Green Justice Thomas M Hoban, Richard O Brooks, 2018-02-20 In the nine years since Green Justice first appeared the field we have come to identify as environmental law has taken a number of twists and turns few of which were foreseen by the authors or so far as they know by anyone else Although this edition attempts to account for many of these changes it continues to emphasize what we believed then and continue to believe to be paramount not only for the study of environmental law but for common law based jurisprudence in general Despite the immediacy and crush of daily events closely reasoned analyses of the difficulties and conflicts arising from environmental conflicts as embodied in major cases or key decisions such as we present here provide a stabilizing core around which the swirl of daily events takes place and against which those events must be evaluated We believed then and believe even more strongly now that this is true not only for legal specialists and scholars but for an educated populace as well Thus this casebook Environmental Policy Law Thomas J. Schoenbaum, Ronald H. Rosenberg, 1996 Nonfiction Classics for Students : Presenting Analysis, Context, and Criticism on Nonfiction Works Elizabeth Thomason, 2001 Each entry contains information about the author's life plot summary characters themes styles historical context critical overview and criticism **Endangered and Threatened Animals of Florida and Their Habitats** Chris Scott, 2004 This fully illustrated book is a comprehensive yet convenient and easy to understand guide to Florida's endangered and threatened animals and the habitats that support them Chris Scott covers all 71 species subspecies or populations of mammals birds reptiles fish crustaceans insects corals and mollusks His species accounts describe each animal's listed status identifying characteristics historical and current distribution biology current threats and conservation efforts
