

A black and white photograph of a narrow, steep street in a Greek city, likely Athens. The street is flanked by tall, multi-story buildings with many windows. A helicopter is flying overhead, and the street appears to be a dead end or a very narrow passage. The overall atmosphere is gritty and urban.

Gambling Life Dealing In Contingency In A Greek City:

Gambling Life Thomas M. Malaby, 2010-10-01 The first ethnography devoted to the practice of gambling as its core subject *Gambling Life* considers the stakes of social action in one community on the island of Crete Backgammon caf s card clubs and hidden gambling rooms in the city of Chania provide the context for Thomas M Malaby to examine the ways in which people confront uncertainty in their lives He shows how the dynamics of gambling risk fate uncertainty and luck are reflected in other aspects of gamblers lives from courtship and mortality to state bureaucracy and national identity By moving beyond risk and fate as unexamined analytical categories Malaby presents a new model for research concerning indeterminacy seeing it as arising from stochastic performative and other sources *Gambling Life* questions the longstanding valorization of order and pattern in the social sciences

Addiction by Design Natasha Dow Schüll, 2025-11-11 An anthropologist traces the intimate connections between gambling addiction and casino industry design tactics Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals Slot machines revamped by ever more compelling digital and video technology have unseated traditional casino games as the gambling industry s revenue mainstay *Addiction by Design* takes readers into the intriguing world of machine gambling an increasingly popular and absorbing form of play that blurs the line between human and machine compulsion and control risk and reward Drawing on fifteen years of field research in Las Vegas anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trance-like state they call the machine zone in which daily worries social demands and even bodily awareness fade away Once in the zone gambling addicts play not to win but simply to keep playing for as long as possible even at the cost of physical and economic exhaustion In continuous machine play gamblers seek to lose themselves while the gambling industry seeks profit Schüll describes the strategic calculations behind game algorithms and machine ergonomics casino architecture and ambience management player tracking and cash access systems all designed to meet the market s desire for maximum time on device Her account moves from casino floors into gamblers everyday lives from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer the product or the interplay between the two *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance offering clues to some of the broader anxieties and predicaments of contemporary life

Culture and Customs of Greece Artemis Leontis, 2009-04-30 The Parthenon Plato Socrates and Aristotle Homer s epic poems Gods and goddesses lounging around indulging in pleasures on Mount Olympus All of these images bring to mind the traditional icons of Greece the cradle of Western Civilization But what do we know of modern Greece The answer to that question and more can be found in this comprehensive look at contemporary Greek culture This one stop reference source is packed with illustrative descriptions of daily life in Greece in the 21st century Ideal for high school students and even

undergraduates interested in studying abroad this extensive volume examines topics such as religion social customs leisure life festivals language literature performing arts media and modern art and architecture among many other topics Woven into the text are beautiful and accurate vignettes of Greek life helping to illustrate how it is people live A crossroads between Europe Africa and the Middle East Greece is fighting to hold on to the culture of yesterday while still looking toward modernity Culture and Customs of Greece is a must have volume for all high school and public library shelves

Money Games Anthony J. Pickles, 2019-06-06 Gambling in Papua New Guinea despite being completely absent prior to the Colonial era has come to supersede storytelling as the region's main nighttime activity Money Games is an ethnographic monograph which reveals the contemporary importance of gambling in urban Papua New Guinea Rich ethnographic detail is coupled with cross cultural comparison which spans the globe This anthropological study of everyday economics in Melanesia thereby intersects with theories of money value play informal economy social change and leadership

Making Virtual Worlds Thomas Malaby, 2011-01-15 The past decade has seen phenomenal growth in the development and use of virtual worlds In one of the most notable Second Life millions of people have created online avatars in order to play games take classes socialize and conduct business transactions Second Life offers a gathering point and the tools for people to create a new world online Too often neglected in popular and scholarly accounts of such groundbreaking new environments is the simple truth that of necessity such virtual worlds emerge from physical workplaces marked by negotiation creation and constant change Thomas Malaby spent a year at Linden Lab the real world home of Second Life observing those who develop and profit from the sprawling self generating system they have created Some of the challenges created by Second Life for its developers were of a very traditional nature such as how to cope with a business that is growing more quickly than existing staff can handle Others are seemingly new How for instance does one regulate something that is supposed to run on its own Is it possible simply to create a space for people to use and then not govern its use Can one apply these same free range free market principles to the office environment in which the game is produced Lindens as the Linden Lab employees call themselves found that their efforts to prompt user behavior of one sort or another were fraught with complexities as a number of ongoing processes collided with their own interventions Malaby thoughtfully describes the world of Linden Lab and the challenges faced while he was conducting his in depth ethnographic research there He shows how the workers of a very young but quickly growing company were themselves caught up in ideas about technology games and organizations and struggled to manage not only their virtual world but also themselves in a nonhierarchical fashion In exploring the practices the Lindens employed he questions what was at stake in their virtual world what a game really is and how people participate and the role of the unexpected in a product like Second Life and an organization like Linden Lab

