On to the Unknown Sidney Sistrunk, 2012-08 The Chief a dying billionaire has dreams as big as his net worth Before he dies he'll see the biggest one come true A lifetime of observing the sky has rewarded him with a destination and now nothing will stop him from seeing his dreams brought to life He's found what he believes is the sister star to his own sun and he fully expects to find inhabitable planets there He has committed himself to financing an interstellar expedition and now all he needs is a crew He is building a ship for the journey a ship that he's convinced can reach half the speed of light If his math is on target the round trip to this new planet should take roughly twenty eight years But for the crew the time will pass as in a dream as they safely hibernate in freezers designed for the journey He has certain specific requirements of his crew but first he must find a recruiter someone to assemble the crew of his dreams The rewards are enticing the Chief believes His crew will be the first humans to walk on an alien world and on top of that they will be handsomely paid So the search begins for single educated and adventurous souls who want to go on the adventure of a lifetime But like most grand dreams things do not always go as planned Can his crew save the Chief's dreams and their lives
