Ella Victoria Dobbs, a Portrait Biography Verna M. Wulfekammer, 1961

Pioneers of Early Childhood Education

Barbara Peltzman, 1998-01-26 Early childhood education is fundamental to a child's later educational achievements and future success. The principles and practices of modern early childhood education have their origins in the past. While the educators who built the field have been the subject of many detailed studies, previous works do not provide adequate coverage of primary and secondary sources, multicultural educators, or more recent leaders in the discipline. This reference book provides biographies and annotated bibliographies of more than 30 pioneers in early childhood education from Johann Amos Comenius 1592-1670 and John Locke 1632-1704 to Maria Montessori 1870-1952, Leland B. Jacobs 1907-1992, and Lillian Weber 1917-1994. Special attention is given to multicultural educators including Mary Church Terrell 1863-1954 and her work with The National Association of Colored Women. Biographies are arranged alphabetically and each is followed by annotated bibliographies of primary and secondary sources. An introductory essay briefly discusses the history of early childhood education from the 17th century to the present. The following biographies are arranged alphabetically and each includes a brief summary of the subject's contributions to the field of early childhood education. Each biographical sketch is followed by an annotated bibliography of primary and secondary sources, including obituaries, articles, dissertations, and books. Works were selected because they represent the most interesting and informative sources by and about the educators. The volume closes with a chronological listing of the pioneers and a selected bibliography of general works on early childhood education.

Works about John Dewey, 1886-1995

Barbara Levine, 1996 Although she has devised a new format for this bibliography, Barbara Levine has included most of the materials published in the two editions of the Checklist of Writings about John Dewey. Material new to this volume includes recently discovered items published during the ninety years covered by the Checklist as well as items published since 1977. Because certain studies at best have only marginal value or because they can be obtained through ordinary library research tools, Levine has deleted some classes of material that appeared in the 1974 and 1978 Checklist editions: primary sources with only brief references to Dewey; the entire section entitled Unpublished Works about Dewey which included theses, dissertations, and papers presented at meetings; and Educational Resources Information Center (ERIC) documents. Levine has included all of the material published about Dewey during the 108 years between 1886 and 1994 and has included many 1995 items as well. She has verified all items and, whenever possible, obtained copies. She has discovered hundreds of items omitted from the second edition of the Checklist and has augmented the current bibliography by nearly two thousand items published since 1977. The bibliography is divided into four parts. The first, Books and Articles about Dewey, lists works alphabetically by author. Replies and responses to articles immediately follow the work cited. The Reviews of Dewey's Works lists titles alphabetically. Reviews are grouped

alphabetically by journal under the Dewey work reviewed The Author Index includes multiple authors and editors authors of replies and responses and reviewers of works both by and about Dewey The Title Key Word Index lists key words from most titles and subtitles The CD ROM version of Works about John Dewey contains both Windows and Macintosh formats and provides increased search capabilities *Childhood Education* ,1961 Includes music **The History of Art Education** Patricia Marie Amburgy,1992 Works about John Dewey, 1886-2012 Barbara Levine,2013-11-05 Works of John Dewey 1886 2012 is an invaluable and meticulously compiled resource for the growing number of scholars and researchers seeking a deeper understanding of the work of the prominent American philosopher psychologist and educational reformer Dewey 1859 1952 an influential philosopher credited with the founding of pragmatism and also recognized as a pioneer in functional psychology and the progressive moment in education was hailed by Life magazine in 1990 as one of the one hundred most important Americans of the twentieth century This rich and continually expanding compendium of historical and more recent essays research and references is a testament to the growing interest in Dewey s intellectual work and his measurable impact in the United States and throughout the world In Works of John Dewey 1886 2012 some four thousand new entries are presented in ebook format in addition to those from earlier print and electronic editions dating back to 1995 Copies of most of the works have been obtained and are stored at the Center for Dewey Studies For the first time users can access all items from all editions in one user friendly format Jump links to alphabetical sections facilitate movement through the vast collection of entries Users can search by keyword and author Iowa History and Culture ,1989 A thorough bibliography with some annotations when the title does not describe the material Arrangement is in 25 alphabetically sequenced subject categories Four classes of material are excluded genealogies newspaper articles manuscripts audio visual materials Indexed by personal name and sub Studies in Art Education ,1992 **National Union Catalog** ,1972 Includes entries for maps and atlases *Catalog of Copyright Entries.
