all three perspectives are needed if society is to face its intractable problems thus providing a powerful model for our own ecumenical dialogues Shakespeare begins with history plays contrasting the saintly but impractical King Henry VI whose assassination is the primal crime with the pragmatic and secular Henry IV until imagining in the later 1590s how Hal can reconnect with sacred sources At the same time in his comedies Shakespeare imagines cooperative ways of resolving the national comedy of errors of sorting out erotic and marital and contemplative confusions by applying his triple lens His late Elizabethan comedies achieve a polished balance of wit and devotion ordinary and the sacred old and new orders Hamlet is Shakespeare's ultimate Elizabethan consideration of these issues its so called lack of objective correlation a response to the unsorted trauma of the Reformation

of Edward VI when state intervention to control the organisation and curriculum of schools and universities laid the foundations of the modern system of education Finally after a review of the relation between educational and social change the focus is on three main aspects during the conservative Elizabethan age consolidation of the school system the pattern devised for the institution of the gentleman the extension of the popular education fostered by the puritan ethic and the pressure of practical needs forecasting the next major move for educational reform in the mid seventeenth century **The Reformation and the Towns in England** Robert Tittler, 1998 This analysis of the secular impact of the Reformation examines the changes within English towns from the mid 16th to the mid 17th century