The Cost of Living Crisis Natalie Wood, 2025-01-23 Set in the Northern English City of Leeds in the midst of Liz Truss 49 days in office what we are now calling The Cost of Living Crisis emerges as the most recent incantation of economic decline Challenging the ease with

which this phrase has become commonplace this monograph provokes questions of when and for whom it became normal to discuss the cost of being alive The Cost of Living Crisis is both new and not new With a focus on how economic decline is temporally experienced Wood explores how consumption habits find solidarity with the past claim membership in the present and grasp at uncertain futures With a concern for where agency lies Wood ultimately asks us How is it that people deal engage and reclaim precarious futures in the shop Drawing from research conducted in a food pantry a food bank that simulates a shop Wood takes up a concept of provisioning as embodied knowledge and cultivated competence defined by the normalisation of economic recession However amidst hopelessness the food pantry also materialises everyday acts of hope care and play which in turn perhaps provoke a reimagination not just of what a food bank is but of what shopping could be This book is applicable to scholars of temporality political and economic anthropology the anthropology of Britain economic crisis and consumption

Perilous Wagers Klaus K. Y. Hammering, 2024-08-15 The lives of the men depicted in *Perilous Wagers* take place in the squalor of Tokyo's old day laborer district San ya where they can be found eking out a living from occasional construction work and welfare handouts permanently displaced from their hometowns to metropolitan Tokyo Although San ya has nearly vanished during the past twenty years its import persists as a black market where its small population of male day laborers can be contracted for the most undesirable of tasks without consideration for their health or safety In this context Hammering's book examines classic ethnographic themes of labor exchange value honor shame temporality desire gender and personhood It explores how one group of day laborers embodied a transgressive masculinity intimately intertwined with honorable mobster values of old and how they created dignity and sociality under abject conditions of life *Perilous Wagers* tracks these underdog values across construction sites non profit organizations hospitals bunkhouses and illegal gambling dens giving imaginative life to a stigmatized forgotten social world

The Body Impolitic Michael Herzfeld, 2004 *The Body Impolitic* is a critical study of tradition not merely as an ornament of local and national heritage but also as a millstone around the necks of those who are condemned to produce it Michael Herzfeld takes us inside a rich variety of small town Cretan artisans workshops to show how apprentices are systematically thwarted into learning by stealth and guile This harsh training reinforces a stereotype of artisans as rude and uncultured Moreover the same stereotypes that marginalize artisans locally also operate to marginalize Cretans within the Greek nation and Greece itself within the international community What Herzfeld identifies as the global hierarchy of value thus frames the nation's ancient monuments and traditional handicrafts as evidence of incurable backwardness Herzfeld's sensitive observations offer an intimately grounded way of understanding the effects of globalization and of one of its most visible offshoots the heritage industry on the lives of ordinary people in many parts of the world today

Secrets from the Greek Kitchen David E. Sutton, 2014-09-19 *Secrets from the Greek Kitchen* explores how cooking skills practices and knowledge on the island of Kalymnos are reinforced or transformed by contemporary events Based on more than twenty years of research and the

author's videos of everyday cooking techniques this rich ethnography treats the kitchen as an environment in which people pursue tasks display expertise and confront culturally defined risks Kalymnian islanders both women and men use food as a way of evoking personal and collective memory creating an elaborate discourse on ingredients tastes and recipes Author David E Sutton focuses on micropractices in the kitchen such as the cutting of onions the use of a can opener and the rolling of phyllo dough along with cultural changes such as the rise of televised cooking shows to reveal new perspectives on the anthropology of everyday living

Greek Whisky Tryfon Bampilis, 2013-04-01 In many contexts of Greek social life Scotch whisky has coincidentally become a symbol of Greekness national identity modernity and the middle class This ethnographic study follows the social life of Scotch in Greece through three distinct trajectories in time and space in order to investigate how the meanings of the beverage are projected negotiated and acquired by various different networks By examining the mediascapes of the Greek cultural industry the Athenian nightlife and entertainment and the North Aegean drinking habits the study illustrates how Scotch became associated with modernity popular music and culture a lavish style and an antidomestic masculine mentality

Purity and Danger Now Robbie Duschinsky, Simone Schnall, Daniel Weiss, 2017-01-12 Mary Douglas's seminal work *Purity and Danger* Routledge 1966 continues to be indispensable reading for both students and scholars today Marking the 50th anniversary of Douglas's classic the present volume sheds fresh light upon themes raised by Douglas by drawing on recent developments in the social sciences and humanities as well as current empirical research In presenting new perspectives on the topic of purity and impurity the volume integrates work in anthropology and sociology with contemporary ideas from religious studies cognitive science and the arts Containing contributions from both established and emerging scholars including protégés of Douglas herself *Purity and Danger Now* is an essential volume for those working on purity and impurity across the full spectrum of the social sciences and humanities

The Unpredictability of Gameplay Mark R. Johnson, 2018-12-27 *The Unpredictability of Gameplay* explores the many forms of unpredictability in games and proposes a comprehensive theoretical framework for understanding and categorizing non deterministic game mechanics Rather than viewing all game mechanics with unpredictable outcomes as a single concept Mark R Johnson develops a three part typology for such mechanics distinguishing between randomness chance and luck in gameplay assessing games that range from grand strategy and MMORPGs to slot machines and card games He also explores forms of unanticipated unpredictability where elements of games fail to function as intended and create new forms of gameplay in the process Covering a range of game concepts using these frameworks *The Unpredictability of Gameplay* then explores three illustrative case studies 1 procedural generation 2 replay value and grinding and 3 player made practices designed to reduce the level of luck in non deterministic games Throughout Johnson demonstrates the importance of looking more deeply at unpredictability in games and game design and the various ways in which unpredictability manifests while offering an invaluable tool for game scholars and game designers seeking to integrate unpredictability into their work

Digital Anthropology Heather A.

