North,2025-06-17 A provocative new look at concepts of the present their connection to ideas about time and their effect on literature art and culture The problem of the present what it is and what it means is one that has vexed generations of thinkers and artists Because modernity places so much value on the present many critics argue that people today spend far too much time in the here and now but how can we tell without first knowing what the here and now actually is What Is the Present takes a provocative new look at this moment in time that remains a mystery even though it is always with us Michael North tackles puzzles that have preoccupied philosophy neuroscience psychology history and aesthetic theory and examines the complex role of the present in painting fiction and film He engages with a range of thinkers from Aristotle and Augustine to William James and Henri Bergson He draws illuminating examples from artists such as Fra Angelico and Richard McGuire filmmakers like D W Griffith and Christopher Nolan and novelists such as Elizabeth Bowen and Willa Cather North offers a critical analysis of previous models of the present from the experiential present to the historical period we call the contemporary He argues that the present is not a cosmological or experiential fact but a metaphor a figurative relationship with the whole of time Presenting an entirely new conception of the temporal mystery Georg Luk cs called the unexplained instant What Is the Present explores how the arts have traditionally represented the present and also how artists have offered radical alternatives to that tradition      Meditation Sri Chinmoy,1978 One of the most authoritative and

comprehensive books on the subject a major resource One prominent feature is this meditation master s simple and clear answers to 150 questions asked by seekers over the years      *Melville's Philosophies* Branka Arsic,K. L. Evans,2017-05-18 Melville s Philosophies departs from a long tradition of critical assessments of Melville that dismissed his philosophical capacities as ingenious but muddled Its contributors do not apply philosophy to Melville in order to detect just how much of it he knew or understood To the contrary they try to hear the philosophical arguments themselves often very strange and quite radical that Melville never stopped articulating and reformulating What emerges is a Melville who is materialistically oriented in a radical way a Melville who thinks about life forms not just in the context of contemporary sciences but also ontologically Melville s Philosophies recovers a Melville who is a thinker of great caliber which means obliquely but dramatically reversing the way the critical tradition has characterized his ideas Finally as a result of the readings collected

here Melville emerges as a very relevant thinker for contemporary philosophical concerns such as the materialist turn climate change and post humanism      A Realistic Universe John Elof Boodin,1916      **Revisiting Women's Cinema** Lingzhen Wang,2020-12-14 In Revisiting Women s Cinema Lingzhen Wang ponders the roots of contemporary feminist stagnation and the limits of both commercial mainstream and elite minor cultures by turning to socialist women filmmakers in modern China She foregrounds their sociopolitical engagements critical interventions and popular artistic experiments offering a new conception of socialist and postsocialist feminisms mainstream culture and women s cinema Wang highlights the films of Wang Ping and Dong Kena in the 1950s and 1960s and Zhang Nuanxin and Huang Shuqin in the 1980s and 1990s to unveil how they have been profoundly misread through extant research paradigms entrenched in Western Cold War ideology post second wave cultural feminism and post Mao intellectual discourses Challenging received interpretations she elucidates how socialist feminism and culture were conceptualized and practiced in relation to China s search not only for national independence and economic development but also for social emancipation proletarian culture and socialist internationalism Wang calls for a critical reevaluation of historical materialism socialist feminism and popular culture to forge an integrated emancipatory vision for future transnational feminist and cultural practices      **Malvina, or the Heart's Intuition** Maria Wirtemberska,2012-05-15 First published in Warsaw in 1816 Malvina or the Heart s Intuition has been largely and unjustly ignored by the Polish literary canon Ingeniously structured and vividly related by a Tristram Shandy esque narrator Maria Wirtemberska s psychologically complex work is often considered Poland s first modern novel This splendid translation by Ursula Phillips should restore Wirtemberska to her rightful place in the literary pantheon while providing fertile new ground for the study of the international development of the novel The romantic story of the young widow Malvina and her mysterious lover Ludomir Malvina combines several literary styles and influences from the epistolary to the Gothic Nobel laureate Czeslaw Milosz argues that Malvina is quintessentially a sentimental novel a model of the genre whose chief aspiration is to promote a change in sensibility and inspire new forces of feeling and imagination For this reason Wirtemberska may be compared to her English contemporary Jane Austen A work of genuine artistic daring and sophistication Malvina or the Heart s Intuition has been overlooked by critics for too long and readers have been denied the pleasure of reading one of literature s major landmarks until now
