Emancipations Modern And Postmodern:

Emancipations, Modern and Postmodern Jan Nederveen Pieterse, 1992-11-02 The term emancipation is being increasingly used in recent years possibly reflecting suggests Nederveen Pieterse the limitations of class analysis in the face of collective actions which are not reducible to class and the limitations of postmodern discourse which impairs differentiation among types of collective action This book is also published as volume 23 issue 3 of *Development and Change* Accounting and Emancipation Dr Sonja Gallhofer, Sonja Gallhofer, Professor Jim Haslam, Jim Haslam, 2002-12-19 Accounting is a social practice it should be evaluated in terms of its contribution to a notion of social well being In order to do this this book elaborates a critique of contemporary accounting The authors encourage those with a close interest in accounting to make the search for a more emancipatory and enabling accounting a core area of their interest The book will stimulate debate and activity in the arenas of education research practice and policy making Marxism Against Postmodernism in Educational Theory Dave Hill, 2002-01-01 Written by renowned British and American educational theorists **Marxism Against Postmodernism in Educational Theory** a substantially revised edition of the original 1999 work examines the infusion of postmodernism and theories of postmodernity into educational theory policy and research **Marxism Against Postmodernism in Educational Theory** Mike Cole, Dave Hill, Peter McLaren, 2002-12-11 Postmodernism has become the orthodoxy in educational theory It heralds the end of grand theories like Marxism and liberalism scorning any notion of a united feminist challenge to patriarchy of united anti racist struggle and of united working class movements against capitalist exploitation and oppression For postmodernists the world is fragmented history is ended and all struggles are local and particularistic Written by internationally renowned British and American educational theorists **Marxism Against Postmodernism in Educational Theory** a substantially revised edition of the original 1999 work **Postmodernism in Educational Theory** critically examines the infusion of postmodernism and theories of postmodernity into educational theory policy and research The writers argue that postmodernism provides neither a viable educational politics nor the foundation for effective radical educational practice and offer an alternative politics of human resistance which puts the challenge to capitalism firmly on the agenda of educational theory politics and practice **The 'Postmodern Turn' in the Social Sciences** Simon Susen, 2015-07-23 Simon Susen examines the impact of the postmodern turn on the contemporary social sciences On the basis of an innovative five dimensional approach this study provides a systematic comprehensive and critical account of the legacy of the postmodern turn notably in terms of its continuing relevance in the twenty first century **Emancipation(s)** Ernesto Laclau, 2020-05-05 In *Emancipation s* Ernesto Laclau addresses a central question how have the changes of the last decade together with the transformation in contemporary thought altered the classical notion of emancipation as formulated since the Enlightenment Our visions of the future and our expectations of emancipation have been deeply affected by the changes of recent history the end of the Cold War the explosion of new ethnic and national identities the social fragmentation

under late capitalism and the collapse of universal certainties in philosophy and social and historical thought Laclau here begins to explore precisely how our visions of emancipation have been recast under these new conditions Laclau examines the internal contradictions of the notion of emancipation as it emerged from the mainstream of modernity as well as the relation between universalism and particularism which is inherent in it He explores the making of political identities and the status of central notions in political theory such as representation and power focusing particularly on the work of Derrida and Rorty Emancipation s is a significant contribution to the reshaping of radical political thought

Violence and Emancipation in Colonial Ideology Rohan B. E. Price ,2019-12-01 Are there ethics justifying anti colonial violence How and why did the violence and visions of nationalist movements become incorporated by colonial and neo colonial rule Using the insurrection by the Malayan Communist Party 1948 1960 as an example this book argues that resorting to violence sped up the decolonisation of British Malaya by forcing its colonial administration to invent Malay nationalism and pursue ameliorative social policy among the Chinese diaspora community in a manner clearly derived from the Party s platform Yet this was not the same as giving the country economic emancipation from the expectations of neo colonial rule Violence and Emancipation in Colonial Ideology entertains no warm colonial memories of the cold war years Confirming Price s reputation as a plain speaking critic of Empire apologia this book asks how colonial ideology was considered to be beneath Europe yet desperately needed by it He faces down nostalgic communities defending an outdated view that might was right in South East Asia and that communism failed to contribute to the world that came to be Using an Althusserian assumption the book begs the question if a late colonial state was subjective then how did it claim a sufficiently objective mantle to rule and how did ideological techniques enable this A major contribution to the literature Prof Kerry Brown Professor of Chinese Studies and Director of the Lau China Institute at King s College London an unparalleled command of both scholarly literature and primary sources Prof Bj rn Ahl Professor and Chair of Chinese Legal Culture at the University of Cologne

Premodern Rulers and Postmodern Viewers Janice North,Karl C. Alvstad,Elena Woodacre,2018-02-01 Pop culture portrayals of medieval and early modern monarchs are rife with tension between authenticity and modern mores producing anachronisms such as a feminist Queen Isabel in RTVE s Isabel and a lesbian Queen Christina in The Girl King This book examines these anachronisms as a dialogue between premodern and postmodern ideas about gender and sexuality raising questions of intertemporality the interpretation of history and the dangers of presentism Covering a range of famous and lesser known European monarchs on screen from Elizabeth I to Muhammad XII of Granada this book addresses how the lives of powerful women and men have been mythologized in order to appeal to today s audiences The contributors interrogate exactly what is at stake in these portrayals namely our understanding of premodern rulers the gender and sexual ideologies they navigated and those that we navigate today

Reactualising Emancipation in Contemporary Ethical Discourse Silvia Pierosara,2024-05-22 Nowadays emancipation evokes scenarios of an acquired freedom and is closely linked to autonomy

Emancipation as liberation and freedom imposes a reflection on the conditions in which we live as well as a question concerning what people can free themselves from and what is not possible to liberate oneself from This collection investigates the possibility of relating to emancipation through the eyes of the ethicist What does emancipation mean in the contemporary moral and political landscape How is emancipation possible and from and towards what can humankind aspire to emancipate Which are the unattended promises of emancipation Where when and to whom can one speak of emancipation Assuming a clear ethical and moral standpoint the contributions collected here reply to such questions firstly by re semantising this word and then by re placing it within different philosophical traditions Communicating Ethically William W. Reconstructing Nature Peter Dickens, 2002-11-01 One of the main features of the contemporary environmental crisis is that no one has a clear idea of what is going on. The author uses an extension of Marx's theory of alienation to explain why people find it so difficult to relate their different knowledges of the natural and social world. He argues that nevertheless it is possible to relate these to the abstractions of ecological discourse. Emancipation can come only through embracing science and rationality rather than rejecting them and in the process humanity as well as the non-human world will benefit.

Peasants, Populism and Postmodernism Dr Tom Brass, 2013-02-01 Tracing the way in which the agrarian myth has emerged and re-emerged over the past century in ideology shared by populism, postmodernism and the political right, the argument in this book is that at the centre of this discourse about the cultural identity of otherness, difference lies the concept of and innate peasantness. In a variety of contextually specific discursive forms, the old populism of the 1890s and the nationalism and fascism in Europe, America and Asia during the 1920s and 1930s were all informed by the agrarian myth. The postmodern new populism and the new right, both of which emerged after the 1960s and consolidated during the 1990s, are also structured discursively by the agrarian myth and with it the ideological reaffirmation of peasant essentialism.
