Gallup Poll Public Opinion 1993:

The Reluctant Superpower W. Bert, 1997-07-07 This book examines the nature of the war in the former Yugoslavia US interests there and US perceptions of the conflict The policies of the Bush and Clinton administrations toward the war and the factors discouraging US intervention are examined and evaluated in the context of a post Cold War international system Finally the lessons for future decisions on international intervention in a post Cold War where old policy guidelines are obsolete are discussed and critiqued Statistical Reference Index, 1994 *The Gallup Poll* George Gallup, 1994-05 The Gallup Poll Annual Series makes available every significant public opinion poll conducted by the Gallup Organization arranged chronologically by year Every volume has a full name and subject index to simplify accessing data on particular topics Standing orders may begin with any volume and may be canceled at any time *Religious Liberty, Vol. 1* Douglas Laycock, 2010-02-22 The Collected Works on Religious Liberty comprehensively collects the scholarship advocacy and explanatory writings of leading scholar and lawyer Douglas Laycock illuminating every major religious liberty issue from both theoretical and practical perspectives This first volume gives the big picture of religious liberty in the United States It fits a vast range of disparate disputes into a coherent pattern from public school prayers to private school vouchers to regulation of churches and believers Laycock clearly and carefully explains what the law is and argues for what the law should be He also reviews the history of Western religious liberty from the American founding to Protestant Catholic conflict in the nineteenth century using this history to cast light on the meaning of our constitutional guarantees Collected Works on Religious Liberty is unique in the depth and range of its coverage Laycock helpfully includes both scholarly articles and key legal documents and unlike many legal scholars explains them clearly and succinctly All the while he maintains a centrist perspective presenting all sides believers and nonbelievers alike fairly *Religious Liberty, Volume 3* Douglas Laycock, 2018-12-18 One of the most respected and influential scholars of religious liberty in our time Douglas Laycock has argued many crucial religious liberty cases in the United States Supreme Court His noteworthy scholarly and popular writings are being collected in five comprehensive volumes under the title Religious Liberty This third volume presents a documentary history of efforts to enact and implement state and federal Religious Freedom Restoration Acts to include religious liberty protections in same sex marriage legislation and to protect the rights of both sides in the culture wars It contains articles in scholarly journals op eds for popular audiences and oral and written arguments **In the Public Domain** Lori Cox Han, Diane J. Heith, 2012-02-01 The public presidency how presidents rely on the mass media public opinion and various communication strategies has become an increasingly important aspect of presidential governance and leadership during the past two decades In the Public Domain gathers together noted presidency and communication scholars to explore the relationship between the president and the American public the current state of the public presidency and the challenges that recent presidents have faced in developing an effective means of communicating and maintaining a strong

presidential image Specific topics include how presidents use public leadership to pursue their policy goals and objectives the importance of public opinion rhetorical strategies and public activities external factors such as party politics and news media coverage the cultivation of presidential legacy and access to documents in presidential libraries

A Vietnam War Reader Michael H. Hunt, 2010-02-15 An essential new resource for students and teachers of the Vietnam War this concise collection of primary sources opens a valuable window on an extraordinarily complex conflict The materials gathered here from both the American and Vietnamese sides remind readers that the conflict touched the lives of many people in a wide range of social and political situations and spanned a good deal more time than the decade of direct U S combat Indeed the U S war was but one phase in a string of conflicts that varied significantly in character and geography Michael Hunt brings together the views of the conflict's disparate players from Communist leaders Vietnamese peasants Saigon loyalists and North Vietnamese soldiers to U S policymakers soldiers and critics of the war By allowing the participants to speak this volume encourages readers to formulate their own historically grounded understanding of a still controversial struggle

Sourcebook of Criminal Justice Statistics, 1994 **Collected Works on Religious Liberty, Vol. 1** Douglas Laycock, 2010 One of the most respected and influential scholars of religious liberty in our time Douglas Laycock has argued many crucial religious liberty cases in the U S appellate courts and Supreme Court His noteworthy scholarly and popular writings are being collected in four comprehensive volumes under the title Religious Liberty This first volume gives the big picture of religious liberty in the United States fitting a vast range of disparate disputes into a coherent pattern from public school prayers to private school vouchers to regulation of churches and believers Laycock's clear overviews provide the broad historical helpful context often lacking in today's press

American Politics in the Age of Ignorance: Why Lawmakers Choose Belief over Research D. Schultz, 2015-12-11 American Politics in the Age of Ignorance looks at ten policy myths and bad ideas that governments and public officials most often conservatives consistently repeat and re enact Acting on these myths the policies inevitably fail and thereby reinforce preconceived beliefs that government is ineffective at solving problems