Horst, Daniel Miller, 2020-05-26 Anthropology has two main tasks to understand what it is to be human and to examine how humanity is manifested differently in the diversity of culture. These tasks have gained new impetus from the extraordinary rise of the digital. This book brings together several key anthropologists working with digital culture to demonstrate just how productive an anthropological approach to the digital has already become. Through a range of case studies from Facebook to Second Life to Google Earth Digital Anthropology explores how human and digital can be defined in relation to one another from avatars and disability cultural differences in how we use social networking sites or practise religion the practical consequences of the digital for politics museums design space and development to new online world and gaming communities. The book also explores the moral universe of the digital from new anxieties to open source ideals. Digital Anthropology reveals how only the intense scrutiny of ethnography can overturn assumptions about the impact of digital culture and reveal its profound consequences for everyday life. Combining the clarity of a textbook with an engaging style which conveys a passion for these new frontiers of enquiry this book is essential reading for students and scholars of anthropology media studies communication studies cultural studies and sociology *Cultural Intimacy* Michael

Herzfeld, 2016-03-02 In the third edition of this important and influential book Michael Herzfeld revisits the idea of cultural intimacy. The chapters examine a range of topics touching on the relationship between state and citizen and the notion of national character. Herzfeld provides a developed theoretical framework and additional clarification of core concepts such as disemia social poetics and structural nostalgia. The text has been fully updated in light of recent scholarship and events including comment on Greece and the European Union. There is new material drawn from regions such as Thailand and China and further consideration of religious intimacy and its impact on cities. The book improves our understanding of how states societies and institutions function and illustrates the relevance of anthropology to contemporary issues such as globalization censorship ethnic conflict and nationalism *Not by Bread Alone* Melissa L. Caldwell, 2004-03-16 The book addresses the phenomenon of poverty in Russia today through an ethnography of a transnational soup kitchen community in Moscow

The Anthropology of the Future Rebecca Bryant, Daniel M. Knight, 2019-03-28 Anticipation Expectation Speculation Potentiality Hope Destiny Ways of Knowing Mark Harris, 2007-10-01 That there are multiple ways of knowing the world has become a truism. What meaning is left in the sheer familiarity of the phrase? The essays here consider how humans come to know themselves and their worlds. Should anthropologists seek complexity or simplicity in their analyses of other societies? By going beyond the notion that a way of knowing is a perspective on the world this book explores paths to understanding as people travel along them craft their knowledge and shape experience. The topics examined here range from illness to ignorance teaching undergraduates in Scotland to learning a Brazilian martial arts dance Hegel's concept of the dialectic to the poetry of a Swahili philosopher. A central concern is how anthropologists can know and write about the silent the concealed and the embodied Exploring Regimes of Discipline Noel Dyck, 2008-04-01 The pursuit and practice of

discipline have become near ubiquitous elements of contemporary social life and parlance as discipline has become a commonplace and ever sought after social technology From the celebrated discipline of the market proclaimed by neo liberal politicians to self actualizing experiences of embodied discipline proffered by martial arts instructors this volume showcases highly varied and complex disciplinary practices and relationships in a set of ethnographic studies Interrogating the respective fields of work religion governance leisure education and child rearing together the essays in this volume explore and offer new ways of thinking about discipline in everyday life *Everyday Post-Socialism* Jeremy Morris, 2016-09-01 This book offers a rich ethnographic account of blue collar workers everyday life in a central Russian industrial town coping with simultaneous decline and the arrival of transnational corporations Everyday Post Socialism demonstrates how people manage to remain satisfied despite the crisis and relative poverty they faced after the fall of socialist projects and the social trends associated with neoliberal transformation Morris shows the other life in today s Russia which is not present in mainstream academic discourse or even in the media in Russia itself This book offers co presence and a direct understanding of how the local community lives a life which is not only bearable but also preferable and attractive when framed in the categories of habitability commitment and engagement and seen in the light of alternative ideas of worth and specific values Topics covered include working class identity informal economy gender relations and transnational corporations **A Handbook of Economic Anthropology** Carrier, James G., 2022-05-13 This timely Research Agenda examines the ways in which public private partnerships PPPs in infrastructure continue to excite policy makers governments research scholars and critics around the world It analyzes the PPP research journey to date and articulates the lessons learned as a result of the increasing interest in improving infrastructure governance Expert international contributors explore how PPP ideas have spread transferred and transformed and propose a range of future research directions
