Galloping Danger:

Galloping Danger Max Brand, 1983 **Magical Autumn** Valéria Schmitt, 2013-05-24 Caroline Garden is a teenager who is quiet happy with her life and her school and does not understand why her mother insists on celebrating her sixteenth birthday with a big party by sending invitations to all her classmates and relatives Of course the news of the party and the popular band hired to play changes the way her classmates relate to her including Bernard the young man she has a crush on During the party Carrie meets the handsome but enigmatic Erick Thatcher son of one of her mother's friends She also meets a mysterious woman the venerable Ambrosina In the party there was a revelation They were all witches including Carrie She also finds out she has an enemy to fight and defeat Hypollitus Carrie is the only one who can defeat this monster in a fierce battle Carrie matures from a socially awkward and shy girl into a young woman who loves intensely and who faces her mission with courage Will Carrie defeat Hyppolitus and find out Erick's real heritage at last **Gallop to Freedom** Frederic Pignon, Magali Delgado, 2019-09-24 When Cavalia the amazing equestrian themed spectacular melding costumes and theatrics with stunt riding and haute cole first took North America by storm in 2003 few people knew who Frédéric Pignon and Magali Delgado were But the whole world was soon abuzz with talk of the magical display these two remarkable individuals provided their audience whether horse crazy or layperson none could walk away unaffected by the powerful connection they demonstrated with their unparalleled cast of beautiful horses Now in this remarkable book Frédéric a specialist in liberty and ground work and Magali a talented dressage rider at the Grand Prix level combine efforts and share the secrets of the breathtaking relationships they have cultivated over the course of their lives with horses They tell the story of Templado the gorgeous but rebellious stallion who demanded they question all they had learned as horsemen and look at in a whole new light what it means to train horses It was this tempestuous character that taught them that the process of building a relationship with a horse can be on more equal footing than most would dream possible It is with this life altering lesson in mind that Frédéric and Magali now explain their Six Golden Principles These include how you can become a safe haven the most important being in your horse's life while ensuring he gets the leadership he craves and deserves And how to establish acceptable limits of behavior as well as respect without ever succumbing to anger or using force They describe how to read horse behavior so you can better understand and communicate with your equine partner as an individual Plus you'll see what it means to be patient and give your horse a say in his own training and just how rewarding the results can be In a chapter devoted to their practical approach you'll explore what is perhaps most central to their methods the idea of play and how games can be used to develop a horse's intelligence confidence and desire to perform whether at liberty or in the most difficult of competitive environments Magali shares the example of her Grand Prix mount Dao with whom she has reached the pinnacle of European competition and whom dressage judges praise for his supple and stress free performances Both Frédéric and Magali once thought they had become skilled and compassionate riders and trainers but found that the monumental

challenges presented by Templado turned their beliefs upside down and made them start again from the beginning They now view their work with horses as a journey of endless discovery and infinite rewards With this book full of phenomenal color photographs of their horses many of whom appeared in the show that first made them famous you can join and learn from them

Animals and Agency Sarah McFarland,Ryan Hediger,2009-06-02 While many scholars who write about animals deal with animal agency in some way this volume is the first to position the question of nonhuman agency as the primary focus of inquiry Section I presents studies of actual animals demonstrating agency Section II moves agency into new terrain while considering key representations of animal agency in literature Section III analyzes animals as mediators and as conveyances of human to human communication and Section IV investigates the agency of beings who defy conventional species categories The Envoi demonstrates how the microscopic polyp is interwoven into notions of agency and mythical superagency This volume s interdisciplinary explorations press hard on issues of agency to open up space for more questions about how we can understand relationships between the human and the nonhuman
