**The Emergence of David Duke and the Politics of Race** Douglas D. Rose, 1992 *Emergence of David Duke and the Politics of Race* *David Duke and the Politics of Race in the South* John C. Kuzenski, Charles S. Bullock, Ronald Keith Gaddie, 1995 Even as messenger supplanted message in the rise of David Duke however one simple observation remained true The politics of the South and Louisiana in particular remain rooted at least partly in as V O Key phrased it the Negro question Black Studies, Cultural Politics, and the Evasion of Inequality Adolph Reed, Jr., Kenneth W. Warren, 2025-08-27 These historically grounded essays by Adolph Reed Jr and Kenneth W Warren incorporate essential historical contemporary and literary perspectives on Black cultural criticism to explore the full portrait of racial injustice and inequality in America Taking up such topics as the evolving politics of New Orleans before and after Hurricane Katrina and novels by Toni Morrison and Colson Whitehead this book engages with the Black Radical Tradition Afropessimism antiblackness race reductionism and other key theories and concepts in contemporary Black studies Challenging the prevailing assertion that longstanding white animus against nonwhite peoples sufficiently and adequately explains deepening injustice past injustice or present inequality the essays argue that such thinking fails to fully explain America's past and leaves us ill equipped to handle the continuing challenges in the present Tracing black cultural criticism across the 19th 20th and 21st centuries this book will appeal to students scholars and researchers of Black studies race and ethnic studies and contemporary and black American literature Race & Democracy Adam Fairclough, 2008 From the foundation of the New Orleans branch of the NAACP in 1915 to the beginning of Edwin Edwards first term as governor in 1972 this is a wide ranging study of the civil rights struggle in Louisiana This edition contains a new preface which brings the narrative up to date including coverage of Hurricane Katrina *The Christian Right, the Far Right and the Boundaries of American Conservatism* Martin Durham, 2000 Mothers and meaning on the early modern English stage is a study of the dramatised mother figure in English drama from the mid sixteenth to the early seventeenth centuries It explores a range of genres moralities histories romantic comedies city comedies domestic tragedies high tragedies romances and melodrama and includes close readings of plays by such diverse dramatists as Udall Bale Phillip Legge Kyd Marlowe Peele Shakespeare Middleton Dekker and Webster The study is enriched by reference to religious political and literary discourses of the period from Reformation and counter Reformation polemic to midwifery manuals and Mother's Legacies the political rhetoric of Mary I Elizabeth I and James VI reported gallows confessions of mother convicts and Puritan conduct books It thus offers scholars of literature drama art and history a unique opportunity to consider the literary visual and rhetorical representation of motherhood in the context of a discussion of familiar and less familiar dramatic texts Race and Redistricting in the 1990s Bernard Grofman, 1998 A portrait of how the 1990s round of redistricting treated the racial and linguistic minorities that had been given special protections by the Voting Rights Act of 1965 primarily African Americans but also Native Americans Asian Americans and those of Spanish heritage

Throughout the volume the primary focus is on the practical politics of redistricting and its consequences for racial representation. Almost all the authors have been directly involved in the 1990s redistricting process either as a legislator, a member of the Voting Rights Section of the Justice Department, a member of a districting commission, or most commonly as an expert witness or lawyer in voting rights cases. All bring to bear special insights as well as insider knowledge of Congressional and state redistricting.

**Blood and Politics** Leonard Zeskind, 2009-05-12 More than fifteen years in the making, *Blood and Politics* is the most comprehensive history to date of the white supremacist movement as it has evolved over the past three plus decades. Leonard Zeskind draws heavily upon court documents, racist publications, and first person reports along with his own personal observations. An internationally recognized expert on the subject who received a MacArthur Fellowship for his work, Zeskind ties together seemingly disparate strands from neo-Nazi skinheads to Holocaust deniers to Christian Identity churches to David Duke to the militia and beyond. Among these elements, two political strategies, mainstreaming and vanguardism, vie for dominance. Mainstreamers believe that a majority of white Christians will eventually support their cause. Vanguardists build small organizations made up of a highly dedicated cadre and plan a naked seizure of power. Zeskind shows how these factions have evolved into a normative social movement that looks like a demographic slice of white America, mostly blue collar and working middle class, with lawyers and Ph.D.s among its leaders. When the Cold War ended, traditional conservatives helped birth a new white nationalism, most evident now among anti-immigrant organizations. With the dawn of a new millennium, they are fixated on predictions that white people will lose their majority status and become one minority among many. The book concludes with a look to the future, elucidating the growing threat these groups will pose to coming generations.

**Religion and the Racist Right** Michael Barkun, 1997 According to Michael Barkun, many white supremacist groups of the radical right are deeply committed to the distinctive but little recognized religious position known as Christian Identity. In *Religion and the Racist Right* (1994), Barkun provided the first sustained exploration of the ideological and organizational development of the Christian Identity movement. In a new chapter written for the revised edition, he traces the role of Christian Identity figures in the dramatic events of the first half of the 1990s, from the Oklahoma City bombing and the rise of the militia movement to the Freemen standoff in Montana. He also explores the government's evolving response to these challenges to the legitimacy of the state. Michael Barkun is professor of political science in the Maxwell School of Citizenship and Public Affairs at Syracuse University. He is author of several books, including *Crucible of the Millennium: The Burned Over District of New York in the 1840s*.

**Troubled Memory, Second Edition** Lawrence N. Powell, 2019-01-09 This powerful book tells the story of Anne Skorecki Levy, a Holocaust survivor who transformed the horrors of her childhood into a passionate mission to defeat the political menace of reputed neo-Nazi and Ku Klux Klan leader David Duke. The first book to connect the prewar and wartime experiences of Jewish survivors to the lives they subsequently made for themselves in the United States, *Troubled Memory* is also a dramatic testament to how the experiences of survivors

as new Americans spurred their willingness to bear witness Perhaps the only family to survive the liquidation of the Warsaw Ghetto as a group the Skoreckis evaded deportation to Treblinka by posing as Aryans The family eventually made their way to New Orleans where they became part of a vibrant Jewish community Lawrence Powell traces their dramatic odyssey and explores the events that eventually triggered Anne Skorecki Levy's brave decision to honor the suffering of the past by confronting the recurring specter of racist hatred

The Rise of Southern Republicans Earl BLACK, Merle Black, Earl Black, 2009-06-30 The transformation of Southern politics over the past fifty years has been one of the most significant developments in American political life The emergence of formidable Republican strength in the previously solid Democratic South has generated a novel and highly competitive national battle for control of Congress Tracing the slow and difficult rise of Republicans in the South over five decades Earl and Merle Black tell the remarkable story of political upheaval The Rise of Southern Republicans provides a compelling account of growing competitiveness in Southern party politics and elections Through extraordinary research and analysis the authors track Southern voters shifting economic cultural and religious loyalties black white conflicts and interests during and after federal civil rights intervention and the struggles and adaptations of congressional candidates and officials A newly competitive South the authors argue means a newly competitive and revitalized America The story of how the South became a two party region is ultimately the story of two party politics in America at the end of the twentieth century Earl and Merle Black have written a bible for anyone who wants to understand regional and national congressional politics over the past half century Because the South is now at the epicenter of Republican and Democratic strategies to control Congress The Rise of Southern Republicans is essential to understanding
