of the birth and growth of one of Russia's most important institutions      **The Making of Russian Absolutism 1613-1801** Paul Dukes, 2014-01-14 Revised and expanded the second edition of this fascinating study surveys the first two centuries of Romanov rule from the foundation of the dynasty by Michael Romanov in 1613 to the accession of Alexander I in 1801 The central theme of the book is the growth of absolutism in Russia throughout these years and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being      *Explorations and Entanglements* Hartmut Berghoff, Frank Biess, Ulrike Strasser, 2018-11-16 Traditionally Germany has been considered a minor player in Pacific history its presence there was more limited than that of other European nations and whereas its European rivals established themselves as imperial forces beginning in the early modern era Germany did not seriously pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific's overlapping cultural circuits and complex oceanic transits      **From Northeast Passage to Northern Sea Route**, 2022-09-12 The notion of a waterway north of Eurasia conceived in the first half of the sixteenth century remained only a dream for centuries due to ice unmapped coastlines and a lack of geographical knowledge This volume is the first comprehensive scholarly account in English of the slow but steady exploration and commercial exploitation of the Siberian coastal waters and it proves that this was a truly international endeavour However in the end the Northern Sea Route as a through traverse route came to be used primarily by the Soviet Union for which it became a crucial vehicle for the geopolitical and economic integration of its vast territories As an international trade route the Northern Sea Route is only today about to win its way essentially as a result of global warming This being the case should we rejoice or despair      **A History of Tatarstan** Kees Boterbloem, 2023-10-10 A History of Tatarstan The Russian Yoke and the Vanishing Tatars surveys the history of the Tatar people living along the Volga river It argues that the Volga Tatars were Russia's first colonized people and after their subjugation in 1552 the Tatars have been continually mistreated by their Russian rulers even when the nature of the Russian regime changed over time For a long period the Tatars managed to evade overly deep Russian intrusion into their lives after the middle of the 1850s Russian and Soviet authorities obliterated their traditional way of life Despite efforts at restoring a measure of Tatar independence in the 1990s russification has led to a marked fall in those identifying as Tatar in the Russian Federation pointing at the possibility of a disappearance altogether of the Volga Tatars      **Encyclopedia of Ukraine** Danylo Husar Struk, 1993-12-15 Over thirty years in the making the most comprehensive work in English on Ukraine is now complete its history people geography economy and cultural heritage both in Ukraine and in the diaspora      **The Anthropology of the Enlightenment** Larry Wolff, Marco Cipolloni, 2007-09-04 The modern enterprise of anthropology with all of its important implications for cross cultural perceptions perspectives and self

consciousness emerged from the eighteenth century intellectual context of the Enlightenment If the Renaissance discovered perspective in art it was the Enlightenment that articulated and explored the problem of perspective in viewing history culture and society If the Renaissance was the age of oceanic discovery most dramatically the discovery of the New World of America the critical reflections of the Enlightenment brought about an intellectual rediscovery of the New World and thus laid the foundations for modern anthropology The contributions that constitute this book present the multiple anthropological facets of the Enlightenment and suggest that the character of its intellectual engagements acknowledging global diversity interpreting human societies and bridging cultural difference must be understood as a whole to be fundamentally anthropological

**The Revolution of Peter the Great** James Cracraft, 2006-03-15 Russians learned how to build and sail warships train supply and command a modern army operate a new style bureaucracy conduct diplomacy on a par with the other European states apply modern science and conceptualize the new governing system

**Longman Companion to Imperial Russia, 1689-1917** David Longley, 2014-07-30 This is the first book of its kind to draw together information on the major events in Russian history from 1695 to 1917 covering the eventful period from the accession of Peter the Great to the fall of Nicholas II Not only is a vast amount of material on key events and topics brought together but the book also contains fascinating background material to convey the reality of life in the period

