first systematic investigation of the role played by the nobility in German political life between Germany's defeat in the First World War in 1918 and the consolidation of Nazi power in the 1930s As Stephan Malinowski shows the German nobility was too weak to prevent the German Revolution of 1918 but strong enough to take an active part in the struggle against the Weimar Republic In a real twist of historical irony members of the nobility were as prominent in the destruction of Weimar democracy as they were to be years later in Graf Stauffenberg's July 1944 bomb plot against Hitler In this skilful portrait of an aristocratic world that was soon to disappear Malinowski gives us for the first time the in depth story of the German nobility's social decline and political radicalization in the inter war years and the troubled alliance to which this was to lead between the majority of Germany's nobles and the National Socialists      **HPI: Dark Shadows** Paul Dale
