Emblems Of Margaret Gatty A Study Of All:

The Emblems of Margaret Gatty Wendy Roberta Katz, 1993 Margaret Gatty was a mid Victorian children's author who also wrote *Book of Emblems* in 1872 This critical study examines the relationship of that book to 19th century allegorical writings for children

Revealing New Worlds Suzanne Le-May Sheffield, 2013-09-05 The story of nineteenth century science often tells a tale of a masculinized professionalizing domain Scientific man increasingly pushed women out marginalized them and constructed them as naturally feminine creatures incapable of intellectual work particularly scientific work Yet many women participated in various scientific endeavours throughout the century This work asks why when the waters were so inviting did women dive deeply into the swirling maelstrom of scientific practice scientific controversies and scientific writing Victorian women certainly recognised that male naturalists were not always willing to welcome them warmly into their inner sanctum of scientific work honour and prestige Moreover they recognised the existence of a more general social stigma that thwarted any woman's participation in intellectual endeavours However their fascination with algology botany and entomology led Margaret Gatty Marianne North and Eleanor Ormerod to reach beyond acceptable gendered roles to undertake field work to paint write popularize experiment and discover Each exhibited a passion for their chosen field a need for intellectual artistic and scientific work and a desire for scientific recognition and renown This book examines the ability of women to understand themselves and respond to their needs as complex human beings Within a framework of socially and scientifically constructed norms these Victorian women used science as a path to self awareness and intellectual accomplishment

Companion to Emblem Studies Peter Maurice Daly, 2008 Scholars in multiple disciplines now recognize the emblem as a significant expression of the cultural life of the Renaissance and the Baroque reflecting a panoply of interests ranging from war to love from religion to philosophy to politics from the sciences to the occult from social mores to encyclopedic knowledge and from serious speculation to entertainment Following Andrea Alciato's publication of the first emblem book in 1531 the form enjoyed its heyday in the seventeenth century appearing in speeches sermons and printed texts but also in wall and ceiling decorations jewelry carvings paintings and other material expressions Beyond this early boom the emblem was again present in eighteenth century title pages and frontispieces and experienced twentieth century manifestations during the ideological battles of both world wars and Quebec's attempt at secession from Canada The Companion to Emblem Studies introduces the multiple forms that the emblem has taken through nearly five centuries of production and offers an interdisciplinary and international assessment of the long history of this pervasive symbolic device use those vernacular languages on Alciato the father and prince of emblems on bibliography and theory on the Jesuit and Neo Latin emblems which cut across national groupings on flags and tournaments and on emblems in recent material culture logos and advertisements The Companion features 130 illustrations and concludes

with a Selective Bibliography for Further Reading which includes works written in western European languages and expands the volume's usefulness for researchers and students in the field *Emblemes (1635) and Hieroglyphikes of the Life of Man (1638)* Francis Quarles, Karl Josef Höltgen, John Horden, Francis Quarles, Edward Benlowes, **Studies in seventeenth-century imagery** Mario Praz, 2001 **Emblematic Strategies in Pre-Raphaelite Literature** Heather McAlpine, 2019-10-14 In this book Heather McAlpine argues that emblematic strategies play a more central role in Pre-Raphaelite poetics than has been acknowledged and that reading Pre-Raphaelite works with an awareness of these strategies permits a new understanding of the movement's engagements with ontology religion representation and politics The emblem is a discursive practice that promises to stabilize language in the face of doubt making it especially interesting as a site of conflicting responses to Victorian crises of representation Through analyses of works by the Pre-Raphaelite Brotherhood Christina Rossetti Dante Gabriel Rossetti Gerard Manley Hopkins A C Swinburne and William Morris Emblematic Strategies examines the Pre-Raphaelite movement's common goal of conveying truth while highlighting differences in its adherents approaches to that task **Iconography in Cultural Studies** Attila Kiss, 1996 Evolutionary Naturalism in Victorian Britain Bernard Lightman, 2023-05-31 Scholars have tended to portray T H Huxley John Tyndall and their allies as the dominant cultural authority in the second half of the 19th century Defenders of Darwin and his theory of evolution these men of science are often seen as a potent force for the secularization of British intellectual and social life In this collection of essays Bernard Lightman argues that historians have exaggerated the power of scientific naturalism to undermine the role of religion in middle and late Victorian Britain The essays deal with the evolutionary naturalists especially the biologist Thomas Henry Huxley the physicist John Tyndall and the philosopher of evolution Herbert Spencer But they look also at those who criticized this influential group of elite intellectuals including aristocratic spokesman A J Balfour the novelist Samuel Butler and the popularizer of science Frank Buckland Focusing on the theme of the limitations of the cultural power of evolutionary naturalism the volume points to the enduring strength of religion in Britain in the latter half of the 19th century Muta poesis, pictura loquens: Interdisciplinary perspectives on emblem studies Filipa Medeiros Araújo, Manuel Ferro, Ingrid Hoepel, José Julio García Arranz, This volume offers a selection of 16 texts that were presented at the 12th International Conference of the Society for Emblem Studies held at the University of Coimbra from 25 to 30 July 2022 Each chapter focuses on a different approach to emblematics fostering new directions in research The work explores the connections to iconographical studies investigates emblematic sources applied on material culture discusses the didactic and or propagandistic use of emblems and showcases the challenges of publishing manuscripts and digital editions The final contribute brings a stimulating preview of the future of emblem studies **Victorian Science in Context** Bernard Lightman, 2008-07-31 Victorians were fascinated by the flood of strange new worlds that science was opening to them Exotic plants and animals poured into London from all corners of the Empire while revolutionary theories such as the radical idea

