Finocchiaro,2007-10-17 This is must reading for historians of science and a delight for the interested public From his access to many primary sources in the Vatican Library and from his broad knowledge of the history of the 17th century Finocchiaro acquaints readers in an interesting manner with the historical facts of Galileo s trial its aftermath and its repercussions Unlike many other works which present predetermined and at times prejudiced judgments this work provides exhaustive evidence to allow readers to develop their own informed opinion on the subject George V Coyne Director Vatican Astronomical Observatory The tragic condemnation of Galileo by the Roman Catholic Church in 1633 has become the single most potent symbol of authoritarian opposition to new ideas Pioneering in its scope Finocchiaro s book provides a fascinating account of how the trial and its cultural significance have been freshly reconstructed by scholars and polemicists down the ages With a philosopher s eye for fine distinctions the author has written an exciting commentary on the successive appearance of new primary sources and their exploitation for

apologetic and secular purposes John Hedley Brooke author of *Science and Religion Some Historical Perspectives* If good history begins with good facts then Retrying Galileo should be the starting point for all future discussions of the post trial phase of the Galileo affair Maurice Finocchiaro's myth busting documentary history is not only a repository of little known sources but a pleasure to read as well Ronald L Numbers co editor of *When Christianity and Science Meet Retrying Galileo* tells the less well known half of the Galileo affair its long and complex history after 1633 Finocchiaro has performed an invaluable service in writing a book that explores how the trial and condemnation of Galileo has been received debated and reinterpreted for over three and a half centuries We are not yet done with this contentious story Paula E Findlen Ubaldo Pierotti Professor of Italian History and Director of the Science Technology and Society Program Stanford University
