Futurism In Flight:

Futurism in Flight Bruno Mantura, Patrizia Rosazza Ferraris, Livia Velani, 1990 Futurism and the Technological Imagination, 2016-08-09 This volume Futurism and the Technological Imagination results from a conference of the International Society for the Study of European Ideas in Helsinki It contains a number of re written conference contributions as well as several specially commissioned essays that address various aspects of the Futurists relationship to technology both on an ideological level and with regard to their artistic languages In the early twentieth century many art movements vied with each other to overhaul the aesthetic and ideological foundations of arts and literature and to make them suitable vehicles of expression in the new Era of the Machine Some of the most remarkable examples came from the Futurist movement founded in 1909 by Filippo Tommaso Marinetti By addressing the full spectrum of Futurist attitudes to science and the machine world this collection of 14 essays offers a multifaceted account of the complex and often contradictory features of the Futurist technological imagination The volume will appeal to anybody interested in the history of modern culture art and literature **The Airplane in American Culture** Dominick Pisano, 2003 A fascinating account of America's relationship with the airplane *Futurism in flight* Bruno Mantura, 1990 **Aeropittura** Bonhams (Firm : 2001), 2022

Strukov, Helena Goscilo, 2016-09-13 Among the many successes of the Soviet Union were inaugural space flight ahead of the United States and many other triumphs related to aviation. Aviators and cosmonauts enjoyed heroic status in the Soviet Union and provided supports of the Soviet project with iconic figures which could be used to bolster the regime's visions, self-confidence and the image of itself as forward looking and futuristic. This book explores how the themes of aviation and space flight have been depicted in film, animation, art, architecture and digital media. Incorporating many illustrations, the book covers a wide range of subjects including the representations of heroes, the construction of myths and the relationship between visual art forms and Soviet Russian culture and society. Futurism Ara H. Merjian, 2025-02-03 Very Short

Introductions. Brilliant. Sharp. Inspiring. From the motorcar to the radio, modern technology radically transformed urban life by the first decade of the twentieth century. As one of Western Europe's least industrialized countries, Italy appeared impervious to such developments. It was this state of affairs at which the Futurist movement took aim. With its founding in 1909, the poet and impresario F. T. Marinetti called for a revitalization of aesthetic expression by means of movement and aggression. A growing cadre of Futurist painters, poets, authors and musicians exchanged Italy's cultural patrimony for new technologies, media and metaphors championing machine-propelled speed and its salutary hazards. Cubist painting, collage and sculpture lent the Futurist campaign a revolutionary style to match its rhetorical fervor. Yet whereas Cubism remained a revolution of artistic form, Futurism sought to shatter the boundaries between art and life itself. Indeed, the movement's challenge to twentieth-century culture lay not in any specific set of images or objects but a more comprehensive revolution of sensibility. By the mid-1910s, there circulated several dozen Futurist proclamations on everything from men's clothing to set design, photography to film, dance to politics. That political impetus proved relentlessly paradoxical in origin and upshot. From its base in Milan, Futurist activity spread throughout the entire peninsula while related movements emerged almost immediately in Moscow, Lisbon, Tbilisi and Tokyo. Prefiguring and then propagandizing Fascist imperialism, Futurism also galvanized a range of progressive modernist phenomena. More than a century later, the activist model of the Futurist avant-garde remains deeply fraught in its historical implications. ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas and enthusiasm to make interesting and challenging topics highly readable. **The Political Aesthetics of ISIS and Italian Futurism** Thorsten

Botz-Bornstein, 2018-12-17 Through empirical analysis and theoretical reflection, this book shows that the aesthetics and politics of the Islamic State is futurist. ISIS overcomes postmodern pessimism and joins the modern, techno-oriented and optimistic attitude propagated by Italian Futurism in the early twentieth century. The Islamic State does not only excel through the extensive use of high-tech weapons, social media, commercial bot and automated text systems. By putting forward the presence of speeding cars and tanks, mobile phones and computers, ISIS presents jihad life as connected to modern urban

culture Futurism praised violence as a means of leaving behind imitations of the past in order to project itself most efficiently into the future A profound sense of crisis produces in both Futurism and jihadism a nihilistic attitude toward the present state of society that will be overcome through an exaltation of technology Futurists were opposed to parliamentary democracy and sympathized with nationalism and colonialism ISIS jihadism suggests a similarly curious combination of modernism and conservative values The most obvious modern characteristic of this new image of fundamentalism is the highly aestheticized recruiting material

