to read and a joy to comprehend so that even if you've started searching for something specific you'll find yourself reading on for sheer browsing pleasure. You'll see not only what the Uncertainty Principle means but also discover how it impacted on science and knowledge as a whole. *The Oxford Encyclopedia of the Modern World* Peter N. Stearns, 2008. The Encyclopedia of the Modern World delves into the period from 1750 to the present providing special attention to social, economic, cultural, and political topics applicable to the time. The breadth of knowledge offered within this multivolume set is astounding with features spanning articles on countries, regions, and ethnic groups; themes involving social history, demography, family life, politics, economics, religion, thought, education, science, and technology; and culture events such as major wars and extensive coverage of the United States. Detailed articles cover not only the major facts but the interpretations as well and are written for readers who are not specialists in the particular area. Enriched with over 800 halftones and 50 maps, this reference work is essential for any scholar, general reader, collector, or curator interested in this rich and varied time in history. Through its fluent global coverage, The Encyclopedia of Modern World provides information about and interpretation of major developments across particular regions, both salient events and regional perspectives on common themes such as politics, demography, social class, and gender. Readers can explore topics that have global implications such as migration, childhood, and foods; topics that can be viewed through a combination of global patterns and key comparisons. Entries also shed light on standard geographic and ethnic units such as Scandinavia, Korea, or the Gypsies in the modern period. The Encyclopedia presents unprecedented coverage of global processes and institutions themselves, including the International Red Cross and the League of Nations. Publisher: The Baptist and Christian Character of Baylor Dianna M. Vitanza, 2003. **Library Journal**, 2002. **Aproximaciones a la epistemología para universitarios. Breves acercamientos a mentes brillantes** Marcelo Careaga Butter, 2020-01-01. Este libro contiene pone a disposición de estudiantes, profesores y académicos algunas aproximaciones acerca de las bases originarias del pensamiento y del conocimiento considerando las principales corrientes fundantes del pensamiento clásico que conformaron las líneas orientadoras del pensamiento moderno incluyendo una selección de las escuelas y de los autores más representativos para llegar a un acercamiento progresivo y analítico acerca de las nuevas corrientes del pensamiento. E. Pete Moore, 2008. A brilliant premise but you could never understand it till now. Physics, genetics, chemistry, biology, astronomy, science is changing so rapidly that it's almost impossible for a novice to keep track of the new ideas that are shaping our present and altering our future. Here is a guide that will steer you through the modern maze of knowledge on the really big concepts that have made an impact on our world. **Discoveries and Inventions that Changed Our World** Pete Moore, 2005. Divided in two sections, this factopedia, a home reference resource, covers the big ideas that have impacted on our world and makes finding out all about them simple. With the key movers and shakers listed in specific sub-sections according to their respective discipline, this book helps you in being better informed. *Scrum: гибкая разработка ПО* Майк Кон, 2019-11-27.