that humans might be descended from apes drew crowds to heated debates Men and women of all social classes avidly collected scientific specimens for display in their homes and devoured literature about science and its practitioners Victorian Science in Context captures the essence of this fascination charting the many ways in which science influenced and was influenced by the larger Victorian culture Contributions from leading scholars in history literature and the history of science explore questions such as What did science mean to the Victorians For whom was Victorian science written What ideological messages did it convey The contributors show how practical concerns interacted with contextual issues to mold Victorian science which in turn shaped much of the relationship between modern science and culture **Science in the Nursery**

Laurence Talairach-Vielmas, 2011-01-18 This edited collection aims to examine the popularisation of science for children in Britain and France from the middle of the eighteenth century to the end of the Victorian period It compares and contrasts for the first time popular science works published at the same time in the two countries focusing both on non fictional and fictional texts Starting when children s literature emerged as a genre to the end of the nineteenth century it addresses the ways in which popular science for children engaged with wider debates and issues concerning such topics as gender or religion Each individual essays brings home how children s literature revealed contemporary tensions which professional scientists confronted The wide range of scientific topics examined from physics and astronomy to natural history and anthropology offers a large spectrum of types of popular science works for children Guide to the Literature of Art History

2 Max Marmor, Alex Ross, 2005 This bibliography supplements the greatest of modern art bibliographies Etta Arntzen and Robert Rainwater s Guide to the literature of art history ALA 1980 Preface **Victorian Popularizers of Science** Bernard Lightman, 2009-10-15 The ideas of Charles Darwin and his fellow Victorian scientists have had an abiding effect on the modern world But at the time The Origin of Species was published in 1859 the British public looked not to practicing scientists but to a growing group of professional writers and journalists to interpret the larger meaning of scientific theories in terms they could understand and in ways they could appreciate Victorian Popularizers of Science focuses on this important group of men and women who wrote about science for a general audience in the second half of the nineteenth century Bernard Lightman examines more than thirty of the most prolific influential and interesting popularizers of the day investigating the dramatic lecturing techniques vivid illustrations and accessible literary styles they used to communicate with their audience By focusing on a forgotten coterie of science writers their publishers and their public Lightman offers new insights into the role of women in scientific inquiry the market for scientific knowledge tensions between religion and science and the complexities of scientific authority in nineteenth century Britain **Children's Literature and**

Transnational Knowledge in Modern China Shih-Wen Sue Chen, 2019-04-29 This book examines the development of Chinese children s literature from the late Qing to early Republican era It highlights the transnational flows of knowledge texts and cultures during a time when children s literature in China and the West was developing rapidly Drawing from a rich

archive of periodicals novels tracts primers and textbooks the author analyzes how Chinese children's literature published by Protestant missionaries and Chinese educators in the late nineteenth and early twentieth centuries presented varying notions of childhood In this period of dramatic transition from the dynastic Qing empire to the new Republican China young readers were offered different models of childhood some of which challenged dominant Confucian ideas of what it meant to be a child This volume sheds new light on a little explored aspect of Chinese literary history Through its contributions to the fields of children's literature book history missionary history and translation studies it enhances our understanding of the negotiations between Chinese and Western cultures that shaped the publication and reception of Chinese texts for children **Aspects**
