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement initiated by F T Marinetti in 1909 exercised a particularly noteworthy influence The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty eight countries While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia it treats Futurism as an international multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth century avant garde Hundreds of artists who in some phase in their career absorbed Futurist ideas and stylistic devices are presented in the context of their national traditions their international connections and the media in which they were predominantly active The handbook acts as a kind of multi disciplinary geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact **Filippo Tommaso Marinetti** Ernest Ialongo, 2015-03-06 Filippo Tommaso Marinetti The Artist and His Politics explores the politics of the leader of the Futurist art movement Emerging in Italy in 1909 Futurism sought to propel Italy into the modern world and is famously known for outlandish claims to want to destroy museums and libraries in order to speed this transition Futurism however also had a much darker political side It glorified war as the solution to many of Italy s ills and was closely tied to the Fascist Regime In this book Ialongo focuses on Marinetti as the chief determinant of Futurist politics and explores how a seemingly revolutionary art movement at one point having some support among revolutionary left wing movements in Italy could eventually become so intimately tied to the repressive Fascist regime Ialongo traces Marinetti s politics from before the foundation of Futurism through the Great War and then throughout the twenty year Fascist dictatorship using a wide range of published and unpublished sources Futurist politics are presented within the wider context of developments in Italy and Europe and Ialongo further highlights how Marinetti s political choices influenced the art of his movement **Encyclopedia of Literary Modernism** Paul Poplawski, 2003-12-30 Modernism is still widely acknowledged as perhaps the most important and influential artistic and cultural phenomenon of the 20th century Written by expert scholars from around the world and covering hundreds of different topics in a clear incisive and critical manner this reference maps the complex field of modernism in a fresh and original way The principal focus of the book is on English language literary modernism and the period 1890 1939 yet many entries extend beyond those parameters to include important precursors and successors of the movement The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject Entries cite works for further reading and the volume closes with a selected general bibliography **Fascism and Ideology** Salvatore

Garau,2015-03-24 This book develops a number of new conceptual tools to tackle some of the most hotly debated issues concerning the nature of fascism using three profoundly different national contexts in the inter war years as case studies Italy Britain and Norway It explores how fascist ideology was the result of a sustained struggle between competing internal factions which created a precarious but also highly dynamic balance between revolutionary totalitarian and conservative authoritarian tendencies Such a balance meant that these movements were hybrids with a surprising degree of internal diversity which cannot be explained away as simple opportunism or lack of ideological substance The book s focus on fascist ideology s internal variety and aggregative potential leads it to argue that when fascism succeeded this was less an effect of its revolutionary ideas than of the opposite namely its power to integrate elements from other pre existing ideologies Given the prevailing opinion that fascism is revolutionary by definition the book ultimately poses a challenge to the dominant view in the field of fascist studies

The Dawn of Political Nihilism Professor David Ohana,2008-12-04 In the turbulent period between 1870 and 1930 the contours on modernity were taking shape especially the connections between technology politics and aesthetics The trilogy The Nihilist Order traces the genealogy of the nihilist totalitarian syndrome Until now nihilism and totalitarianism were considered opposites one an orderless state of affairs the other a strict regimented order On closer scrutiny however a surprising affinity can be found between these two concepts that dominated the history of the first half of the twentieth century Starting with Nietzsche s philosophy this book traces the development of an intellectual school characterised by the paradoxical dual purpose of a wish to destroy coupled with a strong desire to create imposing structures This explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements Friedrich Nietzsche Georges Sorel the Italian Futurists led by Filippo Tommaso Marinetti and Ernst J nger were all well known intellectual and cultural figures Here they are seen and understood in a different light as creators of a modern political mythology that became a source of inspiration for belligerent ideological camps Among the ideas propagated by this school and later adopted by totalitarian regimes were historical nihilism a revolt against the rationalistic and universalistic pretensions of the Enlightenment an affirmation of the dynamism of modern life and the replacement of the traditional Judeo Christian values of good and evil by other dualities such as authenticity and decadence Concurrently there took place affirmation of the technological era the creation of a new man and a violent order and the birth of a new political style in place of traditional world views When channelled into the political sphere these aesthetic nihilist ideas paved the way for the rise of totalitarianism

The Fascist Temptation David Ohana,2020-12-30 This book posits a new theory of fascism as a radical political community of experience The author engages with a range of thinkers both critical of and inspiring fascism including Walter Benjamin Albert Camus Ernst J nger Carl Schmitt Friedrich Nietzsche and Martin Heidegger This book will

