Lost World of the Golden King Frank L. Holt, 2012-10-18 Drawing on ancient historical writings the vast array of information gleaned in recent years from the study of Hellenistic coins and startling archaeological evidence newly unearthed in Afghanistan Frank L Holt sets out to rediscover the ancient civilization of Bactria In a gripping narrative informed by the author's deep knowledge of his subject this book covers two centuries of Bactria's history from its colonization by remnants of Alexander the Great's army to the kingdom's collapse at the time of a devastating series of nomadic invasions Beginning with the few tantalizing traces left behind when the empire of a thousand cities vanished Holt takes up that trail and follows the remarkable and sometimes perilous journey of rediscovery Lost World of the Ancient King describes how a single bit of evidence a Greek coin launched a search that drew explorers to the region occupied by the tumultuous warring tribes of eighteenth and nineteenth century Afghanistan Coin by coin king by king the history of Bactria was reconstructed using the emerging methodologies of numismatics In the twentieth century extraordinary ancient texts added to the evidence Finally one of the thousand cities was discovered and excavated revealing an opulent palace treasury temple and other buildings Though these great discoveries soon fell victim to the Afghan political crisis that continues today this book provides a thrilling chronicle of the search for one of the world's most enigmatic empires [The World at First Light](#) Bernd Roeck, 2025-06-03 A magisterial history of the Renaissance and the birth of the modern world The cultural epoch we know as the Renaissance emerged at a certain time and in a certain place Why then and not earlier Why there and not elsewhere In The World at First Light historian Bernd Roeck explores the cultural and historical preconditions that enabled the European Renaissance Roeck shows that the rediscovery of ancient knowledge including the science of the medieval Arab world played a critical role in shaping the beginnings of Western modernity He explains that the Renaissance emerged in a part of Europe where competing states and cities formed relatively open societies Most of the era's creative minds from

Leonardo da Vinci and Michelangelo to Copernicus and Galileo came from the middle classes The art of arguing flowered the basso continuo to intellectual and cultural breakthroughs Roeck argues that two revolutions shaped the Renaissance a media revolution triggered by Gutenberg s invention of movable type which itself was a driving force behind the scientific revolution and the advent of modern science He also reports on the dark side of the era hatred of Jews witch panic religious wars and the atrocities of colonialism In a series of meditative counterfactuals Roeck considers other cultural rebirths throughout the first millennium from the Islamic empire to the Carolingians examining why the epic developments of the Renaissance took place in the West and not elsewhere The complicated legacy of the Renaissance he shows encompasses the art of critical thinking as learned from the ancients the emergence of the modern state and the genesis of democracy **The**

Horse in Human History Pita Kelekna,2009-04-20 This book assesses the impact of the horse on human society from 4000 BC to 2000 AD by first describing initial horse domestication on the Pontic Caspian steppes and the early development of driving and riding technologies It traces the radiation of newly mobile equestrian cultures across Europe Asia and North Africa It then documents the transmission of steppe chariotry and cavalry to sedentary states the high economic importance of the horse and the socio political evolution of equestrian empires which from antiquity into the modern era expanded across continents **World Watch** ,2002