Futurism Flaminio Gualdoni, 2009 The myth of modernity told through the works of Balla Depero Boccioni and Prampolini Paris 20 February 1909 An article by the young Italian poet Filippo Tommaso Marinetti appears on the first page of the daily *Le Figaro* It is the Manifesto of Futurism the artistic movement established in Milan in 1909 that expressed concepts of movement and speed through simultaneous visions and dynamic lines Marinetti intends to challenge the Paris avant garde not by proposing a new way of making art and literature but a new way of living that interprets in an embracing way the new collective myth of modernity

Handbook of International Futurism Günter Berghaus, 2018-12-17 The Handbook of International Futurism is the first reference work ever to present in a comparative fashion all media and countries in which the movement initiated by F T Marinetti in 1909 exercised a particularly noteworthy influence The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty eight countries While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia it treats Futurism as an international multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth century avant garde Hundreds of artists who in some phase in their career absorbed Futurist ideas and stylistic devices are presented in the context of their national traditions their international connections and the media in which they were predominantly active The handbook acts as a kind of multi disciplinary geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact

Topophilia and Topophobia Xing Ruan, Paul Hogben, 2020-10-28 This book is about the love and hate relations that humans establish with their habitat which have been coined by discerning modern thinkers as topophilia and topophobia Whilst such affiliations with the topos our manmade as well as natural habitat have been traced back to antiquity a wide range of twentieth century cases are studied here and reflected upon by dwelling on this framework The book provides a timely reminder that the qualitative aspects of the topos sensual as well as intellectual should not be disregarded in the face of rapid technological development and the mass of building that has occurred since the turn of the millennium Topophilia and Topophobia offers speculative and historical reflections on the human habitat of the century that has just passed authored by some of the world's leading scholars and architects including Joseph Rykwert Yi Fu Tuan Vittorio Gregotti and Jean Louis Cohen Human habitats ranging broadly from the cities of the twentieth century highbrow modern architecture

both in Western countries and in Asia to non architect planner designed vernacular settlements and landscapes are reviewed under the themes of topophilia and topophobia across the disciplines of architecture landscape studies philosophy human geography and urban planning *Rethinking the Humanities* Ricardo Gil Soeiro, Sofia Tavares, 2011-11-15 In what we consider to be a timely collection of essays the volume *Rethinking the Humanities* Paths and Challenges tries to reflect upon the present condition of the humanities and their manifold challenges acutely dramatized in an era of increasing contingency and globalization By drawing upon a wide variety of perspectives and areas of research from literary studies to philosophy from cultural criticism to the history of ideas we hope to surpass the now dominant rhetoric of crisis as it features for example in George Steiner's essay *Humanities At Twilight* not only by devising new horizons for a humanistic literary culture C ndido de Oliveira Martins and envisioning literary studies in a Post literary age David Damrosch but also by advocating an ethical turn for the humanities Peter Levine and Jos Pedro Serra seen as an education toward autonomy Richard Wolin as well as by reconsidering the very notion of crisis within the humanities Marjorie Perloff and Ant nio Sousa Ribeiro By doing so and whilst it does not claim to offer definitive answers the volume nevertheless strives to open up new fields of debate and innovative perspectives The editors **International Futurism in Arts and Literature** Günter Berghaus, 2012-10-25 This publication offers for the first time an inter disciplinary and comparative perspective on Futurism in a variety of countries and artistic media 20 scholars discuss how the movement shaped the concept of a cultural avant garde and how it influenced the development of modernist art and literature around the world **Strategic Terror** Beau Grosscup, 2013-07-18 Presenting a global history of aerial bombardment this book shows how certain European powers initiated aerial bombardment of civilians after World War I and how it was an instrument of choice in World War II Beau Grosscup shows that such methods used initially as a means of terrorizing native populations in Africa and the Middle East have become the primary form of terrorism in more recent decades While such strategic terror is not classed as terrorism in the West this reflects an unwillingness to confront the human costs and immorality of aerial bombardment Grosscup argues that if terrorism is to be diminished the role of aerial bombing in sustaining global violence must be recognized *Poetics of Dance* Gabriele Brandstetter, 2015-03-11 When it was first published in Germany in 1995 *Poetics of Dance* was already seen as a path breaking publication the first to explore the relationships between the birth of modern dance new developments in the visual arts and the renewal of literature and drama in the form of avant garde theatrical and movement productions of the early twentieth century Author Gabriele Brandstetter established in this book not only a relation between dance and critical theory but in fact a full interdisciplinary methodology that quickly found foothold with other areas of research within dance studies The book looks at dance at the beginnings of the 20th century the time during which modern dance first began to make its radical departure from the aesthetics of classical ballet Brandstetter traces modern dance's connection to new innovations and trends in visual and literary arts to argue that modern dance is in fact the preeminent symbol of modernity