Под Командованием Витуса Беринга : Новые Перспективы В Изучении Камчатских Экспедиций Peter Ulf Møller, Natasha Okhotina Lind, 2002 From 1725 until his death in 1741 Vitus Bering commanded two of the most ambitious journeys of exploration in the 18th century Each required years of overland travel across Asia to reach desolate Kamchatka and the Pacific coast of Siberia where the crews had to build their own ships Only then could the search for the mythical Northeast Passage and the northwestern coastline of America begin During the last decade the discovery of forgotten documents in Russian archives has revitalised the study of these classic expeditions and the contributors to this volume are all part of the new scholarship Here they examine such topics as expedition historiography the participants daily life the beginnings of scientific ethnography and the connection between the expeditions scientific objectives and their political ends These political goals included the colonisation of northern Pacific islands and the North American coast and manifested themselves in two sets of instructions one genuine one false

Navigational Enterprises in Europe and its Empires, 1730-1850 Rebekah Higgitt, Richard Dunn, 2016-02-19 This book explores the development of navigation in the eighteenth and nineteenth centuries It examines the role of men of science seamen and practitioners across Europe and the realities of navigational practice showing that old and new methods were complementary not exclusive their use dependent on many competing factors

**Discovering the Mammoth** John J McKay, 2017-08-08 The fascinating saga of solving the mystery of this ancient animal who once roamed the north country and has captivated our collective imagination ever since Today we know that a mammoth is an extinct type of elephant that was covered with long fur and lived in the north country during the ice ages But how do you figure out what a mammoth is if you

have no concept of extinction ice ages or fossils Long after the last mammoth died and was no longer part of the human diet it still played a role in human life Cultures around the world interpreted the remains of mammoths through the lens of their own worldview and mythology When the ancient Greeks saw deposits of giant fossils they knew they had discovered the battle fields where the gods had vanquished the Titans When the Chinese discovered buried ivory they knew they had found dragons teeth But as the Age of Reason dawned monsters and giants gave way to the scientific method Yet the mystery of these mighty bones remained How did Enlightenment thinkers overcome centuries of myth and misunderstanding to reconstruct an unknown animal The journey to unravel that puzzle begins in the 1690s with the arrival of new type of ivory on the European market bearing the exotic name mammoth It ends during the Napoleonic Wars with the first recovery of a frozen mammoth The path to figuring out the mammoth was traveled by merchants diplomats missionaries cranky doctors collectors of natural wonders Swedish POWs Peter the Great Ben Franklin the inventor of hot chocolate and even one pirate McKay brings together dozens of original documents and illustrations some ignored for centuries to show how this odd assortment of characters solved the mystery of the mammoth and in doing so created the science of paleontology Before Boas Han F. Vermeulen, 2015-07 The history of anthropology has been written from multiple viewpoints often from perspectives of gender nationality theory or politics Before Boas delves deeper into issues concerning anthropology s academic origins to present a groundbreaking study that reveals how ethnography and ethnology originated during the eighteenth rather than the nineteenth century developing parallel to anthropology or the natural history of man Han F Vermeulen explores primary and secondary sources from Russia Germany Austria the United States the Netherlands Hungary the Czech Republic Slovakia France and Great Britain in tracing how ethnography originated as field research by German speaking historians and naturalists in Siberia Russia during the 1730s and 1740s was generalized as ethnology by scholars in G ttingen Germany and Vienna Austria during the 1770s and 1780s and was subsequently adopted by researchers in other countries Before Boas argues that anthropology and ethnology were separate sciences during the Age of Reason studying racial and ethnic diversity respectively Ethnography and ethnology focused not on other cultures but on all peoples of all eras Following G W Leibniz researchers in these fields categorized peoples primarily according to their languages Franz Boas professionalized the holistic study of anthropology from the 1880s into the twentieth century *The Development of Siberia* R A French, Alan Wood, 1990-01-12 **Nationalist Imaginings of the Russian Past** Konstantin Sheiko, 2012-05-25 Anatolii Fomenko is a distinguished Russian mathematician turned popular history writer founder of the so called New Chronology school and part of the explosion of alternative historical writing that has emerged in Russia since the collapse of the Soviet Union Among his more startling claims are that the Old Testament was written after the New Testament that Russia is older than Greece and Rome and that the medieval Mongol Empire was in fact a Slav Turk world empire a Russian Horde to which Western and Eastern powers paid tribute While academic historians dismiss Fomenko as a

