**Embodiment of a Nation** Cecelia TICH, Cecelia Tichi, 2009-06-30 From Harriet Beecher Stowe's image of the Mississippi's bosom to Henry David Thoreau's Cape Cod as the bared and bended arm of Massachusetts the American environment has been represented in terms of the human body Exploring such instances of embodiment Cecelia Tichi exposes the historically varied and often contrary geomorphic expression of a national paradigm **Ecosocial Theory, Embodied Truths, and the People's Health** Nancy Krieger, 2021-09-17 Drawing on an array of novel examples such as workplace discrimination relationship abuse Jim Crow climate change and pesticides Nancy Krieger argues for a more expansive understanding of how humans biologically embody our societal and ecological contexts Reading Embodied Citizenship Emily Russell, 2011-02-25 Liberal individualism a foundational concept of American politics assumes an essentially homogeneous population of independent citizens When confronted with physical disability and the contradiction of seemingly unruly bodies however the public searches for a story that can make sense of the difference The narrative that ensues makes abnormality an important part of the dialogue about what a genuine citizen is though its role is concealed as an exception to the rule of individuality rather than a defining difference Reading Embodied Citizenship brings disability to the forefront illuminating its role in constituting what counts as U S citizenship Drawing from major figures in American literature including Mark Twain Flannery O Connor Carson McCullers and David Foster Wallace as well as introducing texts from the emerging canon of disability studies Emily Russell demonstrates the place of disability at the core of American ideals The narratives prompted by the encounter between physical difference and the body politic require a new understanding of embodiment as a necessary conjunction of physical textual and social bodies Russell examines literature to explore and unsettle long held assumptions about American citizenship **Ian McHarg and the Search for Ideal Order** Kathleen John-Alder, 2019-09-17 Ian McHarg and the Search for Ideal Order looks at the well known and studied landscape architect Ian McHarg in a new light The author explores McHarg's formative years and investigates how his ideas developed in both their complexity and scale As a precursor to McHarg's approach in his influential book Design with Nature this book offers new interpretations into his search for environmental order and outlines how his struggle to understand humanity's relationship to the environment in an era of rapid social and technological change reflects an ongoing challenge that landscape design has yet to fully resolve This book will be of great interest to academics and researchers in landscape architectural history **Bodies, Embodiment, and Theology of the Hebrew Bible** S. Tamar Kamionkowski, Wonil Kim, 2010-05-20 Recognizing that human experience is very much influenced by inhabiting bodies the past decade has seen a surge in studies about representation of bodies in religious experience and human imaginations regarding the Divine The understanding of embodiment as central to human experience has made a big impact within religious studies particularly in contemporary Christian theology feminist cultural and ideological criticism and anthropological approaches to the Hebrew

Bible Within the sub field of theology of the Hebrew Bible the conversation is still dominated by assumptions that the God of the Hebrew Bible does not have a body and that embodiment of the divine is a new concept introduced outside of the Hebrew Bible To a great extent the insights regarding how body discourse can communicate information have not yet been incorporated into theological studies

A Road Course in Early American Literature Thomas Hallock, 2021-02-23 A Road Course in Early American Literature Travel and Teaching from Atzl n to Amherst explores a two part question what does travel teach us about literature and how can reading guide us to a deeper understanding of place and identity Thomas Hallock charts a teacher s journey to answering these questions framing personal experiences around the continued need for a survey course covering early American literature up to the mid nineteenth century Hallock approaches literary study from the overlapping perspectives of pedagogue scholar unrepentant tourist husband father friend and son Building on Ralph Waldo Emerson s premise that there is creative reading as well as creative writing Hallock turns to the vibrant and accessible tradition of American travel writing employing the form of biblio memoir to bridge the impasse between public and academic discourse and reintroduce the dynamic field of early American literature to wider audiences Hallock s own road course begins and ends at the Lowcountry of Georgia and South Carolina following a circular structure of reflection He weaves his journey through a wide swath of American literatures and authors from Native American and African American oral traditions to Wheatley and Equiano through Emerson Poe and Dickinson among others A series of longer place oriented narratives explore familiar and lesser known literary works from the sixteenth century invasion of Florida through the Mexican War of 1846 1848 and the American Civil War Shorter chapters bridge the book s central themes the mapping of cognitive and physical space our personal stake in reading the tensions that follow earlier acts of erasure and the impossibility of ever fully shutting out the past Exploring complex cultural histories and contemporary landscapes filled with ghosts and new voices this volume draws inspiration from a tradition of travel place oriented and literature based works ranging from William Carlos Williams s *In the American Grain* and Jack Kerouac s *On the Road* to Alice Walker s *In Search of Our Mother s Gardens* Wendy Lesser s *Why I Read The Serious Pleasure of Books* and Rebecca Mead s *My Life in Middlemarch* An accompanying bibliographic essay is periodically updated and available at Hallock s website [www.roadcourse.us](http://www.roadcourse.us)

Faulkner and the Ecology of the South Joseph R. Urgo, Ann J. Abadie, 2009-09-18 In 1952 Faulkner noted the exceptional nature of the South when he characterized it as the only really authentic region in the United States because a deep indestructible bond still exists between man and his environment The essays collected in *Faulkner and the Ecology of the South* explore Faulkner s environmental imagination seeking what Ann Fisher Wirth calls the ecological counter melody of his texts Ecology was not a term in common use outside the sciences in Faulkner s time However the word environment seems to have held deep meaning for Faulkner Often he repeated his abiding interest in man in conflict with himself with his fellow man or with his time and place his environment Eco criticism has led to a renewed interest among literary scholars for

what in this volume Cecelia Tichi calls humanness within congeries of habitats and environments Philip Weinstein draws on Pierre Bourdieu's notion of habitus Eric Anderson argues that Faulkner's fiction has much to do with ecology in the sense that his work often examines the ways in which human communities interact with the natural world and François Pitavy sees Faulkner's wilderness as unnatural in the ways it represents reflections of man's longings and frustrations Throughout these essays scholars illuminate in fresh ways the precarious ecosystem of Yoknapatawpha County

**Critical Posthumanism: Cloned, Toxic and Cyborg Bodies in Fiction** Pelin Kümbet, 2020-12-25 Focusing on three representations of posthuman bodies as cloned bodies in Kazuo Ishiguro's *Never Let Me Go* 2005 toxic bodies in Indra Sinha's *Animal's People* 2007 and cyborg bodies in Justina Robson's *Natural History* 2004 from the theoretical perspectives of posthuman definition of what it means to be human this study discusses the changing concept of the body In this context the integral and dynamic connection between a human body and the world is of special significance which opens up new possibilities to reconfigure the human body that is no longer conceded separate from the nonhuman world but embodied in it Each of the novels significantly displays the in-betweenness of humans by making them interact with chemical substances machines and other nonhuman entities and shows how clear cut distinctions between the human and the nonhuman bodies have collapsed
