*Welfare Services in the Netherlands and United Kingdom* Sita Radhakrishnan, 1992 In the years following World War II the concept of State Welfare did seem to be the golden mean between Marxian revolution and laissez faire evolution in the human pursuit of social justice Western democratic states that upheld the primacy of the individual and his liberty over that of the State operationalized State responsibility for welfare on the basis of social policies compatible with their socio political and economic systems This resulted in the coming into existence of a large number of services rendered by the State to its citizens touching all aspects of their lives cutting through informal intermediary institutions and developing a direct link with it The focus of this study is on these services in two such states i e the Netherlands and the United Kingdom Their provision and administration for ethnic minorities that form part of their national communities is dealt with in particular The Netherlands and the United Kingdom have constitutional monarchical systems based on the sovereignty of the people Liberalism is an underlying sociological base for their societies Both had acquired overseas colonies which resulted in the settlement of people with ethnic origins different from their dominant group within their national communities These factors make the two comparable However the ideological basis social and economic forces and movements that led to the establishment of State welfare in the two states differ significantly The study reveals that their particular ideological positions on State Society relations have a significant impact on social policies adopted by them and in the modalities of their implementation The British stand on assimilation in one dominant culture and the Dutch stand on integration with acceptance of pluralism throw up the genuine problems in the harmonization of social policy in a United Europe of the future

**Historical Dictionary of the Netherlands** Joop W. Koopmans, 2015-11-05 The Kingdom of the Netherlands is a small but heavily populated country with almost 17 million inhabitants It is one of the last kingdoms in Europe and in 2015 it celebrated its 200 years anniversary The Netherlands became a kingdom after the Napoleonic era During this period it was transformed into a centralized state Before those years it had been one of few republics in Europe for about two centuries That state was a confederacy which emerged in the 1580s during its independence struggle against the Spanish Habsburgs Although the present state is still monarchical the Netherlands

functions as a modern constitutional democracy in which the king's position is almost comparable with a ceremonial presidency. The majority of the Dutch population however appreciates the hereditary political presence of the House of Orange Nassau regarding this dynasty as a symbol of national unity and connection with the country's past. This third edition of *Historical Dictionary of the Netherlands* contains a chronology, an introduction, appendixes and an extensive bibliography. The dictionary section has over 900 cross-referenced entries on important personalities, politics, economy, foreign relations, religion and culture. This book is an excellent access point for students, researchers and anyone wanting to know more about the Netherlands.

*Kazakhstan* Sally N. Cummings, 2002-10-01 Kazakhstan is the largest state in Central Asia. Rich in oil, gas and other natural resources and sandwiched between China and Russia, it occupies a key geopolitical position, the importance of which was further heightened following the attacks of 9/11 and subsequent wars in the wider Middle East. But Kazakhstan was born by default, gaining independence only reluctantly as the Soviet Union collapsed. Its political elite, facing complex tasks of state building, also lacked a monoethnic base on which to build its legitimacy. Based on original material and extensive interviews in the capital and three of the country's regions, the book places the elite in the country's broader institutional and historical context, analysing their identity, behaviour and how they gained and secured power in the early independence years. *Kazakhstan: Power and the Elite* is essential reading for all those interested in the history, politics and international relations of this fascinating country.

*People Who Run Europe* Edward C. Page, 1996-12-26 In the minds of many, Brussels is very closely associated with bureaucracy. Yet we know little about the character of the European Union's bureaucracy. Professor Page draws upon a wide range of empirical sources to present a picture of the administrative system of the EU. He discusses the complexities of its internal organization and goes on to explore the people who work in it. As a multinational organization, its procedures for appointment and promotion reflect in part the need to maintain a professional career civil service and in part the desire to secure a fair mix of nationalities among top officials. *People who Run Europe* looks at the distinctive features of the administrative system which these two principles help to produce, as well as at the nature of the people, their backgrounds, careers and skills who are attracted to it. The author also examines the role of top officials in the decision-making process, above all in their dealings with politicians and interest groups.

*Governing the New Europe* Jack Ernest Shalom Hayward, Edward Page, 1995 *Governing the New Europe* provides a comprehensive and scholarly account of the changing political map of Europe as it emerges from the Cold War. Exploring the variations of liberal democracy and market economy among the European states, as well as current trends in these directions, the contributors to this volume, all leading authorities in European politics, consider whether a common political model has begun to emerge out of historic European diversity. Beginning with a discussion of the political, economic and cultural development of Europe from a historical perspective, the focus of the book shifts to an examination of the changing forms of European democracy and the move from public ownership and planning to privatization and deregulated competition. Further essays analyze the challenge

to national party systems and electoral performance from emerging social movements and organized interest groups Political and bureaucratic structures are also examined as is the new European constitutionalism reflected in the increasingly significant role of the judiciary Lastly attention is turned to several major themes in European politics the changing foundations of foreign and security policy the function of industrial champion firms and the retreat from the welfare state Primarily comparative in its scope Governing the New Europe does devote particular attention to specific major states as well as to the importance of the European Union to the political life of member and non member countries Neither exaggerating the common features of the patterns that have emerged in contemporary Europe nor capitulating to the complexity of enduring differences and instabilities between states Governing the New Europe will become one of the standard texts in its field Contributors Jack Hayward Jolyon Howorth Herbert Kitschelt Marie Lavigne Tom Mackie Michael Mezey Edward C Page Richard Parry Richard Rose Anthony Smith Alec Stone

