Kuhns, 1997-08-28 German Expressionist Theatre The Actor and the Stage considers the powerfully stylized anti realistic styles of acting on the German Expressionist stage from 1916 to 1921 It relates this striking departure from the dominant European acting tradition

of realism to the specific cultural crises that enveloped the German nation during the course of its involvement in World War I This book describes three distinct Expressionist acting styles all of which in their own ways attempted to show how symbolic stage performance could be a powerful rhetorical resource for a culture struggling to come to terms with the crises of historical change The examination of Expressionist script and actor memoirs allows for an unprecedented focus on description and analysis of acting itself

Mikhail Larionov and the Cultural Politics of Late Imperial Russia Sarah Warren, 2017-07-05 In the turbulent atmosphere of early twentieth century Tsarist Russia avant garde artists took advantage of a newly pluralistic culture in order to challenge orthodoxies of form as well as social prohibitions Very few did this as effectively or to as broad an audience as Mikhail Larionov This groundbreaking study examines the complete range of his work painting book illustration performance and curatorial work and demonstrates that Larionov was taking part in a broader cultural conversation that arose out of fundamental challenges to autocratic rule Sarah Warren brings the culture of late Imperial Russia out of obscurity highlighting Larionov s specific interventions into conversations about nationality and empire democracy and autocracy and people and intelligentsia that colonized all areas of cultural production Rather than analyzing Larionov s works within the same interpretive frameworks as those of his contemporaries in France or Germany such as Matisse or Kirchner Warren explores the Russian s negotiations with both nationalism and modernism Further this study shows that Larionov s group exhibitions public debates and face painting performances were more than a derivative repetition of the techniques of the Italian Futurists Rather these activities were the culmination of his attempt to create a radical primitivism one that exploited the widespread Russian desire for an authentic collective identity while resisting imperial efforts to appropriate this revivalism to its own ends
