Elizabethan World:

The Elizabethan World Picture E.M.W. Tillyard, 2017-07-28 This illuminating account of ideas of world order prevalent in the Elizabethan Age and later is an indispensable companion for readers of the great writers of the sixteenth and seventeenth centuries Shakespeare and the Elizabethan dramatists Donne and Milton among many others The basic medieval idea of an ordered Chain of Being is studied by Tillyard in the process of its various transformations by the dynamic spirit of the Renaissance Among his topics are Angels the Stars and Fortune the Analogy between Macrocosm and Microcosm the Four Elements the Four Humors Sympathies Correspondences and the Cosmic Dance ideas and symbols that inspired the imaginations not only of the Elizabethans but also of the Renaissance as such This idea of cosmic order was one of the genuine ruling ideas of the Elizabethan Age and perhaps the most characteristic Such ideas like our everyday manners are the least disputed and the least paraded in the creative literature of the time The province of this book is some of the notions about the world and man that were quite frequently taken for granted by the ordinary educated Elizabethan the commonplaces too familiar for the poets to make detailed use of except in explicitly educational passages but essential as basic assumptions and invaluable at moments of high passion The objective of *The Elizabethan World Picture* is to extract and explain the most ordinary beliefs about the constitution of the world as pictured in the Elizabethan Age and through this exposition to help the ordinary reader to understand and to enjoy the great writers of the age In attempting this Tillyard has brought together a number of pieces of elementary lore This classic text is a convenient factual aid to extant interpretations of some of Spenser Donne or Milton

Bender, 2012-12-06 The subtitle of this book should be read as a qualification as much as an elaboration of the title If the goal were completeness then this book would have included essays on the work of other philosophers such as Wilfrid Sellars Nicholas Rescher Donald Davidson Gilbert Harman and Michael Williams Although it would be incorrect to say that each of these writers has set forth a version of the coherence theory of justification and knowledge it is clear that their work is directly relevant and reaction to it could easily fill a companion volume This book concentrates however on the theories of Keith Lehrer and Laurence Bonjour and I doubt that any epistemologist would deny that they are presently the two leading proponents of coherentism A sure indication of this was the ease with which the papers in this volume were solicited and delivered The many authors represented here were willing prepared and excited to join in the discussion of Bonjour's and Lehrer's recent writings I thank each one personally for agreeing so freely to contribute All of the essays but two are published for the first time here Marshall Swain's and Alvin Goldman's papers were originally presented at a

the spatial imagination Kristen Poole examines how changing religious beliefs and transforming conceptions of space were mutually informative in the decades around 1600 *Supernatural Environments in Shakespeare's England* explores a series of cultural spaces that focused attention on interactions between the human and the demonic or divine the deathbed purgatory demonic contracts and their spatial surround Reformation cosmologies and a landscape newly subject to cartographic surveying It examines the seemingly incongruous coexistence of traditional religious beliefs and new mathematical geometrical ways of perceiving the environment Arguing that the late sixteenth and early seventeenth century stage dramatized the phenomenological tension that resulted from this uneasy confluence this groundbreaking study considers the complex nature of supernatural environments in Marlowe's *Doctor Faustus* and Shakespeare's *Othello* *Hamlet* *Macbeth* and *The Tempest*