be of interest to scholars of the history of political thought fascism and Nazism **Fascist Spectacle** Simonetta Falasca-Zamponi, 2023-09-01 This richly textured cultural history of Italian fascism traces the narrative path that accompanied the making of the regime and the construction of Mussolini's power Simonetta Falasca Zamponi reads fascist myths rituals images and speeches as texts that tell the story of fascism Linking Mussolini's elaboration of a new ruling style to the shaping of the regime's identity she finds that in searching for symbolic means and forms that would represent its political novelty fascism in fact brought itself into being creating its own power and history Falasca Zamponi argues that an aesthetically founded notion of politics guided fascist power's historical unfolding and determined the fascist regime's violent understanding of social relations its desensitized and dehumanized claims to creation its privileging of form over ethical norms and ultimately its truly totalitarian nature This richly textured cultural history of Italian fascism traces the narrative path that accompanied the making of the regime and the construction of Mussolini's power Simonetta Falasca Zamponi reads fascist myths rituals images and speeches as texts t *The Vital Art of D.H. Lawrence* Jack Stewart, 1999 D H Lawrence asserts Jack Stewart expresses a painter's vision in words supplementing visual images with verbal rhythms With the help of twenty three illustrations Stewart shows how Lawrence's style relates to impressionism expressionism primitivism and futurism Stewart examines Lawrence's painterly vision in *The White Peacock* *Sons and Lovers* *The Rainbow* *Women in Love* *Kangaroo* and *The Plumed Serpent* Stewart's final three chapters deal with the influence exerted on Lawrence's fiction by the work of Van Gogh Cezanne Gauguin and the Japanese artists Hokusai and Hiroshige He concludes by synthesizing the themes that pervade this interarts study vision and expression art and ontology [Nihilist Order](#) Professor David Ohana, 2016-04-19 The explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements *The Nihilist Order* originally published in three hardcover volumes and now published in a consolidated paperback edition with an encompassing new Introduction inspired excellent review endorsements both amongst the academic and public spheres and has been heralded as a great achievement in European intellectual and cultural history **Close Listening** Charles Bernstein, 1998-04-30 *Close Listening* brings together seventeen strikingly original essays especially written for this volume on the poetry reading the sound of poetry and the visual performance of poetry While the performance of poetry is as old as poetry itself critical attention to modern and postmodern poetry performance has been surprisingly slight This volume featuring work by critics and poets such as Marjorie Perloff Susan Stewart Johanna Drucker Dennis Tedlock and Susan Howe is the first comprehensive introduction to the ways in which twentieth century poetry has been practiced as a performance art From the performance styles of individual poets and types of poetry to the relation of sound to meaning from historical and social approaches to poetry readings to new imaginations of prosody the entries gathered here investigate a compelling

range of topics for anyone interested in poetry Taken together these essays encourage new forms of close listenings not only to the printed text of poems but also to tapes performances and other expressions of the sounded and visualized word The time is right for such a volume with readings spoken word events and the Web gaining an increasing audience for poetry Close Listening opens a number of new avenues for the critical discussion of the sound and performance of poetry

Library Catalog of the Metropolitan Museum of Art, New York Metropolitan Museum of Art (New York, N.Y.). Library,1980 A Dilemma of English Modernism Michael J. K. Walsh,2007-02 Presents a first history of the artist and his work within the literary and sociocultural context of contemporary London Paris Milan and New York This work also emphasizes a re evaluative positioning of Nevinson s work within a modernist framework in literature and art in the first half of the twentieth century in northwest Europe Undercurrents The Wire,2002-11-07 For the last twenty years The Wire has fearlessly bypassed fashion in it s search to expose the most innovative radical and compelling music from every genre all across the world As listeners have grown increasingly eclectic and adventurous in their tastes The Wire has emerged as the most authoritative source on modern music In Undercurrents some of the best music writers of our time uncover the hidden wiring of the past century s most influential music Ian Penman discusses how the microphone transformed the human voice and made phantom presences of great singers such as Billie Holiday Robert Johnson and Brian Wilson Christoph Cox demonstrates how the pioneers of live electronic music the West Coast ensemble Sonic Arts Union redefined virtuosity for the electronic age Philip Smith and Peter Shapiro examine Harry Smith s Smithsonian Anthology of American Folk Music which led to a massive reappraisal of musical values that went far beyond the folk music revival **The Darkness of the Present** Steve McCaffery,2012-11-19 The Darkness of the Present includes essays that collectively investigate the roles of anomaly and anachronism as they work to unsettle commonplace notions of the contemporary in the field of poetics In the eleven essays of The Darkness of the Present poet and critic Steve McCaffery argues that by approaching the past and the present as unified entities the contemporary is made historical at the same time as the historical is made contemporary McCaffery s writings work against the urge to classify works by placing them in standard literary periods or disciplinary partitions Instead McCaffery offers a variety of insights into unusual and ingenious affiliations between poetic works that may have previously seemed distinctive He questions the usual associations of originality and precedence In the process he repositions many texts within genealogies separate from the ones to which they are traditionally assigned The chapters in The Darkness of the Present might seem to present an eclectic fa ade and can certainly be read independently They are linked however by a common preoccupation reflected in the title of the book the anomaly and the anachronism and the way their empirical emergence works to unsettle a steady notion of the contemporary or new

Futurism The Story Of A Modern Art Movement A New Appraisal Introduction

In the digital age, access to information has become easier than ever before. The ability to download Futurism The Story Of A Modern Art Movement A New Appraisal has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Futurism The Story Of A Modern Art Movement A New Appraisal has opened up a world of possibilities. Downloading Futurism The Story Of A Modern Art Movement A New Appraisal provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Futurism The Story Of A Modern Art Movement A New Appraisal has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Futurism The Story Of A Modern Art Movement A New Appraisal. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Futurism The Story Of A Modern Art Movement A New Appraisal. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Futurism The Story Of A Modern Art Movement A New Appraisal, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Futurism The Story Of A Modern Art Movement A New Appraisal has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on

a journey of continuous learning and intellectual growth.

FAQs About Futurism The Story Of A Modern Art Movement A New Appraisal Books
