Embroidery In Britain 1200 To 175:

The Pictorial Arts of the West, 800-1200 Charles Reginald Dodwell, 1993-01-01 Between the ninth and thirteenth centuries the Western world witnessed a glorious flowering of the pictorial arts In this lavishly illustrated book C R Dodwell provides a comprehensive guide to all forms of this art from wall and panel paintings to stained glass windows mosaics and embroidery and sets them against the historical and theological influences of the age Dodwell describes the rise and development of some of the great styles of the Middle Ages Carolingian art which ranged from the splendid illuminations appropriate to an emperor's court to drawings of great delicacy Anglo Saxon art which had a rare vitality and finesse Ottonian art with its political and spiritual messages the colorful Mozarabic art of Spain which had added vigor through its interaction with the barbaric Visigoths and the art of Italy influenced by the styles of Byzantium and the West Dodwell concludes with an examination of the universal Romanesque style of the twelfth century that extended from the Scandinavian countries in the north to Jerusalem in the south His book which includes the first exhaustive discussion of the painters and craftsmen of the time incorporates the latest research and is filled with new ideas about the relations among the arts history and theology of the period will be an invaluable resource for both art historians and students of the Middle Ages

Clothing the Past: Surviving Garments from Early Medieval to Early Modern Western Europe Elizabeth Coatsworth, Gale Owen-Crocker, 2018-02-12 An astonishing number of medieval garments survive more or less complete Here the authors present 100 items ranging from homely to princely The book's wide ranging introduction discusses the circumstances in which garments have survived to the present sets and collections constructional and decorative techniques iconography inscriptions on garments style and fashion Detailed descriptions and discussions explain technique and ornament investigate alleged associations with famous people many of them spurious and demonstrate even when there are no known associations how a garment may reveal its own biography a story that can include repair remaking recycling burial resurrection and veneration accidental loss or deliberate deposition The authors both have many publications in the field of medieval studies including previous collaborations on medieval textiles such as *Medieval Textiles of the British Isles AD 450-1100* an Annotated Bibliography 2007 the *Encyclopedia of Medieval Dress and Textiles of the British Isles* 2012 and online bibliographies *Faded and Threadbare Historic Textiles and their Role in Houses Open to the Public* Margaret Ponsonby, 2016-04-15 Many historic houses that open to the public in England and Wales particularly those owned by the National Trust preserve their contents rather than restore them to a particular period The former owners of these houses often retained objects from various periods and this layering of history produces interiors that look aged and patinated Although the reason for this preservation and lack of fashionable renewable can be attributed to declining economic fortunes in the twentieth century there are many examples of families practising this method of homemaking over a much longer period Taking National Trust properties as its central focus this book examines three interlocking themes to examine the role

of historic textiles Firstly it looks at houses with preserved contents together with the reasons for individual families choosing this lifestyle secondly the role of the National Trust as both guardian and interpreter of these houses and their collections and finally and most importantly the influence of textiles to contribute to the appearance of interiors and their physical attributes that carry historical resonances of the past The importance of preserved textiles in establishing the visual character of historic houses is a neglected area and therefore the prominence given to textiles in this project constitutes an original contribution to the study of these houses Drawing upon a range of primary sources including literature produced by the National Trust for their sites and documentary sources for the families and their houses such as diaries letters and household accounts the study takes a broad approach that will be of interest to all those with an interest in material culture heritage collecting studies and cultural history

War and Violence in the Western Sources for the First Crusade Sini Kangas, 2024-05-27 Medieval Westerners accepted killing for religion and praised the outcome of the First Crusade 1096 1099 At the same time their attitude to violence was ambivalent Theologians shunned the practical use of force while the warrior aristocracy valued the capacity for physical destruction In the absence of theological doctrine on the practicalities of holy warfare the first crusaders draw their ideas about killing from diverse and sometimes conflicting traditions This book answers questions about how religious violence was described justified and remembered in the sources of the First Crusade What was the relation between faith convention and action
