Dramatic Global Population Growth Embraces the Growing Older Population Edward A McKinney, 2018-11-16

The world is witnessing a dramatic demographic population growth explosion across all age groups that had its beginning around the early 1800s when the first billion people in population was recorded Most importantly has been an increasing growth in the older population Does population aging matter in the twenty first century Yes it matters because as research has pointed out the increasing older population globally will have a significant impact on all essential societal systems the family pensions and retirement and financial institutions as well as medical health and social systems This growth explosion or phenomenon will affect all continents countries and regions regardless of economic political and military power Causative factors for this global growth in population have come about primarily as a result of medical advances innovations agricultural development and the industrial revolution especially the development of railways seaways and highways A major emphasis of the book focuses on several very important factors the growing older population as aforementioned especially its impact on all of essential societal systems and the subject of ageism Ageism becomes extremely important considering that the growing older population the silver tsunami represents the new majority This new majority will no longer be ignored Gerontologists for years have attempted to call attention to the fact Expectations for old people are based on negative age stereotypes Members of American society generally expect and even encourage the aged to be asexual intellectually rigid unproductive ineffective and disengaged Seniors are supposed to stay out of the way sit in their rocking chairs and enjoy the golden years They are expected to be inactive invisible but happy

Levin J and Levin W *Ageism Prejudice and Discrimination Against the Elderly* California Wadsworth Publishing 1941 pp 97 98

Speaking of being ignored why aren't more members of the older population involved at the decision making tables in shaping a society for all ages After all they would bring years of experiences skills knowledge and values for creating a society for all ages in the twenty first century with justice and human rights for all Currently there is a global movement with a goal of the eradication of ageism in all of its forms Some will recall from several decades ago the Grey Panther Movement in America with a similar mission of the eradication of all injustices at the time being experienced by the older population The current movement says The time is now not later One major social injustice being experienced by the growing old population globally is the lack of income security in old age including the lack of access to other essential services such as medical health and social including long term care More than 50 percent 51 percent of older persons globally do not have basic

income security or a social pension in retirement A more alarming statistic is that in Sub Saharan Africa forty seven countries eight two percent 82 5 of retirees do not have a social pension Yes for the older population the new majority the time is now for correcting the aforementioned injustices Maybe what is needed is a human seismic force comprising the new majority to initiate a social movement with a goal of the eradication of all forms of ageism and ensuring that the growing older

population will live in dignity and respect in later life including social protection pensions **Mother Heart Journey: Sakina Sario** Azhar ul Haque Sario,2024-06-18 Mother Heart Journey Sakina Sario isn t just another book about motherhood it s an intimate conversation with mothers from all walks of life It s about the gut feeling you get when your child needs you the sparks of creativity that ignite when you become a mom and the unbreakable bond that grows between a mother and child This book dives deep into the messy beautiful and sometimes overwhelming world of motherhood It celebrates the way raising children helps us learn to love ourselves the delicate dance between guiding and letting go and the healing power of a mother s love You ll find stories of resilience and strength of mothers who have faced incredible challenges and emerged even stronger In Mother Heart Journey we explore the magic of storytelling the importance of taking care of ourselves so we can take care of others and the unique bond between mothers and daughters mothers and sons and across generations You ll be inspired by stories of mothers who are changing the world fighting for what s right and leaving a lasting legacy for their families and communities Whether you re a new mom a seasoned pro or simply curious about the mother child connection this book will speak to your heart It s a reminder that motherhood is a journey not a destination and that every step of the way is filled with love laughter and the occasional tear **Restaging War in the Western World** M.
