Gaia-Sophia B. C. J. Zoeteman, 1991-01-01 **A Thousand Shades of Green** Peter Winsemius, Ulrich Guntram, 2013-06-17 What does it mean for the environment is a strategic corollary of almost any significant business decision today and companies must take seriously their responsibilities to regulators customers employees and the wider society *A Thousand Shades of Green* is aimed at business leaders in need of a clear understanding of the key corporate environmental challenges and the insight and vision to meet them imperatives such as engaging stakeholders and developing partnerships understanding the policy making process forming corporate responses and drafting environmental management strategies with the promise of genuine competitive advantage for their companies Drawing on their extensive consultancy experience with some of the most progressive companies around the world the authors examine why and how businesses must confront the rapidly developing agenda set by environmental constraints and social and regulatory pressure They identify the corporate environmental challenge with that of change management and advocate a recognition that there is no single strategy or endgame applicable to all companies there are a thousand shades of green Only by pursuing thorough reflective consistent competitive and proactive strategies will businesses be able to avoid being embroiled in costly and complex reactive approaches

Permaculture Craig Gibsons, Jan Martin Bang, 2015-06-22 Permaculture design as divine creative activity Permaculture looks for the patterns embedded in our natural world as inspirations for designing solutions to the many challenges we are presented with today It is a philosophical spiritual and practical approach to the use of the land integrating microclimate functional plants animals soils water management and human needs into intricately connected highly productive systems In essence permaculture uses observation as basis for creating sustainable and effective human settlements The authors discuss the components Earthshare Fairshare and Peoplecare with a specific emphasis on the spiritual aspects of the design process Topics range from soil and plants energy sources and house design to alternative economics group process governance and spiritual nurturing and enquiry Examples of existing permaculture structures from around the world most notably from the Findhorn Community Eco Village bring the concepts to life First hand accounts of how people got started on their permaculture project lend a personal touch The first book to look at the spiritual aspects as well as the practical implementation of permaculture design

Conserving Europe's Natural Heritage: Towards a European Ecological Network Graham Bennett, 1994-11-08 The United Nations Conference on the Environment Development drew over 100 governments together in Rio de Janeiro 3 14 June 1992 to agree action legal bases for future protection of the environment This book elucidates both the UNCED process the Conference itself by assembling the key documents including the final version of Agenda 21 using them to recount how UNCED began developed finally in Rio came to fruition Each document is preceded by analytical highly informative commentary which renders large sometimes technically complicated material accessible places it in its correct perspective This in turn is amplified by an excellent