**Narratives of Justice** Grant Reeher, 2010-05-06 Narratives of Justice offers a provocative contemporary look at the timeless questions of justice and fairness Using face to face interviews Grant Reeher plumbs the minds of legislators for their beliefs about distributive justice and attempts to discover the ways in which those beliefs influence their behavior The book calls into question many notions of American political ideology and in particular the idea of an American exceptionalism regarding views from the political left and the dominance in the United States of a liberal tradition Political philosophers have amassed a large body of work on justice and fairness from a theoretical perspective but there is comparatively little empirical work on the subject The work that does exist concentrates on the beliefs of the public We know very little concerning the beliefs about justice held by political elites This work offers a window into the beliefs of legislators a group for which such an inquiry is rarely undertaken The book is based on a set of extended in depth interviews with the members of the Connecticut State Senate as well as a year of close observation of the Senate in action The interviews averaged four hours in length and covered a variety of topics related to fairness Through this material Reeher employs a narrative based framework to understand the patterns in the senators interview responses and develops a typology of the senator s narratives These narratives vary in both content and form and as a whole present a surprising range of views Narratives of Justice will be of interest to those concerned with justice political ideologies and political beliefs as well as state and local politics and more generally American politics Its wide research and thorough documentation make it a useful guide to the literature within and beyond political science concerning beliefs ideologies legislative behavior and qualitative research methods Grant Reeher is Assistant Professor Maxwell School of Citizenship and Public Affairs Department of Political Science Syracuse University and currently a Robert Wood Johnson Foundation Scholar in Health Policy Research University of Michigan

Handbook of Legislative Research Gerhard Loewenberg, 1985 The Handbook of Legislative Research a comprehensive summary of the results of research on nineteenth and twentieth century legislatures is itself a landmark in the evolution of legislative studies Gathered here are surveys by

**Responsibility** M. A. P. Bovens, 1998-03-12 The search for responsibility in complex organisations often seems an impossible undertaking Adopting a multidisciplinary approach combining law social science ethics and organisational design Mark Bovens analyses the reasons for this and offers possible solutions He begins by examining the problem of many hands because so many people contribute in so many different ways it is very difficult to determine who is accountable for organisational behaviour Four possible solutions corporate hierarchical collective and individual accountability are analysed from normative empirical and practical perspectives Bovens argues that individual accountability is the most promising solution but only if individuals have the chance to behave responsibly The book then explores the implications of this approach What does it mean to be a responsible employee or official When is it legitimate to disobey the orders of superiors What institutional designs might be most appropriate      *The Changing Architecture of Iberian Politics (1974-92)* José María Magone, 1996 This contribution to the study of institutional change from the authoritarian to the democratic regime in Portugal and Spain focuses particularly on the relationship between political structure and culture The concept of political systemic culture is introduced to show the structuring process of socialization participation and state agencies in building up a democratic regime      Ethnicity Counts William Petersen, 2017-07-28 Official statistics about ethnicity in advanced societies are no better than those in less developed countries An open industrial society is inherently fluid and it is as hard to interpret social class and ethnic groups there as in a nearly static community In consequence the collection and interpretation of ethnic statistics is frequently a battleground where the groups being counted contest each element of every enumeration William Petersen describes how ethnic identity is determined and how ethnic or racial units are counted by official statistical agencies in the United States and elsewhere The chapters in this book cover such topics as Identification of Americans of European Descent Differentiation among Blacks Ethnic Relations in the Netherlands Two Case Studies Japan and Switzerland and Who is a Jew Petersen argues that the general public is overly impressed by assertions about ethnicity particularly if they are supported by numbers and graphs The flood of American writings about race and ethnicity gives no sign of abatement Ethnicity Counts offers an indispensable background to meaningful interpretation of statistics on ethnicity and will be important to sociologists historians policymakers and government officials      The President's Report to the Board of Regents for the Academic Year ... Financial Statement for the Fiscal Year University of Michigan, 1981

*Policymaking Under Adversity* Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have

been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror s Public Policymaking Reexamined by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners **American Political Scientists** Glenn H.