The Domestic Politics of Terrorism Derick L. Hulme Jr., 2019-12-19 The Domestic Politics of Terrorism Lessons from the Clinton Administration explores the Clinton administration's development of a novel playbook by which to exploit terrorism for domestic political advantage focusing particularly on the importance of issue framing instrument selection and implementation strategies While Americans were introduced to transnational terrorism long before the first World Trade Center bombing in 1993 it was Clinton who first confronted large scale terrorism targeting Americans both at home and abroad and who developed an invaluable template for future policymakers navigating a political landscape increasingly defined by high profile terrorist events

Containment and Credibility Pat Proctor, 2016-11-22 Is it possible that a president and his administration would purposefully mislead the American public so that they could commit the United States to a war that is not theirs to fight Anyone with even a remote memory of the phrase weapons of mass destruction

probably finds such a question naive On the eve of the fiftieth anniversary of the Vietnam War those with longer memories would consider the unquestioning acceptance of Saddam Hussein's gathering threat even more naive Providing historical context that highlights how the decision to use force is made as well as how it is sold *Containment and Credibility* explores how the half truths and outright lies of both the Johnson and Nixon administrations brought us into a conflict that cost more than fifty thousand American lives over eight years As we consider how best to confront the growing threat of ISIS it is increasingly important for the public to understand how we were convinced to go to war in the past In the 1960s the domino theory warning of the spread of communism provided the rationale for war followed by the deception of the Gulf of Tonkin Incident and the resulting resolution that essentially gave LBJ a blank check This book will show how this deception ultimately led to the unraveling of the Johnson presidency and will explore the credibility gap that led to the public political debate of that time *Containment and Credibility* applies the lessons of the sixties to today's similar debates regarding military involvement Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home

Conspicuous Corporation Neil J. Mitchell, 2025-10-01 Why despite the political advantages of business in the policy process do business interests still sometimes lose policy fights in the political system Money mobility connections and incentives load the political system in favor of business interests Against the odds when the conspicuous corporation meets the virtuous politician business often loses in the policy struggle In answering this question Neil J Mitchell reassesses the dimensions of business power in the political system and provides a fresh consideration of how economic power translates into political power Charles Lindbloom's analysis of business power provides a point of departure for an examination of the evidence on business influence over public preferences on the importance of business confidence to politicians and on the financial and lobbying activities of business interests Mitchell then considers the position of labor unions the traditional opposition to business in contemporary policy making Finally he discusses the conditions under which business power breaks down This is accompanied by an analysis of a variety of cases in which business has attempted to influence the policy making process to test his findings Extensively researched this book sheds new light on the activities of business in politics on the strength of interests opposing business and on business policy failures in the United States and the United Kingdom The empirical analysis builds on survey data extensive interviews and archival research The relationship between business and government is a core topic for economists sociologists and political scientists taking us from heroic struggles over policy to sordid episodes of political corruption The book will be of interest to scholars in the social sciences and in business schools as

well as to the general reader interested in power and influence in representative democracies Neil Mitchell is Professor of Political Science University of New Mexico

Building More Effective Unions Paul F. Clark, 2013-09-02 Paul F Clark believes union leaders should take advantage of the valuable discoveries made in behavioral science to make their organizations more effective and in *Building More Effective Unions* he offers an accessible and straightforward account of how they can do so The second edition provides an updated discussion of important lessons behavioral science holds for labor organizations It also provides new examples of how unions and their leaders have benefited from putting the principles outlined in the first edition into practice

Unwelcome Strangers David M. Reimers, 1998 Charting the history of US immigration policy from the Puritan colonists to World War II refugees this text uncovers the arguments of the anti immigration forces including warnings against the consequences of overpopulation and economic concerns that immigrants take jobs away from Americans

The Structure of Schooling Richard Arum, Irene R. Beattie, Karly Ford, 2015 This comprehensive reader in the sociology of education examines important topics and exposes students to examples of sociological research on schools Drawing from classic and contemporary scholarship the editors have chosen readings that examine current issues and reflect diverse theoretical approaches to studying the effects of schooling on individuals and society

Judging School Discipline Richard. ARUM, Richard Arum, 2009-06-30 Reprimand a class comic restrain a bully dismiss a student for brazen attire and you may be facing a lawsuit costly regardless of the result This reality for today s teachers and administrators has made the issue of school discipline more difficult than ever before and public education thus more precarious This is the troubling message delivered in *Judging School Discipline* a powerfully reasoned account of how decades of mostly well intended litigation have eroded the moral authority of teachers and principals and degraded the quality of American education *Judging School Discipline* casts a backward glance at the roots of this dilemma to show how a laudable concern for civil liberties forty years ago has resulted in oppressive abnegation of adult responsibility now In a rigorous analysis enriched by vivid descriptions of individual cases the book explores 1 200 cases in which a school s right to control students was contested Richard Arum and his colleagues also examine several decades of data on schools to show striking and widespread relationships among court leanings disciplinary practices and student outcomes they argue that the threat of lawsuits restrains teachers and administrators from taking control of disorderly and even dangerous situations in ways the public would support

