## **Ellermans A Wealth Of Shipping:**

**Ellermans: A Wealth of Shipping** , **Ellermans** James Arnold Taylor,1976 International Merchant Shipping in the Nineteenth and Twentieth Centuries Lewis R. Fischer,Even Lange,2017-10-18 This book compiles seven essays concerning changes to merchant shipping over the hundred and fifty years between 1850 and 2000 and spanning a range of countries with particular focus on Norway Greece Japan and England The essays are linked by the theme of change from traditional to modern shipping in fluctuating cargo demands from sail to steam wood to iron in improvements in communication technologies in political natures and affiliations in seafaring skillsets in the advent of containerisation and advent of globalisation The overall aim is to construct a solid international context for the merchant shipping industry in the nineteenth and twentieth centuries primarily to aid a major Norwegian deep sea merchant marine project The book contains an introduction that sets out these aims and seven essays by maritime historians which form part of the international contextual whole though all can be approached individually Wealth and The Wealthy in the Modern World W.D. Rubinstein,2024-01-01 First published in 1980 Wealth and The Wealthy in the Modern World looks at the careers of the very wealthy and the extent of wealth holding and wealth distribution in the major Western nations since the Industrial Revolution Each essay examines how wealth was created controlled and maintained in each country It also considers the relationship between wealthy persons and the rest of society and the divisions amongst the wealthy class Social mobility into top wealth and income brackets is also discussed as are the idiosyncratic features of wealth holding in each society Together these essays provide a broad yet detailed portrait of a social class which has had extraordinary influence on shaping the social history of the Western world in the nineteenth and twentieth centuries This book will be of interest to students of economics political science and development studies A History of Greek-Owned Shipping Gelina Harlaftis,2005-08-17 Greek owned shipping has been at the top of the world fleet for the last twenty years Winner of the 1997 Runciman Award this richly sourced study traces the development of the Greek tramp fleet from the mid nineteenth century to the present day Gelina Harlaftis argues that the success of Greek owned shipping in recent years has been a result not of a number of entrepreneurs using flags of convenience in the 1940s but of networks and organisational structures which date back to the nineteenth century This study provides the most comprehensive history of development of modern Greek shipping ever published It is illustrated with numerous maps and photographs and includes extensive tables of primary data **The World of Shipping** David M. Williams,2018-11-07 Published in 1997 this volume is a collection of seminal articles on a theme of central importance in the study of transport history selected from the leading journal in the field containing articles selected by a distinguished scholar as well as an authoritative new introduction by the volume editor The book will form an essential foundation to the study of the history of shipping Farthing on International Shipping Proshanto K. Mukherjee,Mark Brownrigg,2013-06-12 The book provides an introduction to shipping in all its aspects It is a valuable source of information

for students of traditional maritime law as well as for those who seek to understand maritime and shipping services on a global scale The text includes information and analytical content on national and international practices in shipping including the age old dichotomy between freedom in international shipping and the persistent demands of states to control specific maritime areas as well as the tension between on the one hand the desire on the part of sovereign states to regulate and protect their shipping interests and on the other the abiding concern and unquestioned right of the international community to regulate the global shipping industry effectively in order to ensure maritime safety protection of the environment and fair competition

**The Pool Group and the Quest for Anthropological Universality** Betsy van Schlun, 2016-11-21 Pool was an avant garde group that originated in 1927 in Britain and was active under this name until 1933 The group consisted of the well known modernist poet H D the English writer Bryher and the young Scottish writer and artist Kenneth Macpherson All three were first and foremost writers who at one point discovered film as another modern experimental medium of artistic expression Pool associated with almost all the iconic modernists of their time with Ezra Pound Gertrude Stein Ernest Hemmingway James Joyce Marianne Moore William Carlos Williams T S Eliot and Virginia Woolf to name only a few In addition due to their interest in film they were also befriended with such influential filmmakers as Sergei Eisenstein and Georg Wilhelm Pabst and became closely associated with Weimar Berlin film culture Pool unites classical Modernism and modernity two directions that are usually considered to be contradictory The Pool phenomenon opens a new perspective onto Modernism and prompts a reconsideration of its canonical texts and figures Contrary to many artists of Modernism who devised highly individualistic aesthetic styles the artists of Pool strove towards a universal art of humanity that was rooted in all human nature and psychology

**Guide to the Records of Merseyside Maritime Museum** Merseyside Maritime Museum, 1995 The first volume of the guide summarizes the Merseyside Maritime Museum's holdings of records of official organizations such as the Mersey Docks and Harbour Board connected to the history of the Port of Liverpool as well as the records of Liverpool based shipping companies The second volume similar to the first includes a cumulative index for both volumes and covers collections omitted from the first primarily focusing on the human dimension of the Port of Liverpool no 17 p vii

Encyclopedia of Lesbian and Gay Histories and Cultures Bonnie Zimmerman, George Haggerty, 2021-06-13 A rich heritage that needs to be documented Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavors It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking A groundbreaking new approach While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written for and by a

widerange of people Intended as a reference for students and scholars in all fields as well as for the general public the encyclopedia is written in user friendly language At the same time it maintains a high level of scholarship that incorporates both passion and objectivity It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future