As Brandstetter demonstrates the aesthetic renewal of dance vocabulary which was pursued by modern dancers on both sides of the Atlantic Isadora Duncan and Loie Fuller Valeska Gert and Oskar Schlemmer Vaslav Nijinsky and Michel Fokine unfurled itself in new ideas about gender and subjectivity in the arts more generally thus reflecting the modern experience of life and the self understanding of the individual as an individual As a whole the book makes an important contribution to the theory of modernity

Marisa Mori and the Futurists Jennifer Griffiths, 2023-01-12 This book introduces a compelling new personality to the modernist canon Marisa Mori 1900 1985 who became the only female contributor to *The Futurist Cookbook* 1932 with her recipe for Italian Breasts in the Sun Providing something more complex than a traditional biographical account Griffiths presents a feminist critique of Mori's art converging on issues of gender culture and history to offer new critical perspectives on Italian modernism If subsequently written out of modernist memory Mori was once at the center of the Futurism movement in Italy yet she worked outside the major European capitals and fluctuated between traditional figurative subjects and abstract experimentation As a result her in between pictures can help to re think the margins of modernism By situating Mori's most significant artworks in the critical context of interwar Fascism and highlighting her artistic contributions before during and after her Futurist decade Griffiths contributes to a growing body of knowledge on the women who participated in the Italian Futurist movement In doing so she explores a woman artist's struggle for modernity among the Italian Futurists in an age of Fascism

Flight, 1918 *Reproductions of Banality* Alice Yaeger Kaplan, *Reproductions of Banality* was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions An established fascist state has never existed in France and after World War II there was a tendency to blame the Nazi Occupation for the presence of fascists within the country Yet the memory of fascism within their ranks still haunts French intellectuals and questions about a French version of fascist ideology have returned to the political forefront again and again in the years since the war In *Reproductions of Banality* Alice Yaeger Kaplan investigates the development of fascist ideology as it was manifested in the culture of prewar and Occupied France Precisely because it existed only in a gathering or formative stage and never achieved the power that brings with it a bureaucratic state apparatus French fascism never lost its utopian communal elements or its consequent aesthetic appeal Kaplan weighs this fascist aesthetic and its puzzling power of attraction by looking closely at its material remains the narratives slogans newspapers and film criticism produced by a group of writers who worked in Paris in the 1930s and early 1940s their most real moment These writers include Pierre Drieu la Rochelle Louis Ferdinand Celine Lucien Rebatat Robert Brasillach and Maurice Bardeche as well as two precursors of French fascism Georges Sorel and the Italian futurist F T Marinetti who made of the airplane an industrial carrier of sexual fantasies and a prime mover in the transit from futurism to fascism Kaplan's work is grounded in the major Marxist and psychoanalytic theories of fascism and in concepts of banality and mechanical reproduction that draw upon Walter

Benjamin Emphasizing the role played by the new technologies of sight and sound she is able to suggest the nature of the long repressed cultural and political climate that produced French fascism and to show by implication that the mass marketing of ideology in democratic states bears a family resemblance to the fascist mode of an earlier time
