### **Protestantism and Political Conflict in the Nineteenth-century Hispanic Caribbean** Luis

Martínez-Fernández, 2002 Catholicism has long been recognized as one of the major forces shaping the Hispanic Caribbean Cuba Puerto Rico and the Dominican Republic during the nineteenth century but the role of Protestantism has not been fully explored Protestantism and Political Conflict in the Nineteenth Century Hispanic Caribbean traces the emergence of Protestantism in Cuba and Puerto Rico during a crucial period of national consolidation involving both social and political struggle Using a comparative framework Martínez Fernández looks at the ways in which Protestantism though officially illegal for most of the century established itself competed with Catholicism and took differing paths in Cuba and Puerto Rico One of the book's main goals is to trace the links between religion and politics particularly with regard to early Protestant activities Protestants encountered a complex social economic and political landscape both in Cuba and in Puerto Rico and soon found that their very presence coupled with their demands for freedom of worship and burial rights involved them in a series of interrelated struggles in which the Catholic Church was embroiled along with the other main forces of the period the peasantry the agrarian bourgeoisie the mercantile bourgeoisie and the colonial state While the established Catholic Church increasingly identified with the conservative pro slavery and colonialist causes newly arrived Protestants tended to be nationalistic and to pursue particular economic activities such as cigar exportation in Cuba and the sugar industry in Puerto Rico The author argues that the early Protestant communities reflected the socio cultural milieus from which they emerged and were profoundly shaped by the economic activities of their congregants This influence in turn shaped not only the congregations composition but also their political and social orientations      **Reinventing the Peabody Sisters** Monika

M. Elbert, Julie E. Hall, Katharine Rodier, 2006-04 Whether in the public realm as political activists artists teachers biographers editors and writers or in the more traditional role of domestic nurturing women Elizabeth Peabody Mary Peabody Mann and Sophia Peabody Hawthorne subverted rigid nineteenth century definitions of women's limited realm of influence Reinventing the Peabody Sisters seeks to redefine this dynamic trio's relationship to the literary and political movements of the mid nineteenth century Previous scholarship has romanticized vilified or altogether erased their influences

and literary productions or viewed these individuals solely in light of their relationships to other nineteenth century luminaries particularly men Ralph Waldo Emerson Nathaniel Hawthorne Horace Mann This collection underscores that each woman was a creative force in her own right Despite their differences and sibling conflicts all three sisters thrived in the rarefied if economically modest atmosphere of a childhood household that glorified intellectual and artistic pursuits This background allowed each woman to negotiate the nineteenth century literary marketplace and in the process redefine its scope Elizabeth Mary and Sophia remained linked throughout their lives encouraging complementing and sometimes challenging each other s endeavors while also contributing to each other s literary work The essays in this collection examine the sisters confrontations with and involvement in the intellectual movements and social conflicts of the nineteenth century including Transcendentalism the Civil War the role of women international issues slavery Native American rights and parenting Among the most revealing writings that the sisters left behind however are those which explore the interlaced relationship that continued throughout their remarkable lives *Fighting Slavery in the Caribbean* Luis
