**A Gallery of Gum Trees** Arthur Wolseley D'Ombrain, 1944 *The Gallery of Marianne North's Paintings of Plants and Their Homes, Royal Gardens, Kew*, 1883 **Imaginarium: Sightings, Galleries, Sightlines** A. Robert Lee, 2015-07-13 IMAGINARIUM SIGHTINGS GALLERIES SIGHTLINES A Robert Lee's latest collection of poetry turns on two connecting keywords: imagination and sight. Across a broad canvas each of its sequences explores the ways we go about imagining as much as seeing reality. Sightings, which opens the book, turns upon a dozen or so celebrated paintings among them J M W Turner and Frida Kahlo. Galleries extends the usual meaning of the term to include vantage points like a French archaeological cave, a Bosphorus Straits crossing, and a Tokyo station. Sightlines frames a run of personal encounters within the heights and widths of buildings and landscapes, whether different Metro stations or a major Japanese waterfall or Memphis's Beale Street. IMAGINARIUM explores yet other kinds of seeing, including poems that use bird flight as metaphors of imagination, airplane travel, and its larger meanings of self-journey. Science Fiction film and the envisioning of other worlds, a roster of US photography, and imagination itself as a process to be imagined. In sum, the reader is invited into a two-way exchange: imagination as seeing, seeing as imagination. **A Gallery of Her Own** Elree I. Harris, Shirley R. Scott, 2013-11-26 First Published in 1997. This book is intended as a resource for anyone interested in the artistic contributions and activities of women in nineteenth-century Britain. It is an index as well as an annotated bibliography and provides sources for information about women well known in their own time and about women who were little known then and are forgotten now.

**National Galleries** Simon Knell, 2016-01-22 Are national galleries different from other kinds of art gallery or museum? What value is there for the nation in a collection of international masterpieces? How are national galleries involved in the construction of national art? *National Galleries* is the first book to undertake a panoramic view of a type of national institution which are sometimes called national museums of fine art that is now found in almost every nation on earth. Adopting a richly illustrated, globally inclusive comparative view, Simon Knell argues that national galleries should not be understood as great galleries but as peculiar sites where art is made to perform in acts of nation-building. A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth, Knell reveals an unseen geography and a rich complexity of performance. He considers the ways the national galleries entangle art and nation and the differing trajectories and purposes of international and national art. Exploring galleries, artists, and artworks from around the world, *National Galleries* is an argument about how we think about and study these institutions. Privileging the situatedness of each national gallery, performance, and valuing localism over universalism, Knell looks particularly at how national art is constructed and represented. He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism. **A Guide to the Exhibition Galleries** British Museum, 1880 **Portraits Of Dread, A Gallery Of Decidedly Evil Short Stories** Michael J Elliott, 2018-04-16 In this collection, MOTHER CALLED TODAY, a woman becomes

increasingly fearful of her demanding mother's incessant phone calls. She has a horrible secret about her mother something she is too scared to share with anyone. THE LITTLE MAN ON TOP OF THE WARDROBE Four year old James has always been good about going to bed but recently he's been too scared to go to sleep. There is a little man on top of his wardrobe and it wants his soul. Of course that's just his overactive childhood imagination. Isn't it? A GLUTTON FOR PUNISHMENT we visit a future that isn't too hard to imagine. It's a world where the overweight are social pariahs where a government controls their eating and shopping and failure to lose weight after three attempts results in the obese being sent to a detention camp. Lynda has just been sent to one such camp and she's about to learn a horrifying government secret which shows they will have one final use for the overweight.

**The Oil Paintings of Arthur Streeton in the National Gallery of Australia**

Mary Eagle, National Gallery of Australia, 1994. This publication focuses on the Gallery's collection of 46 Streeton works ranging from Sandridge painted on cigar box wood in 1884 through to his late canvas *In a London garden* c1934. Tracing Streeton's career the book tells how he painted his youthful works of the 1880s and 90s alongside artist friends Charles Condor and Tom Roberts camping in a farmhouse overlooking the Yarra River at Heidelberg near Melbourne and then with Roberts on the shores of Sydney harbour. He painted in London from 1897 before returning to spend the last two decades of his life working in Melbourne where his late work evoked a peaceful pastoral Australia.
