Gallery Of American Samplers:

A Gallery of American Samplers Glee F. Krueger, 1978 The superb collection of American samplers dating from 1678 1865 that has been formed by Theodore H Kapnek is the basis for this exemplary study of the subject which is also very beautifully illustrated with 112 examples the majority of them in color There are also many details enlarged from the samplers making it possible to examine the stitches closely Far from being an assemblage that is merely visually stunning the Kapnek Collection provides the reader with a broad chronological and geographical range of Americana as worked by schoolgirls over a span of two hundred years Basically a method of teaching the essentials of both practical and ornamental needlework samplers have become much sought after and prized in recent years as fascinating examples of early American embroidery The author an expert on all types of American needlework provides in the comprehensive introduction a study of the development of the sampler in America with special attention to the types of schools where this work was taught the materials and stitches used and the sources of the designs Provided by publisher *A Gallery of American Samplers* Glee F. Krueger, 1978 Gallery of American Samplers ,1978 *Sampler Workbook: Motifs and Patterns* Caroline Vincent, 2010-08-30 M nstre til korsstingsbroderi og andre broderiteknikker hvor motiverne er bygninger mennesker tr er dyr borter blomsterarrangementer tal og bogstaver *Artifacts from Nineteenth-Century America* Elizabeth B. Greene, 2022-11-07 This book presents both nationally significant objects and ordinary items from everyday life to provide insight into 19th century American society showing readers how the production design function and use of these objects can inform our understanding of the period *Artifacts from 19th Century America* examines a broad array of objects representing various aspects of 19th century American society The objects have been chosen to illuminate daily life in a number of categories including cooking entertainment grooming clothing and accessories health household items religious life work and education The book s 53 entries include a brief introduction to the background of the object when and why it was made and who used it followed by a detailed description of the object itself Finally each entry provides a deep dive into the object s significance and how the object reveals clues about the social political economic and intellectual life of the society in which it was produced and utilized Students and general readers alike will not only learn about the time period but also learn to use the skills of material culture theory and method including how to draw meaningful conclusions from each object about their historical context and significance **Republic of Taste** Catherine E. Kelly, 2016-06-22 Since the early decades of the eighteenth century European and especially British thinkers were preoccupied with questions of taste Whether Americans believed that taste was innate and therefore a marker of breeding and station or acquired and thus the product of application and study all could appreciate that taste was grounded in demonstrated through and confirmed by reading writing and looking It was widely believed that shared aesthetic sensibilities connected like minded individuals and that shared affinities advanced the public good and held great promise for the American republic Exploring the intersection of the early republic s

material visual literary and political cultures Catherine E Kelly demonstrates how American thinkers acknowledged the similarities between aesthetics and politics in order to wrestle with questions about power and authority Judgments about art architecture literature poetry and the theater became an arena for considering political issues ranging from government structures and legislative representation to qualifications for citizenship and the meaning of liberty itself Additionally if taste prompted political debate it also encouraged affinity grounded in a shared national identity In the years following independence ordinary women and men reassured themselves that taste revealed larger truths about an individual's character and potential for republican citizenship Did an early national vocabulary of taste then with its privileged visuality register beyond the debates over the ratification of the Constitution Did it truly extend beyond political and politicized discourse to inform the imaginative structures and material forms of everyday life Republic of Taste affirms that it did although not in ways that anyone could have predicted at the conclusion of the American Revolution

In the Neatest Manner Kimberly Smith Ivey, 1997 This book was prepared in conjunction with the exhibit Virginia Samplers Young Ladies and Their Needle Wisdom 10 31 1997 09 08 1998 at the DeWitt Wallace Gallery Colonial Williamsburg Foundation Williamsburg VA

Stitching the World: Embroidered Maps and Women's Geographical Education Judith A. Tyner, 2016-12-05 From the late eighteenth century until about 1840 schoolgirls in the British Isles and the United States created embroidered map samplers and even silk globes Hundreds of British maps were made and although American examples are more rare they form a significant collection of artefacts Descriptions of these samplers stated that they were designed to teach needlework and geography The focus of this book is not on stitches and techniques used in drafting the maps but rather why they were developed how they diffused from the British Isles to the United States and why they were made for such a brief time The events of the late eighteenth and early nineteenth centuries stimulated an explosion of interest in geography The American and French Revolutions the wars between France and England the War of 1812 Captain Cook's voyages and the explorations of Lewis and Clark made the study of places exciting and important Geography was the first science taught to girls in school This period also coincided with major changes in educational theories and practices especially for girls and this book uses needlework maps and globes to chart a broader discussion of women's geographic education In this light map samplers and embroidered globes represent a transition in women's education from accomplishments in the eighteenth century to challenging geographic education and conventional map drawing in schools and academies of the second half of the nineteenth century There has been little serious study of these maps by cartographers and moreover historians of cartography have largely neglected the role of women in mapping Children's maps have not been studied although they might have much to offer about geographical teaching and perceptions of a period and map samplers have been dismissed because they are the work of schoolgirls Needlework historians likewise have not done in depth studies of map samplers until recently Stitching the World is an interdisciplinary work drawing on cartography

needlework and material culture This book for the first time provides a critical analysis of these artefacts showing that they offer significant insights into both eighteenth and nineteenth century geographic thought and cartography in the USA and the UK and into the development of female education **The Age of Homespun** Laurel Thatcher Ulrich, 2009-08-26 They began their existence as everyday objects but in the hands of award winning historian Laurel Thatcher Ulrich fourteen domestic items from preindustrial America ranging from a linen tablecloth to an unfinished sock relinquish their stories and offer profound insights into our history In an age when even meals are rarely made from scratch homespun easily acquires the glow of nostalgia The objects Ulrich investigates unravel those simplified illusions revealing important clues to the culture and people who made them Ulrich uses an Indian basket to explore the uneasy coexistence of native and colonial Americans A piece of silk embroidery reveals racial and class distinctions and two old spinning wheels illuminate the connections between colonial cloth making and war Pulling these divergent threads together Ulrich demonstrates how early Americans made use of and saved textiles in order to assert their identities shape relationships and create history

Newell, 2014-03-15 Drawing from 167 examples of decorative needlework primarily samplers and quilts from 114 collections across the United States made by individual women aged forty years and over between 1820 and 1860 this exquisitely illustrated book explores how women experienced social and cultural change in antebellum America The book is filled with individual examples stories and over eighty fine color photographs that illuminate the role that samplers and needlework played in the culture of the time For example in October 1852 Amy Fiske 1785-1859 of Sturbridge Massachusetts stitched a sampler But she was not a schoolgirl making a sampler to learn her letters Instead as she explained The above is what I have taken from my sampler that I wrought when I was nine years old It was wrought on fine cloth and it tattered to pieces My age at this time is 66 years Situated at the intersection of women's history material culture study and the history of aging this book brings together objects diaries letters portraits and prescriptive literature to consider how middle class American women experienced the aging process Chapters explore the physical and mental effects of old age on antebellum women and their needlework technological developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production and how gift needlework functioned among friends and family members Far from being solely decorative ornaments or functional household textiles these samplers and quilts served their own ends They offered aging women a means of coping of sharing and of expressing themselves These threads of time

provide a valuable and revealing source for the lives of mature antebellum women Publication of this book was made possible in part through generous funding from the Coby Foundation Ltd and from the Quilters Guild of Dallas Helena Hibbs Endowment Fund