Table of Contents Preface 1 Questioning School Authority 2 Student Rights versus School Rules With Irene R Beattie 3 How Judges Rule With Irene R Beattie 4 From the Bench to the Paddle With Richard Pitt and Jennifer Thompson 5 School Discipline and Youth Socialization With Sandra Way 6 Restoring Moral Authority in American Schools Appendix Tables Notes Index Reviews of this book This interesting study casts a critical eye on the American legal system which Arum sees as having undermined the ability of teachers and administrators to socialize teenagers Arum it must be pointed out is adamantly opposed to such measures as zero tolerance which he insists often results in unfair and excessive

punishment What he wisely calls for is not authoritarianism but for school folks to regain a sense of moral authority so that they can act decisively in matters of school discipline without having to look over their shoulders David Ruenzel Teacher Magazine Reviews of this book Arum's book should be compulsory reading for the legal profession they need to recognise the long term effects of their judgments on the climate of schools and the way in which judgments in favour of individual rights can reduce the moral authority of schools in disciplining errant students But the author is no copybook conservative and he is as critical of the Right's get tough zero tolerance authoritarianism as he is of what he eloquently describes as the marshmallow effect of liberal reformers pushing the rules to their limits and tolerating increased misconduct John Dunford Times Educational Supplement UK Reviews of this book Arum argues that discipline is often ineffective because schools legitimacy and moral authority have been eroded He holds the courts responsible because they have challenged schools legal and moral authority supporting this claim by examining over 6 200 state and federal appellate court decisions from 1960 to 1992 In describing the structure of these decisions Arum provides interesting insights into school disciplinary practices and the law P M Socoski Choice Reviews of this book Arum's careful analysis of school discipline becomes so focused and revealing that the ideological boundaries of the debate seem almost to have been suspended The result is a rich and original book bold important useful and as this combination of attributes might suggest surprising Many years in the making Judging School Discipline weds historical theoretical and statistical research within the problem solving stance of a teacher working to piece together solutions in the interest of his students The result is a book that promises to shape research as well as practice through its demonstration that students are liberated as well as oppressed by school discipline Steven L VanderStaay Urban Education Reviews of this book Arum's break with education school dogma on student rights is powerful and goes far toward explaining why so many teachers dread their students when they are not actually fighting them off Heather MacDonald Wall Street Journal

Class and News Don Heider, 2004 News as a cultural product has earned a place in scholarly research over the past several decades and media scholars and sociologists have successfully looked at news for ideological content and how news may shape an audience's ideas on politics gender and race But how does news influence an audience's ideas about social structure Class and News is a multidisciplinary collection of essays examining how the news media treats or neglects this structure in everyday reporting Are certain stories chosen for their appeal to the upper or middle classes Are stories of interest to lower class readers viewers avoided How are issues of social order reported or reflected in stories that aren't about class This in depth work will be a valuable resource for students scholars and general readers interested in the dynamics of class and news in the United States

Beyond the Hoax Alan Sokal, 2010-02-11 In 1996 Alan Sokal a Professor of Physics at New York University wrote a paper for the cultural studies journal Social Text entitled Transgressing the Boundaries Towards a transformative hermeneutics of quantum gravity It was reviewed accepted and published Sokal immediately confessed that the whole article was a hoax a cunningly worded paper designed to expose

and parody the style of extreme postmodernist criticism of science. The story became front page news around the world and triggered fierce and wide ranging controversy. Sokal is one of the most powerful voices in the continuing debate about the status of evidence based knowledge. In *Beyond the Hoax* he turns his attention to a new set of targets: pseudo science, religion and misinformation in public life. Whether my targets are the postmodernists of the left, the fundamentalists of the right or the muddle headed of all political and apolitical stripes, the bottom line is that clear thinking combined with a respect for evidence are of the utmost importance to the survival of the human race in the twenty first century. The book also includes a hugely illuminating annotated text of the Hoax itself and a reflection on the furore it provoked. *America in Black and White* Stephan Thernstrom, Abigail Thernstrom, 2009-07-14. In a book destined to become a classic, Stephan and Abigail Thernstrom present important new information about the positive changes that have been achieved and the measurable improvement in the lives of the majority of African Americans. Supporting their conclusions with statistics on education, earnings and housing, they argue that the perception of serious racial divisions in this country is outdated and dangerous.

Unveiling the Magic of Words: A Report on "**Gallup Poll Public Opinion 1993**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring. Enter the realm of "**Gallup Poll Public Opinion 1993**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word.
