(Peet) Schutte,2012-12-14 The Whistle Blower on Corrupt Science Science went corrupt the day Edmund Halley in 1705 told the world he used the physics formula of his friend Isaac Newton to calculate the route that Halley s comet took and the time it would arrive This was where science went crooked a position that went on ever since because that same dishonesty is still present in Newtonian science Halley calculated the time periods since 1066 at the battle of Hastings and found a comet was mentioned every seventy six years This was very ordinary for a man of his class so he had to get far cleverer than backdate history to get a time frame So he really got clever and conspired with the biggest fraud in science ever since the man that stole all the physics Doctor Hooks invented the man who even got Kepler figures wrong the man called Isaac Newton Halley said he used the formula of Newton to calculate the route the comet took This says he used mass to calculate how the comet came to the sun According to Newton s science the sun s mass pulled the comet and the comet s mass pulled right back and in this way the comet came to the sun I don t go into the comet as such in this book but I do in other books In this book I show how Newtonian science

started to go corrupt in 1705 with one conspiracy to cheat and became the corrupt myth it now developed into How do I know Halley did not use the mass pull mass idea It is because if he did so then how did he calculate that the comet was cyclic or that it returns every seventy six years If mass pulled the comet to the sun what then pushed to comet back into outer space His big ambition was to prove the comet comes and goes but if mass makes the comet come what pushes the comet back You know what is the biggest fraud that came to be called Newtonian science The most brilliant minds on earth this past three hundred years failed to asks this simple question if mass pulls the comet closer what pushes the comet away If mass forms the force of pulling and pulled the comet closer then what pushed the comet back into the darkness of the beyond How did he know the mass of Halley s comet Nobody then asked questions No one asks uneasy question except me I show the fake science we have Newton and Halley got away with corrupt science If you wish to prove wrong I challenge you to prove that Newton is correct Today just like it was and keeping the trend go on modern Newtonians gets away with even more corrupt science than anyone can imagine Online Casinos For Real Money John Kalwin,2014-12-30 Online casinos also known as virtual casinos or Internet casinos are online versions of traditional casinos Online casinos generally offer odds and payback percentages that are comparable to land based casinos Some online casinos claim higher payback percentages for slot machine games and some publish payout percentage audits on their websites Assuming that the online casino is using an appropriately programmed random number generator table games like blackjack have an established house edge The payout percentage for these games are established by the rules of the game This ebook by John Kalwin will give a brief explanation on Online Casino Ground for more information visit <http://www.onlinecasinoground.nl> **Light Come, Light Go: Gambling—Gamesters—Wagers—The Turf** Ralph Nevill,2019-12-16 In Light Come Light Go Gambling Gamesters Wagers The Turf Ralph Nevill offers a comprehensive exploration of the intricate world of gambling interweaving personal narratives historical accounts and sociocultural analyses This text is characterized by Nevill s incisive prose and keen observations presenting a literary style that oscillates between scholarly analysis and engaging storytelling Set against the backdrop of the late 19th century the work captures the complexities of gaming culture from the thriving betting environments of English racetracks to the psychological allure of wagers while also reflecting on the moral ambiguities that surround this multifaceted domain Ralph Nevill known for his diverse writing on popular culture delves into this particular subject likely influenced by his own experiences and observations within the society of his time Having been immersed in these vibrant circles Nevill not only draws from a wealth of personal and anecdotal evidence but offers a contextual framework that situates gambling within broader discussions of class morality and economic behavior during the Victorian era Light Come Light Go is an essential read for anyone interested in the intersections of leisure economics and social dynamics Nevill s insightful exposition provides both historical depth and contemporary relevance making it indispensable for scholars and enthusiasts alike who seek to understand the enduring allure of gambling in human culture A COSMIC BIRTH...
