Gallows Over Europe Poems:

Gallows Over Europe Andrejs Eglitis, 1984 *A History of English Poetry: Table of contemporary European poets from 1450-1600* William John Courthope, 1897 ***A Little Tour Through European Poetry*** John Taylor, 2017-09-08 This book is both a sequel to author John Taylor's earlier volume *Into the Heart of European Poetry* and something different. It is a sequel because this volume expands upon the base of the previous book to include many more European poets. It is different in that it is framed by stories in which the author juxtaposes his personal experiences involving European poetry or European poets as he travels through different countries where the poets have lived or worked. Taylor explores poetry from the Czech Republic, Denmark, Lithuania, Albania, Romania, Turkey, and Portugal, all of which were missing in the previous gathering. It analyzes heady verse written in Galician and presents an important poet born in the Chuvash Republic. His tour through European poetry also adds discoveries from countries whose languages he reads fluently: Italy, Germany, and German-speaking Switzerland, Greece, and France. Taylor's model is Valery Larbaud, to whom his criticism, with its liveliness and analytical clarity, is often compared. Readers will enjoy a renewed dialogue with European poetry, especially in an age when translations are rarely reviewed, present in literary journals, or studied in schools. This book, along with *Into the Heart of European Poetry*, motivates a dialogue by bringing foreign poetry out of the specialized confines of foreign language departments.

Into the Heart of European Poetry John Taylor, 2017-07-05 John Taylor's brilliant new book examines the work of many of the major poets who have deeply marked modern and contemporary European literature. Venturing far and wide from the France in which he has lived since the late 1970s, the polyglot writer-critic not only delves into the more widely translated literatures of Italy, Greece, Germany, and Austria but also discovers impressive and overlooked work in Slovenia, Bosnia, Hungary, Finland, Norway, and the Netherlands. In this book, that ranges over nearly all of Europe, including Russia. While providing this stimulating and far-ranging critical panorama, Taylor brings to light key themes of European writing: the depth of everyday life, the quest of the thing in itself, metaphysical aspiration and anxiety, the dialectics of negativity and affirmation, subjectivity and self-effacement, and uprootedness as a category that is as ontological as it is geographical, historical, political, or cultural. The book pays careful attention to the intersection of writing and history or politics, as several poets featured here have faced the Second World War, the Holocaust, Communism, the fall of Communism, or the war in the former Yugoslavia. Taylor gives the work of renowned, upcoming, and still little-known poets a thorough look, all the while scrutinizing recent translations of their verse. He highlights several poets who are also masters of the prose poem. He includes a few novelists who have fashioned a particularly original kind of poetic prose, that stylistic category that has proved so difficult for critics to define. *Into the Heart of European Poetry* should be of immediate interest to any reader curious about the aesthetic and philosophical ideas underlying major trends of contemporary European writing. In a day and age when much too little is translated and thus known about foreign literature and when Europeans themselves are pondering the
