Consumers, Policy and the Environment Klaus Günter Grunert, John Thøgersen, 2005-03-29 The role of the consumer has changed from seeking the most satisfaction from goods and services to reconciling consumption with active citizenship which links consumption to modern social issues such as environmental protection sound business ethics and fair working conditions Understanding consumers the way they buy products the way they relate to questions of environmental importance and the way they participate in public policy formulation processes is of vital importance to modern society In this book eminent researchers examine contemporary issues related to the field of consumers policy and the environment

Preference, Value, Choice, and Welfare Daniel M. Hausman, 2011-12-12 This book is about preferences principally as they figure in economics It also explores their uses in everyday language and action how they are understood in psychology and how they figure in philosophical reflection on action and morality The book clarifies and for the most part defends the way in which economists invoke preferences to explain predict and assess behavior and outcomes Hausman argues however that the predictions and explanations economists offer rely on theories of preference formation that are in need of further development and he criticizes attempts to define welfare in terms of preferences and to define preferences in terms of choices or self interest The analysis clarifies the relations between rational choice theory and philosophical accounts of human action The book also assembles the materials out of which models of preference formation and modification can be constructed and it comments on how reason and emotion shape preferences
