Emergency Evacuation Of Cities:

The Emergency Evacuation of Cities Wilbur Zelinsky, Leszek A. Kosinski, 1991-09-16 Selected by Choice as an Outstanding Academic Book for 1992 In this landmark study two eminent geographers present the first comparative cross national analysis of emergency evacuations engendered by every sort of disaster military natural and industrial Zelinsky and Kosinski have selected 27 evacuations of cities due to actual or anticipated emergencies during the past fifty years from the Ohio River Flood of 1937 to the Chernobyl nuclear accident in 1986 *City Evacuations: An Interdisciplinary Approach* John Preston, Jane M Binner, Layla Branicki, Tobias Galla, Nick Jones, James King, Magdalini Kolokitha, Michalis Smyrnakis, 2014-08-01

Evacuating a city is a complex problem that involves issues of governance preparedness education warning information sharing population dynamics resilience and recovery As natural and anthropogenic threats to cities grow it is an increasingly pressing problem for policy makers and practitioners The book is the result of a unique interdisciplinary collaboration between researchers in the physical and social sciences to consider how an interdisciplinary approach can help plan for large scale evacuations It draws on perspectives from physics mathematics organisation theory economics sociology and education Importantly it goes beyond disciplinary boundaries and considers how interdisciplinary methods are necessary to approach a complex problem involving human actors and increasingly complex communications and transportation infrastructures Using real world case studies and modelling the book considers new approaches to evacuation dynamics It addresses questions of complexity not only in terms of theory but examining the latest challenges for cities and emergency responders Factors such as social media information quality and visualisation techniques are examined to consider the new dynamics of warning and informing evacuation and recovery *High-Quality, Resilient and Safe Cities*

Encyclopedia of GIS Shashi Shekhar,Hui Xiong,2007-12-12 The Encyclopedia of GIS provides a comprehensive and authoritative guide contributed by experts and peer reviewed for accuracy and alphabetically arranged for convenient access The entries explain key software and processes used by geographers and computational scientists Major overviews are provided for nearly 200 topics Geoinformatics Spatial Cognition and Location Based Services and more Shorter entries define specific terms and concepts The reference will be published as a print volume with abundant black and white art and simultaneously as an XML online reference with hyperlinked citations cross references four color art links to web based maps and other interactive features *Asian Cities in an Era of Decentralisation* Michelle Ann Miller,Tim Bunnell,2016-03-16 This book critically engages with the idea of decentralization as empowering cities and their residents to act innovatively and creatively The contributions thus highlight how the term empowerment in the context of decentralization regimes masks a competing array of intentions and agendas Who and what are empowered given a voice and allowed to participate via the processes and structures of decentralization and to what ends are too frequently assumed in normative conversations about bringing government closer to the people and community driven development Creating an illusion of a shared language and common set of priorities therefore obscures more complex realities particularly when there is a disconnect between the official goals of decentralization and civil society aspirations that reinforces politics of exclusion at the grassroots Equally official processes of decentralization can and often are accompanied by less visible processes of recentralization through the reassertion of central state control over putatively autonomous jurisdictions Through studies in six Asian countries India the Philippines Indonesia Bangladesh Thailand and Japan the essays in this book examine cases whereby a range of urban actors and institutions have been empowered via decentralization and how this realignment of local power relations impacts upon the dynamics of urban governance albeit not always in socially progressive ways This book was published as a special issue of Space and Polity
