Technical Analysis of Stock Trends Robert D. Edwards, W.H.C. Bassetti, John Magee, 2012-11-28 Sixty three years Sixty three years and Technical Analysis of Stock Trends still towers over the discipline of technical analysis like a mighty redwood Originally published in 1948 and now in its Tenth Edition this book remains the original and most important work on this topic The book contains more than dry chart patterns it passes down accumulated experience and wisdom from Dow to Schabacker to Edwards and to Magee and has been modernized by W H C Bassetti Bassetti a client friend and student of John Magee one of the original authors has converted the material on the craft of manual charting with TEKNIPLAT chart paper to modern computer software methods In actuality none of Magee s concepts have proven invalid and some of his work predated modern concepts such as beta and volatility In addition Magee described a trend following procedure that is so simple and so elegant that Bassetti has adapted it to enable the general investor to use it to replace the cranky Dow Theory This procedure called the Basing Points procedure is extensively described in the new Tenth Edition along with new material on powerful moving average systems and Leverage Space Portfolio Model generously contributed by the formidable analyst Ralph Vince author of Handbook of Portfolio Mathematics See what s new in the Tenth Edition Chapters on replacing Dow Theory Update of Dow Theory Record Deletion of extraneous material on manual charting New chapters on Stops and Basing Points New material on moving average systems New material on Ralph Vince s Leverage Space Portfolio Model So much has changed since the first edition yet so much has remained the same Everyone wants to know how to play the game The foundational work of the discipline of

technical analysis this book gives you more than a technical formula for trading and investing it gives you the knowledge and wisdom to craft long term success Contrarian Ripple Trading Aidan J. McNamara, Martha A. Brozyna, 2007-09-10

Contrarian Ripple Trading Contrarian Ripple Trading is a well written and well documented observation for stock traders I especially enjoyed hearing the commonsense behind McNamara and Brozyna's method For those individuals looking to cut through the huge amount of poor information out there I think you will thoroughly appreciate this book I found the high percentage of winning trades hard to argue with Jason Alan Jankovsky FOREX trader and author of Trading Rules That Work Making money in today's stock market can be a difficult endeavor especially if you're not an expert in the worlds of finance or business Authors Aidan McNamara and Martha Brozyna a married couple who work outside the investment world but who happen to be active traders can relate to this situation That's why they've created Contrarian Ripple Trading Written in a straightforward and accessible style this reliable resource outlines the approach they've successfully used to capture profits from the stock market for many years With this book as your guide you'll quickly discover how you too can effectively implement a low risk trading technique that consistently generates short term profits on trades in large capitalization stocks regardless of whether the market is moving up down or sideways Throughout the book and in accompanying Appendixes McNamara and Brozyna refer to examples of their flawless trading record 1 225 profitable round trip trades over a twenty six month period to illustrate how contrarian ripple trading can produce a regular stream of profits in many different market conditions By combining aspects of investing notably the need for safety and decent returns with characteristics of short term speculation Contrarian Ripple Trading arms you with a technique that can be used to generate a reliable extra income stream through low risk short term stock trading Valuation of Equity Securities Geoffrey Poitras, 2010-06-30 Provides a
