A Brief Political and Geographic History of Africa (Where Are the Belgian Congo, Rhodesia, and Kush?) John Davenport, 2010-12-23 Africa is a vibrant but all too often misunderstood continent. Outsiders know Africa from the evening news as a collection of countries plagued by war, famine, disease, and poverty. Few people are aware of its rich past, dynamic present, and promising future. Africans, however, look back into a yesteryear crowded with empires and kingdoms and into a tomorrow filled with economic and political potential. The difference between these two ways of seeing Africa emerges from the fact that so many of the places that once dominated its landscape have disappeared from the world's maps. The Belgian Congo, Rhodesia, and Kush are but a few of the locations that no longer can be found on a modern globe. They were once central to the lives of millions of people but now they are gone. They have become places lost in time.

Egypt Since the Revolution (RLE Egypt) Panayiotis J. Vatikiotis, 2012 As the leaders of a revolutionary nationalist regime, the Egyptian Free Officers, who came to power following the 1952 Revolution, committed themselves to the attainment of goals associated with modernization, namely rapid economic development based on state planning and industrialization and the political mobilization of society along state-decreed lines. Arising from a conference held at the Centre of Middle Eastern Studies at SOAS with contributions from scholars from the Arab world, Europe, and the US, as well as the UK, these papers raise the questions most important to students of economic and political development.

The papers are written by writers and scholars from various parts of the world and like any piece of literature on indigenous and minority populations, the topics are diverse. The perspectives are both interdisciplinary and multi-disciplinary.