dangerous ethno nationalist or post modern clown Fomenko s publications invariably outsell his conventional rivals Just as Putin has restored Russia s faith in its future Fomenko and an army of fellow alternative historians are determined to restore Russia s faith in its past For Fomenko the key to Russia s greatness in the future lies in ensuring that Russians understand the true greatness of their past Fomenko and other pseudo historians have built upon existing Russian notions of identity specifically the widespread belief in the positive qualities of empire and the special mission of Russia He has drawn upon previous attempts to establish a Russian identity ranging from Slavophilism through Stalinism to Eurasianism While fantastic Fomenko s pseudo history strikes many Russian readers as no less legitimate than the lies and distortions peddled by Communist propagandists Tsarist historians and church chroniclers

History as Therapy: Alternative History and Nationalist Imaginings in Russia Konstantin Sheiko, Stephen Brown, 2014-05-01 This astonishing book explores the delusional imaginings of Russia s past by the pseudo scientific Alternative History movement Despite the chaotic collapse of two empires in the last century Russia s glorious imperial past continues to inspire millions The lively movement of Alternative History diligently re writing Russia s past and rediscovering its hidden greatness has been growing dramatically since the collapse of Communism in 1991 Virtually unknown in the West these pseudo historians have published best selling books attracted widespread media attention and are a prominent voice in Internet discussions about Russian and world history Alternative History claims that Russia is much older than Ancient Egypt Greece and Rome that the medieval Mongol Empire was in fact a Slav Turk world empire and that in the twentieth century duplicitous foreign powers stabbed Russia in the back and stole its empire For its followers the key to Russia s greatness in the future lies in ensuring that Russians understand the true wealth of their past Alternative history has become a popular therapy for Russians still coming to terms with the reality of Post Soviet life It is one of the forces shaping a new Russian nationalism and an important factor in the geopolitics of the twenty first century

**The Heritage of Soviet Oriental Studies** Michael Kemper, Stephan Conermann, 2011-02 The Western field of oriental studies and orientalism criticised by Edward Said among others for encouraging the orient to be viewed in a particular way has a counterpart in Russia and the Soviet Union This book examines this Russian Soviet intellectual tradition of oriental scholarship covering Islamic history and Muslim literatures of the USSR republics of Central Asia and the Caucasus

**Enlightened Metropolis** Alexander M. Martin, 2013-03-28 Imperial Russia is was said had two capital cities because it had two identities St Petersburg was Russia s window to Europe whereas Moscow preserved the nation s proud historical traditions Enlightened Metropolis challenges this myth by exploring how the tsarist regime actually tried to turn Moscow into a bridgehead of Europe in the heartland of Russia Moscow in the eighteenth century was widely scorned as backward and Asiatic The tsars thought it a benighted place that endangered their state s internal security and their effort to make Russia European Beginning with Catherine the Great they sought to construct a new Moscow with European buildings and institutions a Westernized middle estate and a new cultural image as an enlightened metropolis

Drawing on the methodologies of urban social institutional cultural and intellectual history Enlightened Metropolis asks How was the urban environment buildings institutions streets smells transformed in the nine decades from Catherine s accession to the death of Nicholas I How were the lives of the inhabitants changed Did a middle estate come into being How similar was Moscow s modernization to that of Western cities and how was it affected by the disastrous occupation by Napoleon Lastly how were Moscow and its people imagined by writers artists and social commentators in Russia and the West from the Enlightenment to the mid nineteenth century
