

An Anthology of Elizabethan Prose Fiction

OXFORD WORLD'S CLASSICS

Elizabethan Prose

Dr. Smriti Pareek, Dr. Vipula Mathur

Elizabethan Prose:

Elizabethan Prose Fiction Merritt E. Lawlis, 1967 *A Critical History of English Literature, Vol. 2* David Daiches, 1979 *A Search for Meaning* Paula Harms Payne, 2004 In its exploration of drama poetry and prose this collection of nine essays invites students teachers and scholars to rethink their evaluations of Shakespeare Milton Sidney Jonson and other British writers of the Early Modern period Using a formalist approach *A Search for Meaning* establishes new critical perspectives that are dependent on close readings of the text and current secondary research and which carefully consider reader s reactions English Literature John Calvin Metcalf, 1918 , 14th-17th Century (14-17th Century) *English Literature (14th-17th Century)* B B Pandey, 2024-07-30 *English Literature 14th 17th Century* *The New Cambridge Bibliography of English Literature: Volume 1, 600-1660* George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of *The Cambridge Bibliography of English Literature* The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *The Concise Cambridge History of English Literature* George Sampson, Reginald Charles Churchill, 1970-02-02 Based on *The Cambridge history of English literature* The Culture of Piracy, 1580-1630 Professor Claire Jowitt, 2013-04-28 Listening to what she terms unruly pirate voices in early modern English literature in this study Claire Jowitt offers an original and compelling analysis of the cultural meanings of piracy By examining the often marginal figure of the pirate and also the sometimes hard to distinguish privateer Jowitt shows how flexibly these figures served to comment on English nationalism international relations and contemporary politics She considers the ways in which piracy can sometimes in surprising and resourceful ways overlap and connect with rather than simply challenge some of the foundations underpinning Renaissance orthodoxies absolutism patriarchy hierarchy of birth and the superiority of Europeans and the Christian religion over other peoples and belief systems Jowitt s discussion ranges over a variety of generic forms including public drama broadsheets and ballads prose romance travel writing and poetry from the fifty year period stretching across the reigns of three English monarchs Elizabeth Tudor and James and Charles Stuart Among the early modern writers whose works are analyzed are Heywood Hakluyt Shakespeare Sidney and Wroth and among the multifaceted historical figures discussed are Francis Drake John Ward Henry Mainwaring Purser and Clinton What she calls the semantics of piracy introduces a rich symbolic vein in which these figures operating across different cultural registers and appealing to audiences in multiple ways represent and reflect many changing discourses political and artistic in early modern England The first book length study to look at the cultural impact of Renaissance piracy *The Culture of Piracy*

1580 1630 underlines how the figure of the Renaissance pirate was not only sensational but also culturally significant Despite its transgressive nature piracy also comes to be seen as one of the key mechanisms which served to connect peoples and regions during this period English Fictions of Communal Identity, 1485-1603 Joshua Phillips, 2016-05-13 Challenging a long standing trend that sees the Renaissance as the end of communal identity and constitutive group affiliation author Joshua Phillips explores the perseverance of such affiliation throughout Tudor culture Focusing on prose fiction from Malory's *Morte Darthur* through the works of Sir Philip Sidney and Thomas Nashe this study explores the concept of collective agency and the extensive impact it had on English Renaissance culture In contrast to studies devoted to the myth of early modern individuation *English Fictions of Communal Identity 1485 1603* pays special attention to primary communities monastic orders printing house concerns literary circles and neighborhoods that continued to generate a collective sense of identity Ultimately Phillips offers a new way of theorizing the relation between collaboration and identity In terms of literary history this study elucidates a significant aspect of novelistic discourse even as it accounts for the institutional disregard of often brilliant works of early modern fiction English Literature from Beowulf to Bernard Shaw Frederic S. Delmer, 1911

The English Essay and Essayist Hugh Walker, 1915 The English Essay and Essayists Hugh Walker, 1915 **The Later Renaissance** David Hannay, 1898 **Narrative Developments from Chaucer to Defoe** Gerd Bayer, Ebbe Klitgaard, 2011-02-07 This book analyzes how narrative technique developed from the late Middle Ages to the beginning of the eighteenth century The contributors address issues such as subjectivity performance voice narrative time character development and genre placing their readings of early modern prose texts within the diachronic frame of the overall topic Individual chapters will treat texts from a variety of genres offering analyses of individual texts in the context of changes and developments within literary forms The book in its entirety will cover a period of approximately 350 years from 1370 to 1720

Elizabethan Prose, 1977 *ENGLISH SOCIAL AND CULTURAL HISTORY* CHOUDHURY, BIBHASH, 2019-05-01 The second edition of the book with its emending and updated text provides a glimpse into the English life and culture starting from the middle ages to the twenty first century As the English life and culture are inextricably interwoven with the literary traditions of England and its myriad aspects this study provides significant insights into the field of English literature and the contexts it emerges from The text begins with a description of English life and culture from the Medieval period to the Renaissance The author gives a masterly analysis of such subjects as Feudalism Medieval Drama and literature the Renaissance the Reformation and most significantly the Elizabethan Theatre A new sub section on Women Writers of the Renaissance has been added to this chapter Then the text goes on to describe in detail about the Restoration Period and the Age of Reason Besides the book gives a wealth of information on important topics like Romanticism the Industrial Revolution Victorianism and Victorian literature The text concludes with a chapter that deals on Modernism Literature and Culture in the Postmodern World and Aspects of Contemporary Culture and Society In the last chapter two sub sections have been

introduced on British Fiction in the Twenty First Century and Brexit What distinguishes the text is the provision of a Glossary at the end of each chapter which gives not only the meaning and definition of the terms but also provides the entire cultural background and the history that these terms are associated with Students of English literature both undergraduate honours and postgraduate students will find this book highly informative enlightening and refreshing in its style In addition all those who have an abiding interest in English life and culture will find reading this text a stimulating and rewarding experience
