the volume poses three questions What do these hitherto unseen sources reveal about the games songs and rhymes the Opies and others collected in the mid twentieth century What has happened to these vernacular forms How are the forms of vernacular play that are transmitted in playgrounds homes and streets transfigured in the new media age In addressing these questions the contributors reflect on the changing face of childhood in the twenty first century in relation to questions of gender and power and with attention to the children s own participation in producing the ethnographic record of their lives