Lamb Lash,2006-11-15 Lash is capable of explaining the mind bending concepts of Gnosticism and pagan mystery cults with bracing clarity and startling insight His arguments are often lively and entertaining Los Angeles Times In Not in His Image John Lamb Lash explains how a little known messianic sect propelled itself into a dominant world power systematically wiping out the great Gnostic spiritual teachers the Druid priests and the shamanistic healers of Europe and North Africa Early Christians burned libraries and destroyed temples in an attempt to silence the ancient truth tellers and keep their own secrets But as Lash reveals the truth cannot be hidden or destroyed Not in His Image delves deeply into the shadows of ancient Gnostic writings to reconstruct the story early Christians tried to scrub from the pages of history exploring the richness of the ancient European Pagan spirituality the Pagan Mysteries the Great Goddess Gnosis the myths of Sophia and Gaia Long before the birth of Christianity monotheism was an anomaly Europe and the Near East flourished under the divine guidance of Sophia the ancient goddess of wisdom The Earth was the embodiment of Sophia and thus sacred to the people who sought fulfillment in her presence This ancient philosophy was threatening to the emerging salvation based creed of Christianity that was based on patriarchal dominion over the Earth and lauded personal suffering as a path to the afterlife As Derrick Jensen points out in the afterword in Lash s hands Jesus Christ emerges as the agent provocateur of the ruling classes Sometimes a book changes the world Not in His Image is such a book It is clear stimulating well researched and sure to outrage the experts Get it Improve not just your own life but civilization s chances for survival Roger Payne author of *Among Whales* **Resurgence** ,1992 *Scottish Libraries* ,1991 *The British National Bibliography* Arthur James Wells,1992 **Revista portuguesa de filosofia** ,2003 *Making Values Explicit* Sue Spaid,2025-06-23 This book explores a wide range of topics to demonstrate how relevant values rather than virtues affects emotions or beliefs motivate people to act in ways that structure their identities inspiring others to treat them as they see themselves or want others to see them The Climate Change Crisis has brought several anomalies into focus Clear and distinct information fails to alter people s beliefs and thus their actions don t change By contrast visual art s implicit messages does tend to alter people s beliefs over time The very act of encountering novel values inspires people to shift beliefs to accommodate new values All of this takes place in such a subtle manner that people may not realise their values have shifted until they act or react differently This unusual and innovative book examines how people s underlying values prompt their spontaneous reactions These can range from attention to smell pleasant and unpleasant ideas regarding worth and value notions of justice desire to remediate degraded lands appreciation of gifts efforts to boost wellbeing and strategies for mitigating climate change In working through these issues it will prompt readers to reflect upon how their values structure their personal identities in terms of their daily activities and decisions and provide the opportunity to evaluate how and whether their actions align with their values *Christian Goddess Spirituality* Mary Ann Beavis,2015-10-08 This monograph focuses on Christian Goddess Spirituality CGS the phenomenon of mostly women who combine Christianity and Goddess Spirituality including Wicca

Witchcraft Mary Ann Beavis's study provides ethnographic data and analysis on the lived religious experience of CGS practitioners drawing on interviews of over 100 women who self-identify as combining Christianity and Goddess spirituality. Although CGS also has implications for Goddess Spirituality and related traditions e.g. Neopaganism Wicca here CGS is considered primarily as a phenomenon within Christianity. However, the study also shows that the fusion of Christian and Goddess spiritualities has had an impact on non-Christian feminist spirituality since Goddess worshippers have often constructed Christianity as the diametrical opposite and enemy of the Goddess to the point that some refuse to admit the possibility that CGS is a valid spiritual path or that it is even possible. In addition, biblical Jewish and Christian images of the divine such as Sophia Shekhinah the Virgin Mary and even Mary Magdalene have found their way into the Pagan Goddess pantheon. The main themes of the study include overlaps and differences between Christian feminist theology and CGS, the routes to CGS for individual practitioners and their beliefs, practices and experiences, proto-denominational classifications, spiritual paths within CGS, CGS theology, Christian discourse about the female divine and the future of CGS in social, scientific and ecclesiological context. Christian Goddess Spirituality will be of interest to scholars of religion, especially those with interests in women and religion, feminist spiritualities, feminist theology, theology, alternative spiritualities, New Religious Movements and emergent Christianities.

Religious Philosophies and Environmental Ethics Muzzamel Hussain Imran, 2024-11-13 Religious Philosophies and Environmental Ethics addresses the critical environmental crisis caused by human activity and examines how religious philosophies can contribute to solutions. The book explores the intersection of environmental ethics and religious thought, offering a fresh perspective on how spiritual beliefs might help guide humanity toward sustainable living. It examines the causes of environmental degradation and various religious perspectives on the issue and proposes faith-based solutions for a more harmonious relationship with nature. Through a blend of philosophical inquiry and practical application, the book aims to inspire change in how we approach environmental conservation.

Key Features: Explores the role of religious philosophies in solving environmental problems; Discusses the ethical implications of environmental degradation; Offers faith-based solutions for future sustainability; Proposes a new framework for integrating religious thought into environmental policy.

Creation Through Wisdom Celia Deane-Drummond, 2000 This text offers a new theology of nature based on wisdom chronology. It proposes a theology of creation that is in tune with recent developments in biological science, including genetics and ecology.
