Emergence Of Christian Culture In The:

A History of the Christian Church Lars P. Qualben, 2008-09-01 **The Emergence of Christian Culture in the West** Henry Osborn Taylor, 1958 **The Rise of Christian Theology and the End of Ancient Metaphysics** Johannes Zachhuber, 2020-05-28 It has rarely been recognized that the Christian writers of the first millennium pursued an ambitious and exciting philosophical project alongside their engagement in the doctrinal controversies of their age The Rise of Christian Theology and the End of Ancient Metaphysics offers for the first time a full analysis of this Patristic philosophy It shows how it took its distinctive shape in the late fourth century and gives an account of its subsequent development until the time of John of Damascus The book falls into three main parts The first starts with an analysis of the philosophical project underlying the teaching of the Cappadocian fathers Basil of Caesarea Gregory of Nyssa and Gregory of Nazianzus This philosophy arguably the first distinctively Christian theory of being soon became near universally shared in Eastern Christianity Just a few decades after the Cappadocians all sides in the early Christological controversy took its fundamental tenets for granted Its application to the Christological problem thus appeared inevitable Yet it created substantial conceptual problems Parts two and three describe in detail how these problems led to a series of increasingly radical modifications of the Cappadocian philosophy In part two Zachhuber explores the miaphysite opponents of the Council of Chalcedon while in part three he discusses the defenders of the Council from the early sixth to the eighth century Through this overview the book reveals this period as one of remarkable philosophical creativity fecundity and innovation **A Sociological History of Christian Worship** Martin D. Stringer, 2005-07-14 In this book the 2000 year history of Christian worship is viewed from a sociological perspective Martin Stringer develops the idea of discourse as a way of understanding the place of Christian worship within its many and diverse social contexts Beginning with the Biblical material the author provides a broad survey of changes over 2000 years of the Christian church together with a series of case studies that highlight particular elements of the worship or specific theoretical applications Stringer does not simply examine the mainstream traditions of Christian worship in Europe and Byzantium but also gives space to lesser known traditions in Armenia India Ethiopia and elsewhere Offering a contribution to the ongoing debate that breaks away from a purely textual or theological study of Christian worship this book provides a greater understanding of the place of worship in its social and cultural context *Critical Readings in the History of Christian Mission* Martha Frederiks, Dorottya Nagy, 2021-06-22 This selection of texts introduces students and researchers to the multi and interdisciplinary field of mission history It apprises them with current discussions insights and theories The four parts of this book acquaint the readers with methodological considerations and recurring themes in the academic study of the history of mission Part one revolves around methods part two documents approaches while parts three and four consist of thematic clusters such as mission and language medical mission mission and education women and mission mission and politics and mission and art The text selection represents a wide variety of disciplines

authors and backgrounds The texts were chosen because they address the complexities involved in studying the history of Christian mission Critical Readings in the History of Christian Mission is suitable for course work and other educational purposes

Osip Mandelstam and the Modernist Creation of Tradition Clare Cavanagh, 1994-11-14 If modernism marked as some critics claim an apocalypse of cultural community then Osip Mandelstam 1891-1938 must rank among its most representative figures Born to Central European Jews in Warsaw on the cusp of the modern age he could claim neither Russian nor European traditions as his birthright Describing the poetic movement he helped to found Acmeism as a yearning for world culture he defined the impulse that charges his own poetry and prose Clare Cavanagh has written a sustained study placing Mandelstam s remembrance and invention of a usable poetic past in the context of modernist writing in general with particular attention to the work of T S Eliot and Ezra Pound Cavanagh traces Mandelstam s creation of tradition from his earliest lyrics to his last verses written shortly before his arrest and subsequent death in a Stalinist camp Her work shows how the poet generalizing from his own dilemmas and disruptions addressed his epoch s paradoxical legacy of disinheritance and how he responded to this unwelcome legacy with one of modernism s most complex ambitious and challenging visions of tradition Drawing on not only Russian and Western modernist writing and theory but also modern European Jewish culture Russian religious thought postrevolutionary politics and even silent film Cavanagh traces Mandelstam s recovery of a world culture vital vast and varied enough to satisfy the desires of the quintessential outcast modernist
