The Emergence of a National Economy V.J.H. Houben, J.Th. Lindblad, 2021-09-06 History matters At the beginning of a new century and amidst the turmoil of a new democracy a historical perspective on modern Indonesia is needed more than ever This innovative economic history connects back to the colonial era and helps to explain why the transition from colonialism to Independence and from the New Order to democracy has been so difficult and sometimes traumatic The Emergence of a National Economy identifies three grand themes in this transformation globalisation state formation and economic integration Globalisation affected the Indonesian archipelago even before the arrival of the Dutch the New Order experience was only the most recent wave Modern state formation began in Java under Governor General Daendels 1808 11 and culminated in the centralised military bureaucratic state of Soeharto s New Order 1966 98 A national economy emerged gradually from the 1930s as the Outer Islands were reoriented towards an industrialising Java These three themes link chronological chapters from the pre 1800 period through the modern colonial era to the breakdown of the colonial system after 1930 the birth of modern Indonesia the remarkable economic transformation under the New Order and the meltdown during the Asian crisis of 1997 98 This overarching story gives a unity and rhythm to Indonesia s modern history while helping to explain why the future is likely to be different The four authors senior scholars from Australia Howard Dick Germany Vincent Houben the Netherlands Thomas Lindblad and Indonesia Thee Kian Wie draw on a very wide range of sources to combine the insights of history economic history and economics The Emergence of a National Economy Howard Dick, Howard W. Dick, 2002 The product of a ten year scholarly collaboration by four senior international scholars this is the first chronological account for 50 years of Indonesia s modern economic history Indonesia's Economy Since Independence Kian Wie Thee, 2012 This book contains a collection of papers on various aspects of Indonesia s economic and its industrial development It discusses the early independence period in the 1950s the Soeharto era 1966 1998 and the ensuing two economic crises namely the Asian Financial Crisis of 1997 98 and the Global Financial Crisis of 2008 **The Rise of the Global Company** Robert Fitzgerald, 2015 Readable wide ranging history of multinational enterprise exploring its role in international events and influence on globalization and the modern world Resource Nationalism in Indonesia Eve Warburton, 2023-11-15 In Resource Nationalism in Indonesia Eve Warburton traces nationalist policy trajectories in Indonesia back to the preferences of big local business interests Commodity booms often prompt more nationalist policy styles in resource rich countries Usually this nationalist push weakens once a boom is over But in Indonesia a major global exporter of coal palm oil nickel and other minerals the intensity of nationalist policy interventions increased after the early twenty first century commodity boom came to an end Equally puzzling the state applied nationalist policies unevenly across the land and resource sectors Resource Nationalism in Indonesia explains these trends by examining the economic and political benefits that accrue to domestic business actors when commodity prices soar Warburton shows how the centrality of

patronage to Indonesia's democratic political economy and the growing importance of mining and palm oil as drivers of export earnings enhanced both the instrumental and structural power of major domestic companies giving them new influence over the direction of nationalist change

Indonesian Economic Decolonization in Regional and International Perspective J.Th. Lindblad, Peter Post, 2009-01-01 This collection of essays provides insights into the complex process of economic decolonization in Indonesia from a variety of perspectives The emancipation from Dutch colonialism in the economic sphere is linked to the unique features of the new nation state emerging in newly independent Indonesia This included a key role in business for the military A key part was also played by indigenous Indonesian business firms that were shaped by the Japanese occupation and the Indonesian Revolution The analysis embraces two types of comparisons Different experiences of economic decolonization across regions are illustrated by events unfolding in the agricultural estate areas of Deli in North Sumatra and Jember in East Java Here the focus is on confrontations between private Dutch capital and Indonesian labour unions In addition the overall experience of Indonesia is offset against similar processes at work in other former European colonies in Asia in particular neighbouring Malaysia The international comparison shows how dramatic and difficult economic decolonization was and also how profound its consequences were With contributions from Tri Chandra Apriyanto Anne Booth Jasper van de Kerkhof J Thomas Lindblad editor Daan Marks Peter Post editor Bambang Purwanto and Thee Kian Wie