**The Growth and Dissolution of a Large- Scale Business Enterprise** Gordon H. Boyce,2017-10-18 This book is an in depth case study of the Furness Withy and Co Shipping Group which operated both tramp and liner services and was one of the five major British shipping groups of the early twentieth century It demonstrates how British shipowners of this period generated success by exploring Christopher Furness career in relation to the social political and cultural currents during a time of tremendous shipping growth in Britain and the establishment of some of the largest shipping firms in the world It approaches the study from three angles The first analyses how the Furness Group expanded its shipping activities and became involved with the industrial sector The second illustrates the organisational and financial structure of the enterprise Finally the Group s leadership and entrepreneurship is scrutinised and placed within the wider context of twentieth century British business The case study begins in 1870 with an introduction explaining how Christopher Furness came to join the family company Thomas Furness and Co in order develop services expand and instigate the changes and mergers that brought the Furness Group into existence There are thirteen chronologically presented chapters a bibliography and seven appendices of data including an ownership timeline tonnage statistics acquisitions a list of maritime associates and a timeline of Christopher Furness life The book concludes in 1919 with the de merging of the Furness Group s shipping and industrial holdings the resignation of the Furness family from the company s board the sale of their shares and the move into managing the firm s industrial interests

**H.D. and Sapphic Modernism 1910-1950** Diana Collecott,1999-11-25 Diana Collecott proposes that Sappho s presence in H D s work is as significant as that of Homer in Pound s and of Dante in Eliot s

**International Bibliography of Business History** Francis Goodall,Terry Gourvish,Steven Tolliday,2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in

business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians **Co-operative Structures in Global Business** Gordon H. Boyce, 2002-01-04 Using a series of twelve historical case studies that are based on extensive archival research this book explains why firms succeed or fail in communicating or transferring knowledge and discovering new expertise By analysing how workable trade offs between opposing forces have been achieved in the past this study provides a set of guidelines for executives who embark upon inter firm projects **The Ships That Came to Manchester** Nick Robins, 2015-08-15 Explore the fascinating history of the vessels of the Manchester Ship Canal **Guide to the Records of Merseyside Maritime Museum, Volume 1** Gordon Read, Michael Stammers, 2017-10-18 This guide covers the following major collections hosted at the Merseyside Maritime Museum records deposited or presented under the 1958 Public Records Act official organisations including the Merseyside Docks and Harbour Board MDHB antecedents and successors shipping and trade associations and shipowners Other smaller categories are published in the accompanying Part II Vol 17 of Research in Maritime History ISBN 0 9681288 7 4 and together they form a comprehensive catalogue of contents The guide summarises each collection as follows a brief historical introduction a list of main items an archival code a datespan a quantity of records and a reference to any key printed sources held in the museum's Reading Room The museum archives are made up of crucial maritime documentation and are an invaluable resource for maritime historians The museum focuses primarily on Liverpool due to its previous status as the second major port of the United Kingdom it also houses a great deal of national and international records in a vast variety of media Sea Breezes, 1977 **The Globalisation of the Oceans** Frank Broeze, 2017-10-18 This book maintains that container shipping is vital to the actualisation of globalisation and that without it globalisation would remain a concept rather than reality It argues that container shipping has been academically overlooked as a global business sector in favour of more prominent sectors such as oil or arms trade and aims to provide a complete history of containerisation from the 1950s to the turn of the millennium This history explores the growth of the container industry due to prominent innovation in vessel design early adoption of the internet large international mergers and significant physical alterations to the global port system With particular emphasis on the east west trade the chapters cover the growth and development of the container industry to the social changes experienced by seafaring labour forces the cultural impact of the container bringing a domineering land presence to maritime activity through to the environmental concerns surrounding the industry The study is not a quantitative economic analysis of the industry rather an updated history that strives to demonstrate the importance of transport infrastructures to any consideration of global business sectors by providing evidence of the container industry's stimulation of the global economy The History of Foreign Investment in the United States to 1914 Mira Wilkins, 1989 From the colonial era to 1914 America was a debtor nation in international accounts owing more to foreigners than foreigners owed to us By 1914 it was the world's largest debtor nation Mira Wilkins provides the first

complete history of foreign investment in the United States during that period The book shows why the United States was attractive to foreign investors and traces the changing role of foreign capital in the nation s development covering both portfolio and direct investment The immense new wave of foreign investment in the United States today and our return to the status of a debtor nation once again the world s largest debtor nation makes this strong exposition far more than just historically interesting Wilkins reviews foreign portfolio investments in government securities federal state and local and in corporate stocks and bonds as well as foreign direct investments in land and real estate manufacturing plants and even such service sector activities as accounting insurance banking and mortgage lending She finds that between 1776 and 1875 public sector securities principally federal and state securities drew in the most long term foreign investment whereas from 1875 to 1914 the private sector was the main attraction The construction of the American railroad system called on vast portfolio investments from abroad there was also sizable direct investment in mining cattle ranching the oil industry the chemical industry flour production and breweries as well as the production of rayon thread and even submarines In addition there were foreign stakes in making automobile and electrical and nonelectrical machinery America became the leading industrial country of the world at the very time when it was a debtor nation in world accounts
